

Saolife P32

Saolife Automatic Cat Laser Toy User Manual

Model: P32 | Brand: Saolife

1. PRODUCT OVERVIEW

The Saolife Automatic Cat Laser Toy (Model P32) is an interactive device designed to provide engaging play for indoor cats and kittens. This compact and delicate toy projects a laser dot that moves in various patterns, stimulating your pet's natural hunting instincts. It features multiple speed modes, flexible installation options, and an automatic on/off timer for convenient, hands-free entertainment.

2. KEY FEATURES

- **3 Speed Modes:** Offers Slow-Fast Mixed, Slow, and Fast modes to suit different activity levels of cats.
- **Multi-angle Adjustment & Installations:** Features an adjustable head bracket and flexible rotating bottom, allowing for placement on various surfaces like tables, bookshelves, or windows (with included suction cup).
- **Automatic On/Off Timer:** Operates for 10 minutes and then automatically shuts off for 1.5 hours, repeating the cycle to conserve battery and provide intermittent play.
- **Compact and Low Noise:** Small design (3 inches high, 2.8 inches wide) with ultra-low noise operation, ensuring minimal disturbance.
- **USB Rechargeable:** Built-in rechargeable battery, charged via a Type-C cable (included). Fully charges in approximately 2 hours.

3. SETUP GUIDE

1. **Unpack:** Carefully remove the Automatic Cat Laser Toy and all accessories from the packaging.

2. **Charge the Device:**

Connect the provided Type-C cable to the charging port on the device and to a 5V/1A power adapter (not included). The indicator light will show charging status. A full charge takes approximately 2 hours.

RECHARGEABLE BATTERY

Charge 2 hours , 5V/1A adapter only

3. **Choose Placement:** Select a suitable location for the toy. It can be placed on a flat, elevated surface like a table or bookshelf, or mounted on a window.

ABOUT INSTALLATION

Please put it on higher surface, preventing from being knocked down by pets.

Figure 3: Installation options, including placing on a desk or suctioning to a window.

- 4. Install Suction Cup (Optional):** If mounting on a window, attach the suction cup to the bottom of the toy. Ensure the window surface is clean and dry for optimal adhesion.
- 5. Adjust Angle:** The head bracket can be adjusted to direct the laser beam to different areas, covering various circling ranges.

4. OPERATING INSTRUCTIONS

To operate your Saolife Automatic Cat Laser Toy, follow these steps:

- 1. Power On:** Press the power button located on the back of the device to turn it on. The laser will begin projecting.
- 2. Select Speed Mode:** The toy offers three distinct speed modes:
 - **Slow-Fast Mixed Mode (Blue Light):** Ideal for active cats, providing varied laser movement.
 - **Slow Mode (Purple Light):** Suitable for calmer or tame cats.
 - **Fast Mode (Yellow Light):** Designed for very energetic cats, offering rapid laser movement.

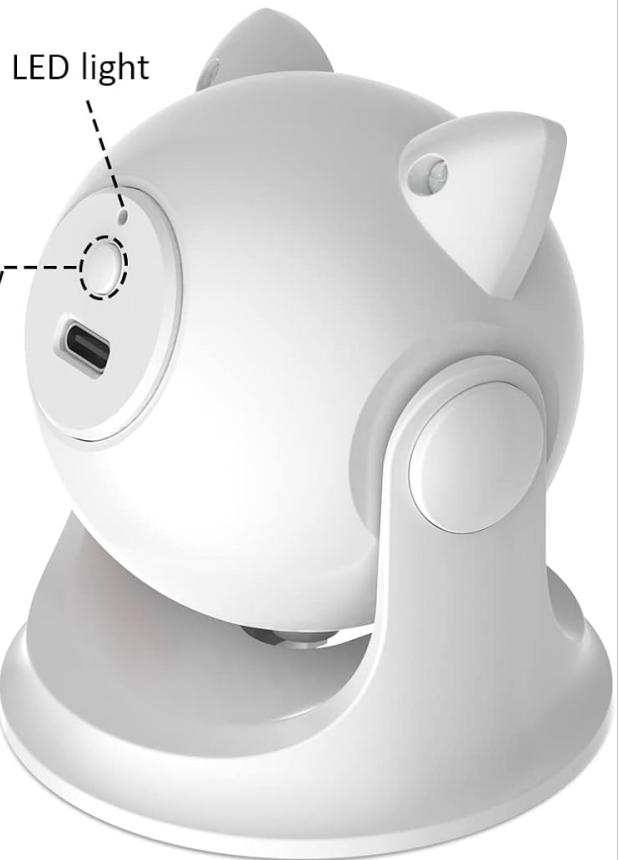

Press the mode button repeatedly to cycle through the different speed settings. The LED light on the device will indicate the current mode.

3 WORKING MODE

 **Slow-Fast Mixed Mode**
for active cats

 **Slow Mode**
for tame cats

 **Fast Mode**
for very energetic cats

- **No noise**
never bother you while you are working or sleeping
- **Attention: Not motion detection**

4. **Power Off:** To manually turn off the device, press and hold the power button until the laser light extinguishes.

5. MAINTENANCE

- Cleaning:** Wipe the exterior of the toy with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- Storage:** When not in use for extended periods, store the toy in a cool, dry place away from direct sunlight.
- Charging:** Ensure the device is fully charged before storing to prolong battery life.
- Water Exposure:** This product is not waterproof. Do not wash or expose to water.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	Battery is low or depleted.	Charge the device using the provided Type-C cable and a 5V/1A adapter.

Problem	Possible Cause	Solution
Laser light is weak or not visible.	Low battery or environmental lighting is too bright.	Ensure the device is fully charged. Use in a dimly lit room for best visibility.
Laser dot is not moving or rotating.	Internal motor malfunction.	Contact customer support for assistance. Do not attempt to repair the device yourself.
Suction cup does not hold.	Surface is not clean, dry, or smooth enough.	Clean the surface thoroughly and ensure it is dry before attaching the suction cup. Apply firm pressure.
