

Eicaus TBC001

Eicaus 12-inch Ring Light with Tripod Stand and Phone Holder Instruction Manual

Model: TBC001 | Brand: Eicaus

1. INTRODUCTION

Thank you for choosing the Eicaus 12-inch Ring Light. This professional lighting kit is designed to enhance your photography and videography experience, providing optimal illumination for various applications including live broadcasts, makeup tutorials, and content creation. This manual provides detailed instructions for assembly, operation, maintenance, and troubleshooting to ensure you get the most out of your device.

2. PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- 1 x 12-inch Ring Light
- 1 x 62-inch Tripod Stand
- 1 x Phone Holder
- 1 x Wireless Remote Control
- 1 x USB Charging Cable (integrated with ring light controls)

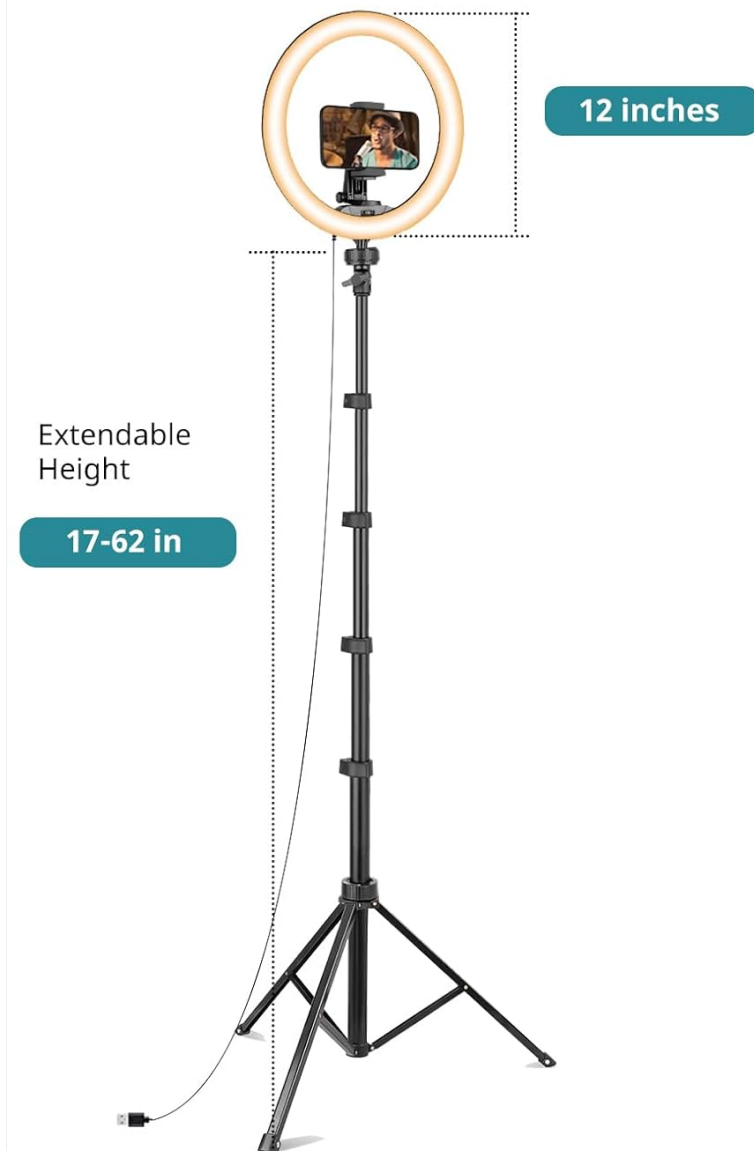

Image: All components of the Eicaus 12-inch Ring Light kit, including the ring light, tripod, phone holder, and remote control.

3. SETUP INSTRUCTIONS

1. Assemble the Tripod Stand:

Unfold the tripod legs and extend them to a stable position. Adjust the height of the tripod by loosening the twist locks on the central pole, extending the sections, and then tightening the locks securely. The tripod can extend from 17 inches to 62 inches.

Superiority

12 inches

Extendable

17-62 in

180° Rotation

Vertically & Horizontally

Twist Lock

Image: A hand demonstrating the adjustment of the tripod's height and the ring light's rotation.

