Shad SH44

SH44 Top Case for Motorcycles User Manual

MODEL: SH44

Brand: Shad

PRODUCT OVERVIEW

The Shad SH44 Top Case is a durable and spacious storage solution designed for motorcycles and scooters. It offers secure storage and convenient access for your belongings, including capacity for two full-face helmets.

Key features include:

- Capacity for two full-face helmets.
- Secure lock system for enhanced safety.
- Integrated rubber seal for weather protection.
- Includes a universal mounting baseplate.

INSTALLATION GUIDE

Proper installation of the SH44 Top Case is essential for safety and stability. The top case comes with a universal mounting baseplate. For specific bike compatibility and detailed fitting instructions, it is recommended to consult the manufacturer's website or the specific Top Master Fitting Kit for your motorcycle model.

Mounting the Baseplate

The included baseplate is designed for universal fitment on most motorcycle rear racks. Ensure your rack is sturdy enough to support the weight of the top case and its contents. Use the provided hardware to securely attach the baseplate to your motorcycle's luggage rack. All bolts should be tightened according to your motorcycle's specifications, and checked periodically for tightness.

Attaching the Top Case

Once the baseplate is securely installed, align the SH44 Top Case with the baseplate's locking mechanism. Press down firmly until you hear a click, indicating that the case is locked onto the baseplate. Always verify that the top case is securely attached before riding.

OPERATING INSTRUCTIONS

Opening and Closing the Top Case

The SH44 Top Case features a user-friendly locking system. Insert the key into the lock cylinder and turn it to unlock. To open the lid, press the release button located near the lock. To close, simply lower the lid until it clicks shut. The secure lock system ensures your belongings are safe during transit.

Capacity and Storage

The SH44 Top Case boasts a generous 44-liter capacity, capable of accommodating two full-face helmets. The interior is designed to maximize space while providing a secure environment for your items. An integrated rubber seal helps protect contents from water and dust.

MAINTENANCE

To ensure the longevity and optimal performance of your SH44 Top Case, regular maintenance is recommended:

- **Cleaning:** Clean the exterior with mild soap and water. Avoid abrasive cleaners or solvents that could damage the finish.
- **Lock Mechanism:** Periodically lubricate the lock cylinder with a graphite-based lubricant to ensure smooth operation.
- **Rubber Seal:** Inspect the rubber seal around the lid for any signs of wear or damage. A damaged seal can compromise the case's waterproof properties. Clean the seal regularly to remove dirt and debris.
- **Mounting Hardware:** Regularly check all mounting bolts and screws for tightness, especially after long rides

or off-road use.

TROUBLESHOOTING

This section addresses common issues you might encounter with your SH44 Top Case.

Case Not Locking Securely

- **Check for Obstructions:** Ensure no items inside the case are preventing the lid from closing completely.
- **Inspect Lock Mechanism:** Verify that the lock mechanism is free of debris and operating smoothly. Lubricate if necessary.
- **Key Alignment:** Ensure the key is fully inserted and turned correctly before attempting to lock.

Water Leakage

- **Inspect Rubber Seal:** Check the rubber seal around the lid for cracks, tears, or displacement. Replace if damaged.
- **Lid Closure:** Ensure the lid is fully closed and latched on all sides.

Difficulty Attaching/Detaching from Baseplate

- **Alignment:** Ensure the top case is correctly aligned with the baseplate's mounting points.
- **Release Mechanism:** Verify the release mechanism on the top case is fully engaged or disengaged as required.
- **Debris:** Check for any debris or foreign objects on the baseplate or the bottom of the top case that might hinder proper seating.
