Setup

Charging the Power Bank

Before initial use, fully charge your VRURC Power Bank. The intelligent LED display will show the charging progress from 0 to 100%.

There are two primary ways to recharge the power bank:

1. **Using the Built-in USB-A Cable:** Extend the built-in USB-A cable and plug it into any standard USB wall adapter (not included) or a computer's USB port.
2. **Using the Type-C Input Port:** Connect a USB Type-C cable (not included) to the power bank's Type-C input port and plug it into a compatible wall adapter.

Operating Instructions

Charging Your Devices

The VRURC Power Bank offers multiple ways to charge your devices simultaneously:

- **Built-in Cables:** The power bank includes three built-in cables: Lightning (for iPhone), USB Type-C, and Micro USB. Simply pull out the appropriate cable and connect it directly to your device.
- **USB-A Output Port:** For devices requiring a standard USB-A connection, use your own USB cable and plug it into the designated USB-A output port on the power bank.
- **USB Type-C Output Port:** The Type-C port also functions as an output, allowing you to charge compatible devices using a Type-C to Type-C cable (not included).

You can charge up to 5 devices simultaneously using a combination of the built-in cables and external ports, with each output providing a maximum of 5V/2.4A.

Safety Information

The VRURC Power Bank is equipped with a high-quality smart chip to prevent common charging issues, ensuring the safety of your devices. These protections include:

- Over-charge protection
- Over-voltage protection
- Over-current protection
- Short circuit protection

Specifications

Feature	Detail
Product Dimensions	5.7 x 2.69 x 0.72 inches
Item Weight	8.5 ounces
Item Model Number	T1116
Battery Type	Lithium Polymer (1 required, included)
Battery Capacity	10000 Milliamp Hours
Special Features	LED Display, Lanyard Design, Slim, Pocket Size, Built-In Cable
Color	Blue
Connector Type	USB Type C, Micro USB, Lightning, USB-A
Manufacturer	Dong guan Utopia-Originality Technology Co., Ltd
Country of Origin	China
Date First Available	January 10, 2023

Troubleshooting

If you encounter issues with your VRURC Power Bank, please refer to the following common solutions:

- **Power Bank Not Charging:** Ensure the charging cable is securely connected to both the power bank's input port (USB-A or Type-C) and the power source. Verify the power source is active.
- **Slow Recharging of Power Bank:** Recharging time can vary depending on the power adapter's output. For optimal charging speed, use a 5V/2.4A or higher output adapter.
- **Device Not Charging from Power Bank:** Check that the correct built-in cable or external cable is firmly connected to your device and the power bank. Ensure the power bank has sufficient charge (check the LED display).
- **LED Display Not Working:** Press the power button briefly to activate the display. If it remains off, the power bank might be fully discharged or require a reset by plugging it into a power source.

If problems persist, please contact customer support.

Warranty and Support

Your VRURC 10000mAh Power Bank comes with a **12-month warranty** from the date of purchase. This warranty covers manufacturing defects and ensures reliable performance.

For any questions, technical support, or warranty claims, please refer to the contact information provided in the product packaging or visit the official VRURC website. Our customer service team is available to assist you.
