PRODUCT FEATURES

- **Includes:** Two (2) Inflatable Pool Float Chairs, each measuring approximately 30"x16"x24", with soft fabric cover and mesh sling.
- **Comfort Design:** Covered with comfortable fabric and multiple high buoyancy tubes for extended relaxation.
- **Ease of Use:** Simple inflation, adjustable back and armrests for personalized comfort. Lightweight for easy transport and storage.
- **Water Lounger:** Designed to allow partial body submersion for cooling, ideal for summer outdoor pool parties.
- **Adjustable Straps:** Allows customization for different body sizes and preferred lounging positions.
- **Durable Material:** Fabric construction helps prevent punctures and offers a comfortable feel.

SAFETY INFORMATION

- **WARNING:** This is not a lifesaving device. Always use under competent adult supervision.
- Do not leave children unattended while in use.
- Ensure the float is fully inflated before use.
- Do not over-inflate.
- Keep away from sharp objects and open flames.
- Maximum weight capacity: 200 lbs (approx. 90 kg).

SETUP INSTRUCTIONS

1. **Unpack:** Carefully remove the pool float from its packaging.
2. **Locate Valves:** Identify the three inflation valves on the float (one for the headrest, one for the main body, and one for the undercarriage support).
3. **Inflate:** Using an air pump (not included) or by mouth, inflate each section until firm but not hard. Do not over-inflate. Ensure the valves are securely closed after inflation.
4. **Adjust Straps:** The float features adjustable straps to customize the seating position. Adjust these to your preferred length for optimal comfort.

**3 Buoyant
Pillows for
Stable Floating**

OPERATING INSTRUCTIONS

1. **Entry:** Gently enter the water and position yourself in the mesh seat of the float.
2. **Comfort Adjustment:** Utilize the adjustable straps to find your most comfortable lounging position, whether sitting upright or reclining.
3. **Relaxation:** Enjoy floating in the water, with your body partially submerged to stay cool. The headrest provides support for your neck and head.

MAINTENANCE

- **Cleaning:** Rinse the float with fresh water after each use, especially if used in chlorinated or saltwater. Allow it to air dry completely before storing.
- **Deflation:** Open the inflation valves and gently press out the air. This allows for compact storage.
- **Storage:** Store the deflated and dry floats in a cool, dry place away from direct sunlight and sharp objects.

TROUBLESHOOTING

Problem	Solution
Float is losing air.	Check all inflation valves to ensure they are securely closed. Inspect the float for any punctures or small holes. If a puncture is found, use a repair kit (not included) suitable for inflatable products.
Difficulty finding a comfortable position.	Adjust the straps located on the back and bottom of the float. Experiment with different strap lengths to find the ideal recline and support for your body.

Problem	Solution
Float feels unstable.	Ensure all three inflatable sections are adequately inflated. Uneven inflation can affect stability. Verify that the straps are properly adjusted and secured.

SPECIFICATIONS
