Yaheetech 209 cm Multi-Level Cat Tree Instruction Manual

Model: 1

INTRODUCTION

This manual provides detailed instructions for the assembly, use, and maintenance of your Yaheetech 209 cm Multi-Level Cat Tree. Please read these instructions carefully before assembly and retain them for future reference. This cat tree is designed to provide a safe and engaging environment for multiple cats, featuring various levels, scratching surfaces, and resting areas.

SAFETY INSTRUCTIONS

- Ensure all parts are securely fastened during assembly.
- Place the cat tree on a flat, stable surface to prevent tipping.
- Utilize the included wall anchor strap for enhanced stability, especially if you have active or multiple cats.
- Regularly inspect the cat tree for loose or damaged parts and tighten or replace them as necessary.
- Keep children away from the cat tree during assembly.
- This product is intended for pet use only.

PACKAGE CONTENTS

Before beginning assembly, verify that all components listed below are present and undamaged. Refer to the assembly diagram for part identification.

- Baseboard(s)
- Support Posts (various lengths, some with sisal rope)
- Platforms/Perches
- Cat Condos/Houses

- Hammock(s)
- Basket(s)
- Scratching Ramp(s)
- Hanging Toys (e.g., plush balls)
- Assembly Hardware (screws, bolts, Allen wrench)
- Wall Anchor Strap Kit

SETUP AND ASSEMBLY

Assembly typically takes 15-20 minutes. An Allen wrench is included; no additional tools are required. Follow the numbered steps below, referring to the provided diagrams for visual guidance.

1. **Prepare the Base:** Place the main baseboard on a flat, stable surface.
2. **Attach Lower Posts:** Screw the shortest support posts into the designated holes on the baseboard.
3. **Install First Level Platforms:** Secure the first set of platforms onto the lower posts. Ensure they are tightly fastened.
4. **Assemble Condos and Hammocks:** Attach the cat condos and hammocks to the appropriate platforms and posts as indicated in the diagram. Note the weight capacities: basket 5 kg, condo 10 kg, hammock 8 kg.
5. **Continue Building Upwards:** Progressively attach the next set of support posts and platforms, working your way up to the top perches.
6. **Attach Scratching Ramps and Toys:** Secure any scratching ramps and hanging toys to their designated locations.
7. **Final Tightening:** Once all parts are assembled, re-check and tighten all screws and bolts to ensure maximum stability.
8. **Install Wall Anchor (Recommended):** For added safety, especially with active cats, attach the wall anchor strap to the top of the cat tree and secure it to a wall stud using appropriate hardware (not always included, check kit).

USAGE GUIDELINES

The Yaheetech cat tree provides a comprehensive activity center for your feline companions. It is suitable for small kittens and normal-sized adult cats.

- **Scratching Posts and Ramps:** Encourage your cats to use the sisal-covered posts and ramps for scratching to maintain claw health and protect furniture.
- **Condos and Hammocks:** These enclosed and suspended areas offer secure, cozy spots for napping and privacy.
- **Perches and Baskets:** Elevated platforms and baskets allow cats to observe their surroundings from a height, satisfying their natural instincts.
- **Hanging Toys:** The integrated hanging plush balls provide interactive play opportunities.

**TWO PLATFORMS WITH
CAT-EARS-SHAPED EDGE FOR FUN**

MAINTENANCE

- **Cleaning:** Use a lint roller or vacuum cleaner to remove loose fur and debris from the plush surfaces. Spot clean any soiled areas with a damp cloth and mild pet-safe cleaner. Avoid harsh chemicals.
- **Inspection:** Periodically check all connections (screws, bolts) and tighten them as needed to maintain stability.
- **Sisal Rope:** The sisal scratching surfaces are designed for durability but will show wear over time. Replace if severely frayed to ensure continued scratching appeal.
- **Damage:** If any part becomes significantly damaged, discontinue use and contact customer support for replacement parts or guidance.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Cat tree feels wobbly or unstable.	Loose connections; uneven floor; wall anchor not used.	Re-tighten all screws and bolts. Ensure the tree is on a flat surface. Install the wall anchor strap if not already done.
Parts do not fit together.	Incorrect part orientation; wrong parts used.	Refer to the assembly diagram to ensure correct parts are used and oriented properly. Do not force parts.
Cats are not using the scratching posts.	Preference for other surfaces; unfamiliarity.	Encourage use by placing treats or catnip on the sisal posts. Gently guide your cat's paws to the scratching surface.

Problem	Possible Cause	Solution
Missing or damaged parts.	Manufacturing error; shipping damage.	Contact Yaheetech customer support for assistance.