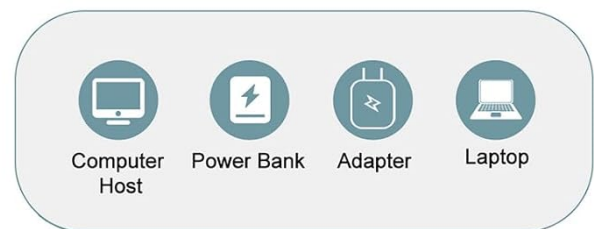

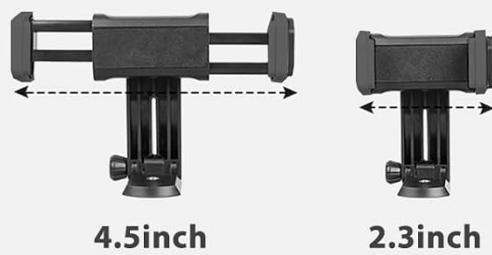

2. Attach the Ring Light:

Locate the 1/4-inch screw head on top of the tripod. Align the ring light's mounting point with this screw and rotate clockwise until it is firmly attached. Ensure the connection is secure to prevent the light from wobbling.

3. Install the Phone Holder:

The universal phone holder can be attached to the flexible arm within the ring light. Screw the phone holder onto the flexible arm until it is secure. The phone holder supports devices with widths between 2.8 to 5.3 inches.

Upgraded Phone Clamp: Holds smartphone with widths of 2.3" To 4.5"

Wireless Remote:

For easy shooting experience with both **IOS** and **Android** phones

Operation distance up to 10m

4. Connect Power:

Plug the integrated USB cable into a 5V, 2A, 10W power source such as a power bank, AC/DC adapter, laptop, or computer. Using a power source with lower specifications may result in flickering or reduced performance.

4. OPERATING INSTRUCTIONS

4.1 Ring Light Controls

The ring light features an inline control panel on its USB cable for easy adjustments:

- **Power Button:** Press to turn the ring light ON or OFF.
- **Brightness Adjustment (+/-):** Use the '+' and '-' buttons to increase or decrease the light intensity. There are 10 brightness levels available.
- **Color Temperature Button:** Cycle through 3 color temperatures: Cold White (6000K), Warm White (4500K), and Warm Yellow (3000K).

