## Backyard Discovery 2206069

# Backyard Discovery Norwood 10' x 10' Cedar Wood Gazebo Pavilion Instruction Manual

Model: Norwood 10' x 10' (2206069)

Brand: Backyard Discovery

## 1. INTRODUCTION AND OVERVIEW

---

This manual provides detailed instructions for the assembly, operation, and maintenance of your Backyard Discovery Norwood 10' x 10' Cedar Wood Outdoor Gazebo Pavilion. The Norwood Gazebo is constructed from 100% cedar wood and features a galvanized steel peak roof, designed for durability and aesthetic appeal in outdoor settings. It is engineered to offer protection from various weather conditions and includes a PowerPort for electrical convenience.

*Figure 1: The Norwood 10' x 10' Cedar Wood Gazebo Pavilion in an outdoor setting.*

## 2. KEY FEATURES

---

- **All-Weather Durability:** Pro-Tect tested and proven to withstand up to 5,600 pounds of roof weight (equivalent to 30 inches of snow load) and wind speeds up to 100 mph.
- **Integrated PowerPort:** Features three electrical outlets and three USB ports for convenient power access, easily mountable to any post. (Power source not included).
- **Heavy-Duty Steel Roof:** Equipped with a 29-gauge Tudor Brown galvanized steel roof, providing resistance against dents and corrosion.
- **Premium Cedar Wood Construction:** Made from 100% durable cedar wood, known for its strength and natural resistance to decay.
- **Robust Support Posts:** Features substantial 6" x 6" cedar posts for superior structural integrity.
- **Durable Finishes:** Includes powder-coated steel brackets and anchors, complemented by a light brown stain for enhanced weather resistance and lasting style.
- **Timeless Design:** A popular peak roof design with black accents offers an elegant aesthetic.

### 3. SETUP AND ASSEMBLY

---

The Norwood Gazebo is designed for straightforward assembly. All components are pre-cut, pre-drilled, and pre-stained to simplify the process. For step-by-step guidance, utilize the interactive BILT app, which provides detailed instructions and visual aids.

It is recommended to organize all components (structural pieces, fasteners, and connectors) on flat surfaces before beginning construction. Ensure the installation surface is level and that the structure is anchored as specified in the instruction manual to ensure stability and safety.

---

### 4. OPERATING THE POWERPORT

---

The integrated PowerPort provides convenient access to electrical outlets and USB ports. To use, ensure the gazebo is properly installed and a power source is connected to the PowerPort. The PowerPort can be

mounted to any post on the structure.

- **Electrical Outlets:** Use the three electrical outlets to power outdoor lighting, small appliances, or other compatible devices.
- **USB Ports:** Utilize the three USB ports to charge mobile phones, tablets, and other USB-powered devices.

Always ensure that the PowerPort is protected from direct exposure to heavy rain or moisture when in use, and disconnect from the power source when not needed.

*Figure 3: Detail of the PowerPort, showing its electrical and USB charging capabilities.*

## 5. MAINTENANCE

Regular maintenance will help preserve the appearance and structural integrity of your Norwood Gazebo.

- **Wood Care:** The cedar wood is pre-stained. Periodically inspect the wood for any signs of wear or fading. Reapply a suitable outdoor wood stain or sealant as needed to maintain its appearance and protect against weathering.
- **Roof Care:** The galvanized steel roof is designed for corrosion resistance. Clean the roof periodically to remove leaves, debris, and any accumulated dirt. Inspect for any potential damage after severe weather.

- **Hardware:** Check all bolts, screws, and brackets regularly to ensure they are tight and secure. Tighten any loose fasteners to maintain structural stability.
- **Anchoring:** Verify that the gazebo remains securely anchored to the ground, especially in areas prone to high winds. Re-secure anchors if any loosening is detected.

*Figure 4: Base of a support post, illustrating the anchoring mechanism.*

## 6. TROUBLESHOOTING

---

Should you encounter any issues with your Norwood Gazebo, consider the following:

- **Missing or Damaged Parts:** In the event of missing or damaged components during assembly or due to unforeseen circumstances, replacement parts can be ordered directly from Backyard Discovery. Refer to your product documentation for contact information.
- **Structural Instability:** If the gazebo feels unstable, immediately check all connections and anchoring points. Ensure the structure is on a level surface and all fasteners are tightened according to the assembly instructions.
- **Water Leakage:** While the steel roof is designed to be water-resistant, ensure all roof panels are correctly installed and sealed. Inspect for any gaps or loose fasteners that might allow water penetration.

## 7. SPECIFICATIONS
