## Maylit Under Cabinet Lights

# Maylit Under Cabinet Lights Instruction Manual

Model: Under Cabinet Lights (Daylight White 6000K, 3 Pack)

## 1. PRODUCT OVERVIEW

The Maylit Under Cabinet Lights provide efficient and versatile lighting solutions for various indoor spaces. Designed with an ultra-thin profile, these lights offer bright illumination and convenient control options.

### Key Features:

- **Super Bright:** Equipped with 81 high-brightness LEDs, delivering 1200 lumens (for 3 Pcs) of 6000K daylight white light. Ideal for kitchens, garages, shelves, closets, desks, and workbenches.
- **Unique Touch Dimmer:** Features a smart touch dimmer for adjusting brightness and turning the lights ON/OFF. A long touch adjusts brightness from 1% to 100%, while a short touch toggles power.
- **Ultra Thin Design:** With a 0.25-inch thickness, these lights can be discreetly hidden under cabinets, counters, and workspaces, ensuring a clean aesthetic.
- **Easy to Install:** Includes both double-sided tapes and screws, offering two flexible installation methods to suit different surface materials.
- **Wide Application:** Suitable for various indoor environments including kitchens, bedrooms, cabinets, closets, wardrobes, workspaces, counters, desks, displays, showcases, workshops, garages, stairs, hallways, and storage rooms.

## 2. PACKAGE CONTENTS

Your Maylit Under Cabinet Lights package includes the following items:

- 3 x 12-inch LED Light Bars
- 1 x Power Adapter
- 1 x Smart Touch Dimmer Switch (integrated with power cable)
- 1 x Wireless IR Remote Control
- Mounting Accessories (Double-sided tapes and screws)

## 3. SETUP AND INSTALLATION

Before installation, ensure the installation surface is clean and dry. Choose between adhesive tape or screw mounting based on your surface material and desired permanence.