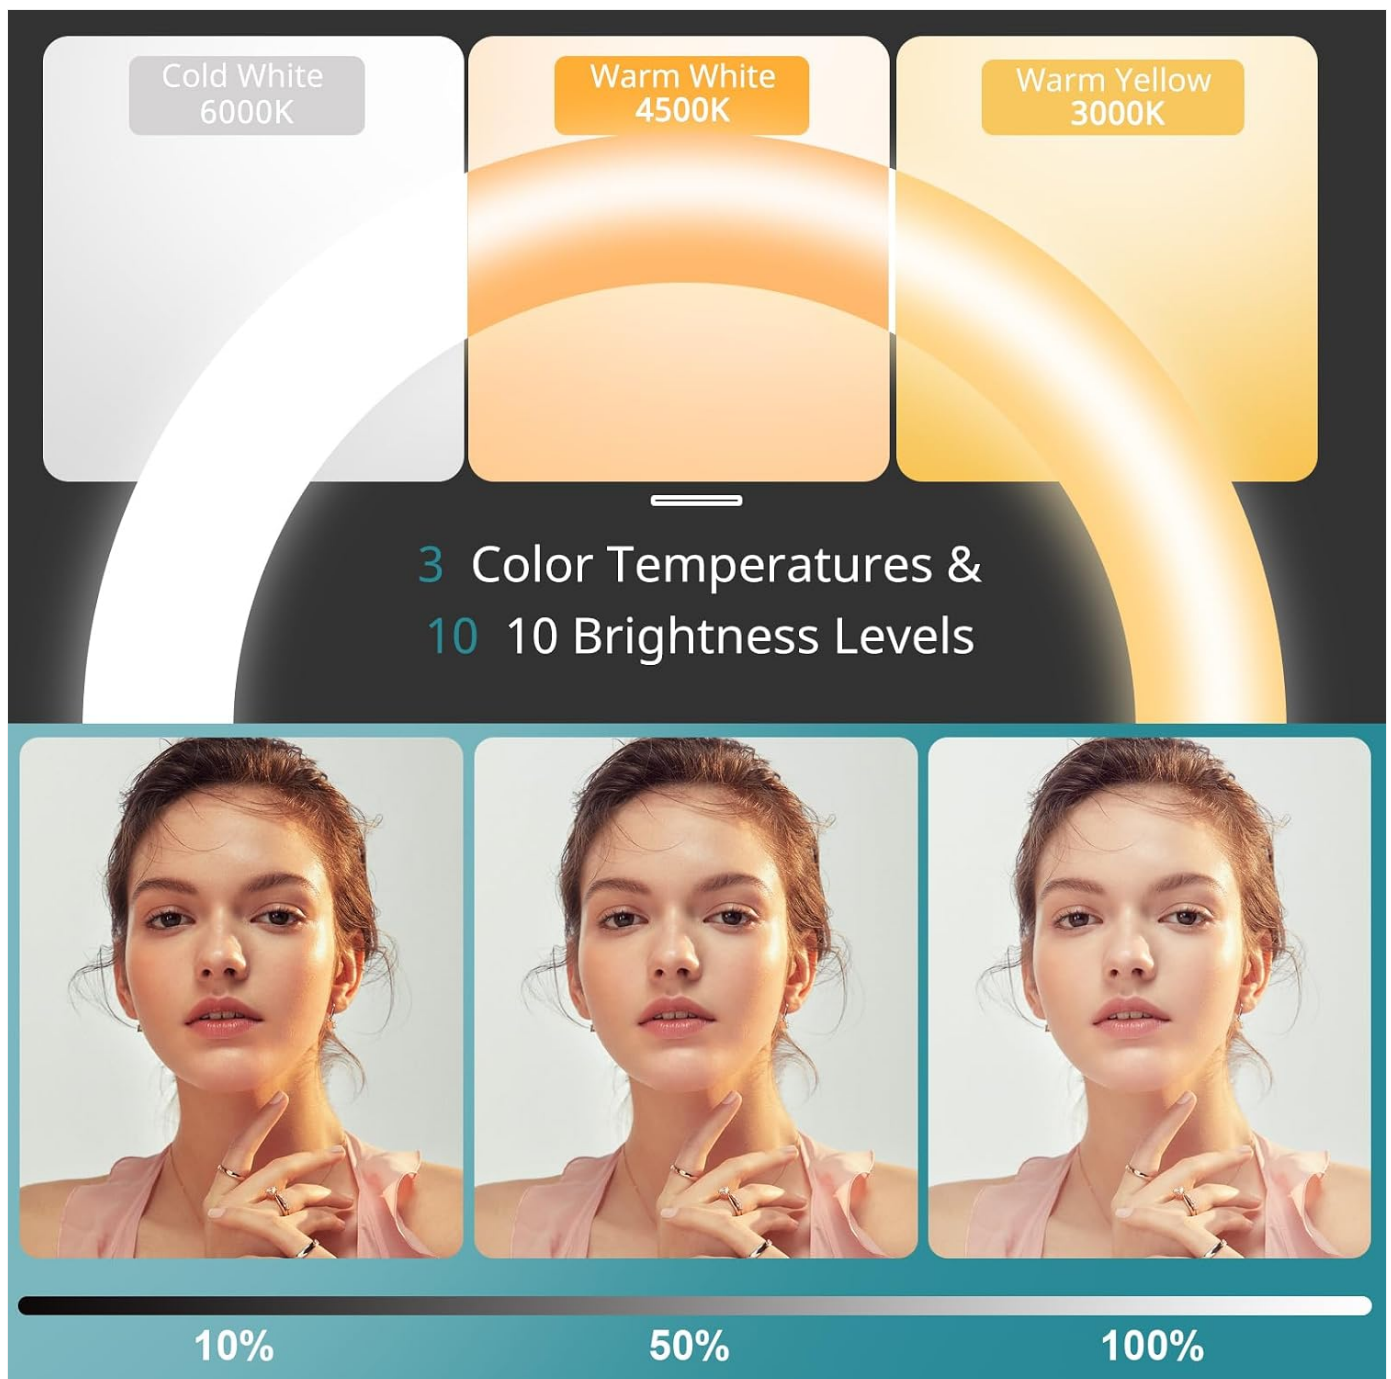

Image: Visual representation of the three distinct color temperatures (Cold White, Warm White, Warm Yellow) and three brightness levels (10%, 50%, 100%) offered by the ring light.

4.2 Adjusting Angles

- **Ring Light Angle:** The ball head connecting the ring light to the tripod allows for 180° vertical adjustment. Loosen the knob, position the light, and tighten to secure.
- **Phone Holder Rotation:** The phone clip can rotate 360°, supporting both horizontal and vertical phone orientations.

4.3 Wireless Remote Control

The included quick-connect wireless remote control allows you to trigger your phone's camera from up to 10 meters (33 feet) away. This is ideal for hands-free photo and video capture.

Pairing Instructions:

1. Ensure the remote has a working CR2032 battery (included).
2. Turn on Bluetooth on your smartphone (iPhone or Android).
3. Search for available devices and select "AB Shutter3" or similar.

4. Once paired, press the corresponding button (iOS or Android) on the remote to activate your phone's camera shutter.

Note: The remote control is for triggering the camera shutter and does not control the ring light's power or brightness settings.

