

TYMO HC105

TYMO Hair Straightener Brush Instruction Manual

Model: HC105

IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before use. Keep this manual for future reference.

- Switch off hair straighteners immediately after use. Do not leave it running unattended.
- Do not use near water or while bathing/showering.
- Keep out of reach of children.
- Do not use if the cord or plug is damaged.
- Always unplug the device when not in use.

Statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.

PRODUCT OVERVIEW

The TYMO Hair Straightener Brush is an upgraded ionic plus straightening brush designed for effective and gentle hair styling. It features dense bristles, T-sensor technology for precise heat, and ionic technology for smoothness and shine.

Figure 1: TYMO Hair Straightener Brush, showcasing its sleek design and brush head.

Key Features:

- **Incredible Effectiveness:** 2x denser bristles for tighter hair grip and straighter results on various hair types.
- **Upgraded Heat Precision:** T-sensor technology monitors heat by millisecond, adjusting intelligently to prevent overheating.
- **Styling in a Few Strokes:** Functions as both a flat iron and a brush, simplifying the straightening process.
- **Gorgeous Smoothness and Shine:** 10M+ ions reduce frizz and boost shine. Tourmaline ceramic bristles ensure smooth gliding.
- **Designed for Comfort & Safety:** Ergonomic and anti-scald design with optimized button placement and a contoured handle.

SETUP

1. **Unpack:** Carefully remove the TYMO Hair Straightener Brush from its packaging. Ensure all components are present.
2. **Power Connection:** Plug the power cord into a standard electrical outlet (100-240V dual voltage compatible).
3. **Placement:** Place the brush on a heat-resistant surface before and during use.

OPERATING INSTRUCTIONS

Powering On/Off:

- Press and hold the power button located at the end of the handle to turn the brush ON.
- The LED display will illuminate, showing the current temperature.
- To turn OFF, press and hold the power button again. The device also features a 60-minute auto-off function for safety.

Temperature Settings:

The TYMO brush offers 16 temperature settings, ranging from 180°F to 450°F, suitable for all hair types. The T-sensor technology ensures consistent heat and protects against damage.

- Use the '+' and '-' buttons to adjust the temperature.
- Refer to the table below for recommended temperature ranges based on hair type:

Hair Type	Recommended Temperature Range
Fine/Damaged Hair	270°F - 320°F
Normal Hair	340°F - 390°F
Thick/Coarse/Curly Hair	410°F - 450°F

Default temperature is 360°F upon startup. Start with a lower setting if you are unsure.

Hair Preparation:

- Ensure hair is clean, dry, and detangled before use.
- Apply a heat protectant spray evenly throughout your hair.

Usage Steps:

1. Divide your hair into manageable sections.
2. Take a section of hair and slowly brush from root to tip, ensuring the hair passes through the bristles.
3. Repeat on each section until desired straightness is achieved.
4. The anti-scald design allows you to get close to the roots without burning your scalp or hands.

FIND YOUR PERFECT FIT

IONIC MINI

**Compact &
Powerful
Travel-Ready**

**Best for
Short to
Medium Hair**

IONIC PLUS

**Full-Size Power
Pro Styling for
Home & Salon**

**Best for
Medium to
Long Hair**

MAINTENANCE

Cleaning the Brush:

- Ensure the brush is unplugged and completely cool before cleaning.
- Use a soft, damp cloth to wipe down the surface of the brush.
- Remove any hair tangled in the bristles using a comb or your fingers.
- Do not use harsh chemicals or abrasive cleaners.

Storage:

- Store the brush in a cool, dry place, away from direct sunlight and moisture.
- Do not wrap the power cord tightly around the device, as this can damage the cord.

TROUBLESHOOTING

- **Brush not heating up:** Ensure the device is properly plugged in and the power button is pressed and

held until the display lights up. Check the power outlet.

- **Hair not straightening effectively:** Ensure hair is completely dry and detangled. Increase the temperature setting if your hair type requires higher heat. Brush slowly from root to tip.
- **Device automatically turns off:** This is likely the 60-minute auto-off safety feature. Simply turn the device back on if you wish to continue styling.
- **Frizz after straightening:** Ensure the ionic function is active (if applicable). Consider using a frizz-control product.
