Crenailro 4 in 1

Crenailro Catio Outdoor Cat Enclosures User Manual

Model: 4-in-1 Portable Cat Tent and Tunnel System

1. PRODUCT OVERVIEW

The Crenailro 4-in-1 Outdoor Cat Enclosure is designed to provide a safe, healthy, and happy outdoor space for your cats and other small pets. This versatile system includes a large cat tent, a cube, and two tunnels, allowing your pets to enjoy fresh air, sunshine, and natural surroundings without the risks associated with unsupervised outdoor access.

Constructed with UV-resistant fibers and a durable mesh, the enclosure is designed to withstand outdoor conditions while being resistant to pet claws. The system is highly portable, making it ideal for travel or easy relocation within your yard or patio.

Figure 1: The complete 4-in-1 Catio system, featuring the large tent, cube, and two tunnels connected on a grassy area.

2. PACKAGE CONTENTS

Upon unpacking, please ensure all components listed below are present:

- One (1) Large Cat Tent (approx. 71"L x 63"W x 35.5"H)
- One (1) Cube Enclosure (approx. 24"L x 20"W x 22"H)
- Two (2) Tunnels (approx. 59"L x 17.7" diameter each)
- Twelve (12) Ground Pegs for securing the tent
- Two (2) Portable Storage Bags

Figure 2: The modular design allows for various configurations, including the 4-in-1, 2-in-1, and an expanded 6-in-1 setup (additional components sold separately).

3. SETUP AND ASSEMBLY

The Crenailro Catio is designed for quick and easy setup. Follow these steps for assembly:

1. **Unpack Components:** Remove all parts from the storage bags. The tent, cube, and tunnels are designed to pop open automatically.
2. **Assemble the Tent:**
 - Lay the tent flat on the ground.
 - Locate the central hub and gently pull the support poles outwards until they click into place, forming the tent's structure.
 - Secure the tent's outer fabric to the poles using the attached fasteners.

3. **Expand the Cube and Tunnels:** The cube and tunnels will spring into shape once removed from their bags.

4. **Connect Components:**

- Align the openings of the tent, cube, and tunnels.
- Use the integrated zippers to securely connect the desired components. Ensure zippers are fully closed to prevent pets from escaping.

5. **Secure to Ground:** For outdoor use, utilize the provided ground pegs to anchor the tent and cube firmly to the ground, especially in windy conditions. Insert pegs through the designated loops at the base of each unit.

Figure 3: The enclosure can be set up on various surfaces, including wooden decks, providing a safe space for pets to explore.

4. OPERATING INSTRUCTIONS

Once assembled, the Crenailro Catio provides a secure environment for your pets. Here are some tips for optimal use:

- **Placement:** Choose a shaded or partially shaded area to prevent overheating, especially during warmer months.
- **Pet Introduction:** Allow your pets to explore the enclosure at their own pace. You may place familiar toys, blankets, or treats inside to encourage them.

- **Supervision:** While the enclosure is secure, always supervise your pets, especially during their initial uses, to ensure their safety and comfort.
- **Water and Comfort:** Provide fresh water and a comfortable resting spot within the enclosure. The dustproof mat at the bottom of the tent helps keep pets clean.
- **Portability:** The lightweight design and included storage bags make it easy to move the enclosure for travel or to different locations in your yard.

Figure 5: A cat exploring the interior of one of the connecting tunnels, demonstrating the ample space for movement.

5. MAINTENANCE AND CARE

Proper maintenance will extend the life of your Crenailro Catio:

- **Cleaning:** The mesh and dustproof mat can be wiped clean with a damp cloth and mild soap. Rinse thoroughly and allow to air dry completely before folding and storing.
- **Storage:** When not in use, or during inclement weather, fold the tent, cube, and tunnels back into their compact form and store them in the provided storage bags. Store in a dry place away from direct sunlight to prevent material degradation.
- **Inspection:** Regularly inspect the mesh for any tears or damage, and check zippers for smooth operation.

While the mesh is resistant to claws, extreme force can cause damage.

Figure 6: A close-up of the durable mesh and flexible rings, highlighting the quality of materials used in the enclosure.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Tent/Cube collapses easily.	Not fully expanded or secured; strong winds.	Ensure all poles are locked into place. Use all 12 ground pegs to firmly anchor the unit, especially in windy conditions. Consider placing weights inside if on a hard surface.
Water accumulates on the tent floor.	Rain or heavy dew.	The tent floor is designed to be dustproof, not fully waterproof. Avoid leaving the enclosure out during heavy rain. If water accumulates, empty it and allow the mat to dry completely before storage.
Zippers are difficult to close/open.	Dirt or debris in zipper teeth; misalignment.	Clean zipper teeth with a small brush. Ensure components are properly aligned before zipping. Apply a small amount of zipper lubricant if needed.

7. PRODUCT SPECIFICATIONS

Feature	Detail
Brand	Crenailro
Model Name	co-04 (4 in 1)
Product Dimensions (Tent)	71"L x 63"W x 35.5"H
Item Weight	9 Pounds