4.4 Video Demonstration: Light Settings

5. KEY FEATURES

- **Professional Illumination:** The 12-inch ring light provides superior brightness compared to smaller models. It offers 3 distinct color temperatures (Cold White, Warm White, Warm Yellow) and 10 adjustable brightness levels, allowing for customized lighting to suit any environment or desired effect. The design is skin-friendly, UV-free, and engineered to reduce glare, enhancing facial features for portraits and videos.
- **Portable Power:** Equipped with a USB charging cable, the ring light can be powered by various common sources such as power banks, AC/DC adapters, laptops, and computers. This ensures flexibility for use at home, in the office, or outdoors.
- **Versatile Shooting Angles:** The tripod's ball head allows the ring light to be tilted up to 180°, making it suitable for diverse applications including live streaming, makeup application, and overhead shots for product or food photography. The 360° rotatable phone clip further enhances versatility, accommodating both horizontal and vertical phone orientations.
- **Sturdy and Adjustable Tripod:** Constructed from lightweight and corrosion-resistant aluminum, the tripod stand offers excellent stability. It can be quickly adjusted in height from a compact 17 inches to an extended 62 inches. The 1/4-inch screw head ensures broad compatibility with various devices, including smartphones, cameras, and action cameras (e.g., GoPros).
- **Convenient Accessories:** The kit includes a universal phone clip designed to securely hold most smartphones (2.8 to 5.3 inches wide), with or without a case. A quick-connect wireless remote control is also provided, enabling remote photo and video capture from up to 10 meters (33 feet) away.

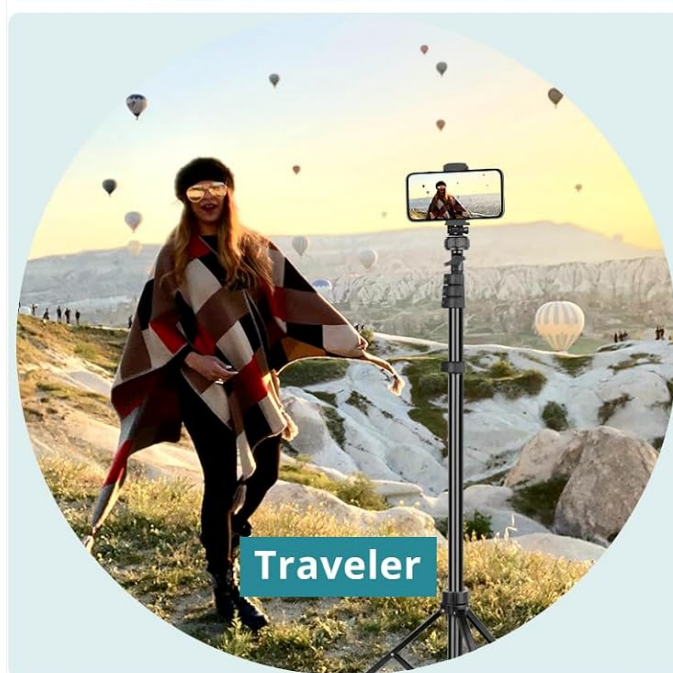

Image: Examples of the Eicaus ring light in use by various professionals and enthusiasts, highlighting its versatility.

6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the ring light and tripod. Avoid abrasive cleaners or solvents that could damage the surfaces.
- **Storage:** When not in use, collapse the tripod and store all components in a dry, cool place to prevent damage.
- **Battery Replacement (Remote):** The wireless remote uses a CR2032 battery. Replace it when the remote's functionality diminishes.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Ring light not turning on.	No power or insufficient power supply.	Ensure the USB cable is securely plugged into a 5V, 2A, 10W power source. Try a different USB port or adapter.
Light flickers or is dim.	Insufficient power supply.	Use a 5V, 2A, 10W power adapter for optimal performance. Lower power sources may cause instability.
Phone holder sags when phone is attached.	Holder not tightened sufficiently or phone is too heavy.	Ensure the phone holder is securely screwed onto the flexible arm. The holder supports phones up to 5.3 inches wide. Adjust the ring light's angle slightly backward before placing the phone for overhead shots to compensate for weight.
Wireless remote not connecting.	Remote battery low or not paired correctly.	Replace the CR2032 battery in the remote. Re-pair the remote via your phone's Bluetooth settings.

8. SPECIFICATIONS

- Model Number:** TBC001
- Ring Light Diameter:** 12 inches
- Tripod Height Adjustment:** 17 inches to 62 inches
- Color Temperatures:** 3 (Cold White 6000K, Warm White 4500K, Warm Yellow 3000K)
- Brightness Levels:** 10
- Power Input:** 5V, 2A, 10W (USB powered)
- Phone Holder Compatibility:** 2.8 to 5.3 inches wide
- Wireless Remote Range:** Up to 10 meters (33 feet)
- Remote Battery:** 1 x CR2032 (included)
- Material:** Aluminum alloy (tripod), ABS plastic (ring light housing)
- Item Weight:** 2.42 pounds
- Product Dimensions:** 3 x 15 x 74 inches (fully extended)

9. WARRANTY AND SUPPORT

Eicaus is committed to providing excellent after-sales support. If you encounter any issues or have questions regarding your 12-inch Ring Light, please do not hesitate to contact our customer service team. Refer to your purchase documentation for specific warranty details and contact information.
