Zinus BFWH-07

ZINUS Heavy Duty Steel Bed Frame Semi-Double 18cm - Instruction Manual

Model: BFWH-07

PRODUCT OVERVIEW

The ZINUS Heavy Duty Steel Bed Frame offers a sturdy and minimalist design, providing reliable support for your mattress. This semi-double frame is designed for easy assembly and features excellent breathability with its wooden slats.

SAFETY INFORMATION

- Always use a mattress with a thickness of 15 cm (6 inches) or more to ensure the longevity and proper function of the bed frame.
- Do not jump on the bed frame or concentrate weight on a single point, as this may cause damage to the frame.
- Assembly should be performed by two or more adults.
- During assembly, ensure sufficient clear space and protect the floor surface with a mat or similar covering.
- This product is designed for household furniture use. Do not use it for purposes other than its original intent, as this may lead to unexpected accidents or injuries.
- Using a futon directly on the bed frame without a mattress may cause damage to the bed base due to direct body pressure.

PACKAGE CONTENTS

Your ZINUS bed frame is delivered in a compact package containing all necessary components and tools for assembly.

- Steel frame components
- Wooden slats (plywood)
- Silent tape (EVA)
- Assembly tools (ratchet wrench included)
- Instruction manual

コンパクトパッケージ

ASSEMBLY INSTRUCTIONS

Assembly is designed to be straightforward, typically taking 15-30 minutes with two or more adults. Please follow

these steps:

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a protected surface to prevent scratches.
2. **Identify Parts:** Utilize the numbering system on each part for easy identification. Some screw parts may be pre-attached to the main body; please verify before proceeding.
3. **Assemble Frame:** Connect the main steel frame components according to the numbered instructions. The included ratchet wrench will assist in tightening bolts.
4. **Install Slats:** Place the wooden slats onto the frame. Ensure they are evenly spaced and secured. The silent tape (EVA) helps prevent squeaking and mattress movement.
5. **Final Check:** Confirm all connections are secure and the frame is stable before placing your mattress.

USAGE GUIDELINES

- Ensure the bed frame is placed on a flat, stable surface.
- Always use a mattress with a minimum thickness of 15 cm (6 inches) to distribute weight properly and prevent damage to the slats.
- Avoid placing excessive or concentrated weight on any single part of the frame.
- Do not use the bed frame as a trampoline or for any activity that involves jumping.

MAINTENANCE

To maintain your ZINUS bed frame in optimal condition:

- Clean the frame regularly with a dry cloth.
- Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish.
- Periodically check all bolts and connections to ensure they remain tight. Re-tighten if necessary.

TROUBLESHOOTING

If you encounter any issues with your ZINUS bed frame, please refer to the following common solutions:

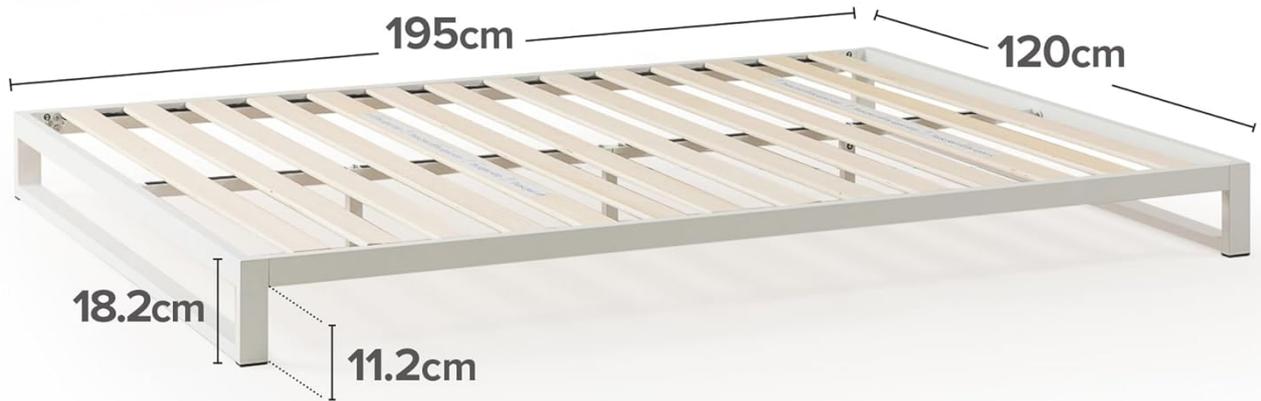

- **Squeaking Noises:** Ensure all bolts are securely tightened. The included silent tape on the slats is designed to prevent squeaking; verify it is properly installed.
- **Unstable Frame:** Check that all frame components are correctly aligned and all connections are fully tightened. Ensure the bed frame is on a level surface.
- **Mattress Sliding:** The anti-slip tape on the slats helps keep the mattress in place. Ensure the tape is clean and free from debris.
