HOMIDEC 4-Tier Foldable Clothes Drying Rack

Model: ZMY22102802

1. INTRODUCTION

Thank you for choosing the HOMIDEC 4-Tier Foldable Clothes Drying Rack. This product is designed to provide an efficient and space-saving solution for drying clothes both indoors and outdoors. Constructed from durable stainless steel and featuring a convenient foldable design with wheels, it offers versatility and ease of use. Please read this manual carefully before assembly and operation to ensure proper use and longevity of your drying rack.

2. PRODUCT OVERVIEW

The HOMIDEC 4-Tier Foldable Clothes Drying Rack features a robust design with multiple levels for maximum drying capacity. Its key features include:

- **4 Tiers:** Provides ample space for various clothing items.
- **Foldable Design:** Allows for compact storage when not in use.
- **Wheels with Brakes:** Enables easy movement and secure positioning.
- **Stainless Steel Construction:** Ensures durability and resistance to rust.
- **Side Hanger Wings:** Offers additional hanging space for garments on hangers.

3. SETUP AND ASSEMBLY

The HOMIDEC drying rack is designed for straightforward assembly. All necessary parts are typically numbered and packaged for easy identification. An assembly tool is usually included.

3.1 Assembly Steps:

1. Unpack all components and verify against the parts list (not provided in this manual, refer to your product packaging).
2. Attach the base supports and wheels to the main vertical poles. Ensure wheels are securely fastened.
3. Insert the vertical poles into the base.
4. Attach the horizontal drying racks to the vertical poles at the designated tier levels. Ensure they click into place securely.
5. Install the side hanger wings at the top of the rack.
6. Confirm all connections are tight and the rack is stable before use.

3.2 Folding and Unfolding:

The rack features a convenient folding mechanism for storage. To fold, gently lift the side drying racks upwards and push them inwards towards the central column. To unfold, pull the racks outwards until they lock into their horizontal position.

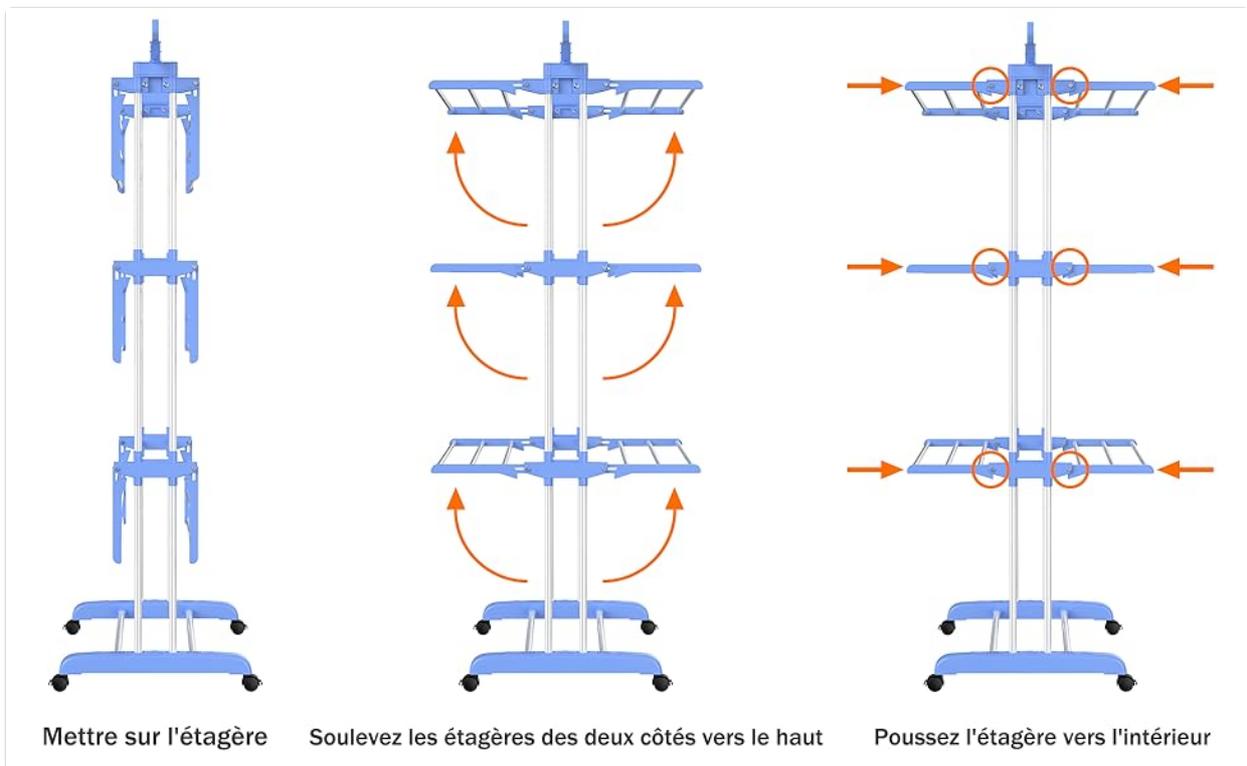

Figure 3.1: Visual guide demonstrating the three steps to fold the drying rack for compact storage.

4. OPERATING INSTRUCTIONS

4.1 Placing Clothes:

- Distribute clothes evenly across the four tiers to maintain balance and stability.
- Utilize the side hanger wings for items that require hanging on clothes hangers.
- For optimal drying, ensure adequate airflow between garments. Avoid overcrowding.

4.2 Moving the Rack:

- To move the rack, unlock the brakes on the wheels.
- Gently push or pull the rack to the desired location.
- Once positioned, engage the wheel brakes to secure the rack in place.

5. MAINTENANCE

- **Cleaning:** Wipe down the stainless steel rods and plastic components with a damp cloth and mild detergent. Avoid abrasive cleaners that may damage the finish.
- **Inspection:** Periodically check all connections and joints to ensure they remain secure. Tighten any loose screws or fittings.
- **Storage:** When not in use, fold the rack and store it in a dry place to prolong its lifespan.

6. TROUBLESHOOTING

- **Instability:** If the rack feels wobbly, ensure clothes are distributed evenly. Check that all assembly connections are tight. The double-column design enhances stability compared to single-column models.
- **Slow Drying for Bulky Items:** Large items like sheets or heavy towels may require more space or folding to allow for better air circulation. Consider hanging them on the top tiers or side wings if possible.
- **Parts Coming Loose:** During use, if parts become loose, re-tighten them immediately. This can occur with heavy loads or frequent movement.
- **Wheels Not Locking:** Ensure the brake levers on the wheels are fully engaged. If wheels are still moving, check for any obstructions or damage to the brake mechanism.

Figure 6.1: Illustrates the enhanced stability of the HOMIDEC double-column design compared to less stable single-column alternatives.

7. SPECIFICATIONS

| Feature | Detail |
|------------------------|----------------------------------------------------|
| Model Number | ZMY22102802 |
| Brand | HOMIDEC |
| Dimensions (L x W x H) | 76 cm x 50 cm x 172 cm (30 in x 19.7 in x 67.7 in) |
| Weight | 4.8 Kilograms (10.6 lbs) |
| Material | Stainless Steel |
| Weight Limit | 35 Kilograms (77 lbs) |
| Color | Blue |
| Special Features | Foldable, Adjustable, Wheels with Brakes |
