## 4. SETUP AND ASSEMBLY

---

Follow these steps carefully to assemble your CASARIA Eloise Bedside Table. It is recommended to have two people for assembly.

1. **Prepare Workspace:** Clear a spacious area and lay out all components on a soft, clean surface to prevent scratches.
2. **Attach Drawer Slides to Side Panels:** Secure the inner drawer slides to the designated holes on the side panels using the provided screws. Ensure they are correctly oriented.
3. **Assemble Drawers:** For each of the three drawers, connect the drawer sides to the drawer front and back using dowels and cam locks. Slide the drawer bottom into the grooves. Attach the handles to the drawer fronts.
4. **Install Outer Drawer Slides:** Attach the outer drawer slides to the assembled drawer boxes.
5. **Construct Main Frame:** Connect the side panels to the bottom panel using dowels and cam locks. Then, attach the top panel. Ensure all connections are secure.
6. **Insert Drawers:** Carefully slide the assembled drawers into the main frame, aligning the inner and outer drawer slides.
7. **Attach Back Panel:** Secure the back panel to the rear of the unit using small nails or screws.
8. **Wall Mounting (Recommended):** Attach the wall mounting strap to the top rear of the bedside table using the provided screw. Secure the other end of the strap to a wall stud or use appropriate wall anchors (not always included, depending on wall type). This step is crucial for stability and safety.

## 6. MAINTENANCE

---

Proper care will extend the life and appearance of your bedside table:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid using abrasive cleaners, harsh chemicals, or solvents, as these can damage the finish.
- **Spills:** Clean up spills immediately to prevent staining or moisture damage.
- **Hardware Check:** Periodically check all screws and fittings to ensure they remain tight. Retighten if necessary to maintain stability.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading or discoloration of the finish.

## 7. TROUBLESHOOTING

---

If you encounter any issues with your bedside table, refer to the following common solutions:

- **Table is Wobbly:**

- Ensure all screws and cam locks are fully tightened.
- Verify the unit is on a flat, even surface. Adjust floor protectors if necessary.

- **Drawers Do Not Slide Smoothly:**

- Check that the drawer slides are correctly aligned and securely attached to both the drawer box and the main frame.
- Ensure no objects are obstructing the drawer's path.
- Verify that the drawer boxes are assembled squarely.

- **Missing or Damaged Parts:**

- Carefully re-check all packaging materials.
- Contact CASARIA customer service with your product model and a description of the missing/damaged part.
