URBAN ARMOR GEAR Trestles

URBAN ARMOR GEAR UAG x Rip Curl Apple Watch Band Trestles User Manual

Model: Trestles

1. PRODUCT OVERVIEW

The URBAN ARMOR GEAR (UAG) x Rip Curl Trestles Apple Watch Band is designed for active individuals, offering a durable and comfortable solution for securing your Apple Watch. This band features a lightweight, soft-touch silicone construction, making it sweatproof and waterproof for all-day wear, including water sports.

2. COMPATIBILITY

This watch band is compatible with specific Apple Watch Series and sizes. Please verify your Apple Watch model and size before installation.

- **Compatible Apple Watch Series:** 11, 10, 9, 8, 7, 6, 5, 4, SE 3, SE 2, SE
- **Compatible Watch Sizes:** 42mm, 41mm, 40mm

Note: Older packaging may not explicitly state compatibility for Apple Watch Series 11, but the product is compatible.

3. KEY FEATURES

- **Sweatproof Construction:** Made from lightweight, soft-touch silicone for comfortable, sweat-

resistant wear.

- **Unique Dual-Injected Design:** Features a distinct two-color contrast design with a branded Rip Curl looper and UAG branding on the inner band.
- **Custom Hardware:** Equipped with reliable stainless steel custom hardware for secure attachment to your Apple Watch.
- **Secure Closure:** Utilizes a discrete tuck closure with multiple notches for size adjustment, ensuring a precise fit.

4. INSTALLATION INSTRUCTIONS

Follow these steps to attach the UAG x Rip Curl Trestles band to your Apple Watch:

1. Ensure your Apple Watch is powered off.
2. Locate the band release buttons on the back of your Apple Watch. Press and hold a button.
3. Slide the existing watch band out horizontally.
4. With the button still pressed, slide one half of the UAG x Rip Curl Trestles band into the slot until you hear a click. Ensure the band is facing the correct direction (the side with the buckle typically goes on the top).
5. Repeat for the other half of the band.
6. Gently tug on both ends of the band to confirm it is securely locked into place.

5. USAGE AND OPERATION

The UAG x Rip Curl Trestles band is designed for comfort and durability in various environments, including water activities.

- **Adjusting the Fit:** Use the multiple notches and the tuck closure to find a comfortable and secure fit on your wrist. A snug fit is recommended for accurate heart rate monitoring and during strenuous activities.
- **Water Activities:** The band's sweatproof and waterproof silicone material makes it suitable for swimming, surfing, and other water sports. Ensure your Apple Watch model is also rated for the intended water exposure.

6. MAINTENANCE AND CARE

To ensure the longevity and hygiene of your UAG x Rip Curl Trestles Apple Watch Band, follow these care instructions:

- **Cleaning:** Wipe the band regularly with a soft, damp cloth. For deeper cleaning, use mild soap and water, then rinse thoroughly and dry completely before reattaching to your Apple Watch.

- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the silicone material.
- **Storage:** Store the band in a cool, dry place away from direct sunlight when not in use for extended periods.

7. TROUBLESHOOTING

- **Band Not Clicking into Place:** Ensure the band is inserted correctly and fully into the Apple Watch slot. The release button should be pressed down during insertion. If it still doesn't click, check for any obstructions in the slot or on the band connector.
- **Band Feels Too Loose or Too Tight:** Utilize the multiple adjustment notches on the band to achieve a comfortable and secure fit. If you are between sizes, try adjusting the position on your wrist or consider if the band size is appropriate for your wrist circumference.
- **Skin Irritation:** If you experience skin irritation, ensure the band is clean and dry. Avoid wearing the band too tightly. If irritation persists, discontinue use and consult a healthcare professional.
