Compatible Devices	Laptop, PC, Smart TV, Smartphone, Tablet iPad

Connectivity Technology	2.4G RF, Bluetooth 5.0
Number of Keys	110
Special Features	Lightweight, Low-Profile Key, Silent, Rechargeable

## SETUP GUIDE

### Charging the Keyboard

Before first use, fully charge the keyboard using the provided USB cable. Connect the USB-C end to the keyboard's charging port and the USB-A end to a power source (e.g., computer USB port, USB wall adapter).

Image: The AUSDOM keyboard connected to a USB-C charging cable, illustrating the charging process. The image highlights the USB-C port and the charging indicator.

A full charge takes approximately 1.5 hours and provides over 30 days of usage time. The keyboard will enter sleep mode after 30 minutes of inactivity to conserve battery.

## Connecting to Devices

The AUSDOM keyboard supports connection via 2.4G USB receiver and Bluetooth 5.0, allowing seamless switching between up to 3 devices.

### 2.4G Wireless Connection

1. Locate the USB receiver, usually stored in a compartment on the keyboard.
2. Plug the USB receiver into an available USB port on your computer or device.
3. Turn on the keyboard. It should automatically connect to the receiver.
4. The keyboard is now ready for use.

Image: The AUSDOM keyboard displayed with its 2.4G USB receiver and Bluetooth icons, indicating its dual connectivity options.

### Bluetooth Connection (Up to 3 Devices)

The keyboard supports connecting to three different Bluetooth devices. Use the dedicated Bluetooth channel keys (BT1, BT2, BT3) to switch between them.

1. Turn on the keyboard.
2. Press and hold one of the Bluetooth channel keys (e.g., **Fn + BT1**) for 3-5 seconds until the indicator light flashes rapidly, indicating pairing mode.
3. On your device (computer, tablet, smartphone), go to Bluetooth settings and search for "AUSDOM Keyboard" or similar.
4. Select the keyboard to pair. Once connected, the indicator light will stop flashing.
5. Repeat for other devices using **Fn + BT2** and **Fn + BT3**.
6. To switch between paired devices, simply press the corresponding Bluetooth channel key **Fn + BT1/BT2/BT3**.

## Multi-Device Connection

Connect up to 3 different devices at the same time- save time, improve productivity

## OPERATING INSTRUCTIONS

### Keyboard Layout and Function Keys

The AUSDOM keyboard features a full-size QWERTY layout with a numeric keypad and 15 shortcut keys for enhanced productivity.

Image: A close-up view of the AUSDOM keyboard, highlighting its full-size layout, integrated number pad, and various shortcut keys.

Many function keys (F1-F12) have secondary multimedia or system control functions. These are typically accessed by pressing the **Fn** key simultaneously with the desired function key.

- **Fn + F1:** Home
- **Fn + F2:** Search
- **Fn + F3:** Select All
- **Fn + F4:** Copy
- **Fn + F5:** Paste
- **Fn + F6:** Cut
- **Fn + F7:** Previous Track
- **Fn + F8:** Play/Pause
- **Fn + F9:** Next Track
- **Fn + F10:** Mute
- **Fn + F11:** Volume Down
- **Fn + F12:** Volume Up

## Typing Experience

The keyboard features a scissor-switch structure for precise, comfortable, and quiet typing. The low-profile keys reduce noise and increase stability.

### MAINTENANCE AND CARE

- **Cleaning:** Use a soft, dry cloth to wipe the keyboard surface. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid excessive moisture.
- **Storage:** When not in use for extended periods, turn off the keyboard to conserve battery. Store in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery:** To prolong battery life, avoid fully discharging the keyboard frequently. Recharge when the low battery indicator appears.
- **Avoid Spills:** Keep liquids away from the keyboard to prevent damage to internal components.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Keyboard not responding	Low battery, not connected, incorrect mode.	Charge the keyboard. Ensure the USB receiver is properly plugged in or Bluetooth is paired. Switch to the correct connection mode (2.4G or BT1/2/3).
Lag or intermittent connection	Interference, distance, low battery.	Move the keyboard closer to the device. Remove obstacles. Ensure no other devices are causing interference. Recharge the keyboard.
Cannot pair via Bluetooth	Keyboard not in pairing mode, device Bluetooth off.	Ensure keyboard is in pairing mode (flashing indicator). Turn on Bluetooth on your device. Forget previous pairings and try again.
Keys not working correctly	Software issue, physical damage, dirt under keys.	Restart your device. Clean the keyboard. If problem persists, contact customer support.

## Frequently Asked Questions (FAQ)

Here are answers to some common questions:

- Can the keyboard be used as a wired keyboard with a USB cable connected?**

Yes, the keyboard can function as a wired keyboard when connected via the USB cable, which also charges the device.

- Can the battery be replaced when the keyboard stops working?**

The keyboard has a built-in rechargeable lithium battery. It is not designed for user replacement. Please contact customer support for battery-related issues.

- Is the keyboard compatible with any system or device?**

This wireless keyboard is compatible with Mac, Windows, iOS, Android, and other operating systems. It works well with desktops, Chromebooks, Macbooks, PCs, laptops, and more.