## Installation Methods:

### 1. Adhesive Tape Installation (for smooth surfaces):

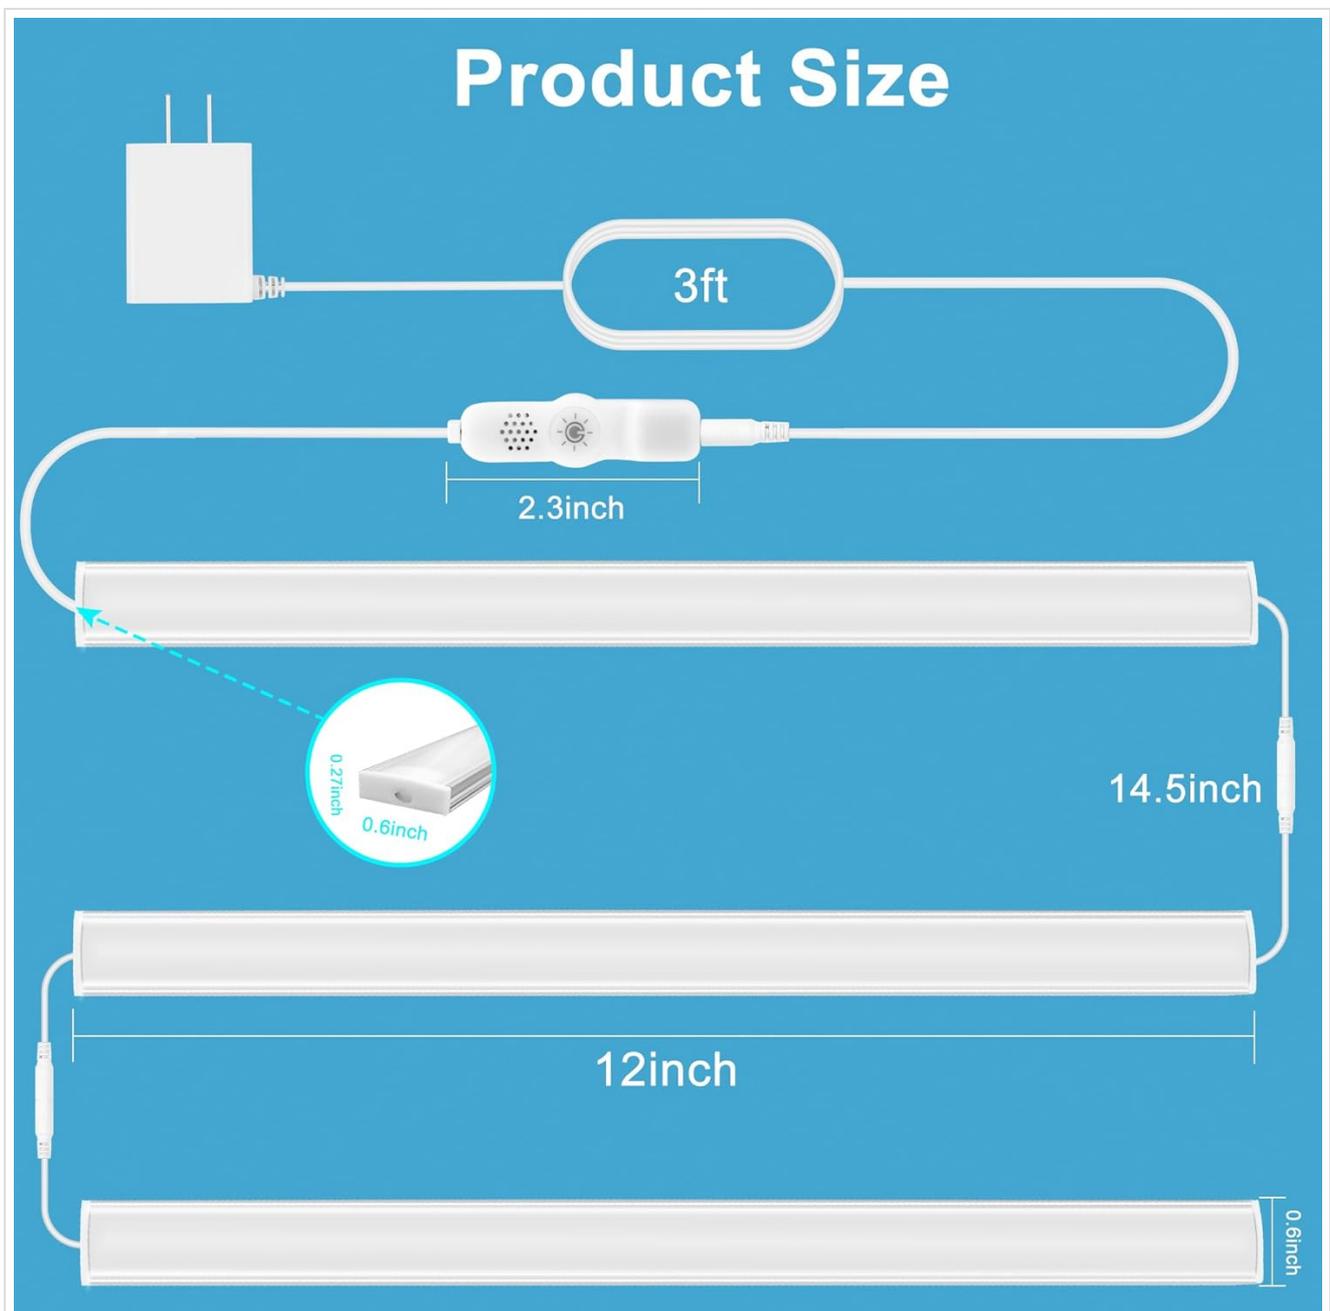

- Clean the desired installation area thoroughly.
- Peel off the protective backing from the double-sided adhesive tapes.
- Attach the tapes to the back of each LED light bar.
- Firmly press each light bar onto the clean surface under your cabinet or desired location.

### 2. Screw Mounting (for rough surfaces or permanent installation):

- Position the light bar and mark the screw hole locations.
- Drill pilot holes if necessary.
- Secure the mounting clips/brackets to the surface using the provided screws.
- Snap the LED light bars into the mounted clips/brackets.

## Connecting the Lights:

Connect the individual light bars to each other using the provided cables. Ensure a secure connection for proper functionality. Plug the power adapter into a standard electrical outlet and connect it to the first light bar or the integrated dimmer switch.

## 4. OPERATING INSTRUCTIONS

The Maylit Under Cabinet Lights offer flexible control through an integrated touch dimmer and a wireless remote control.

### Touch Dimmer Operation:

- **Short Touch:** Tap the touch dimmer to turn the lights ON or OFF.
- **Long Touch:** Press and hold the touch dimmer to adjust the brightness level continuously from 1% to 100%.

### Wireless Remote Control Operation:

The included IR remote control provides additional convenience for managing your lighting.

- **ON/OFF:** Press the red "ON" or black "OFF" buttons to power the lights.
- **Brightness Adjustment:** Use the up and down arrow buttons to increase or decrease brightness.
- **Sleep Mode:** Press the moon icon button for a dimmed, soft light suitable for nighttime.
- **Flashing Mode:** Press the heart icon button to activate a dynamic flashing light effect.
- **Timer Settings:** Utilize the timer buttons (30m, 1h, 2h, 3h, 4h) to set an automatic shut-off time. Press 'C' to cancel the timer.

## 5. MAINTENANCE

To ensure the longevity and optimal performance of your Maylit Under Cabinet Lights, follow these simple maintenance guidelines:

- **Cleaning:** Gently wipe the light bars with a soft, dry cloth. Avoid using abrasive cleaners or solvents, as these can damage the finish or electronic components.
- **Power Disconnection:** Always unplug the power adapter from the outlet before cleaning or performing any maintenance.
- **Environmental Conditions:** These lights are designed for indoor use only and are not water-resistant. Avoid exposure to moisture, high humidity, or extreme temperatures.

---

## 6. TROUBLESHOOTING

If you encounter any issues with your Maylit Under Cabinet Lights, please refer to the following common troubleshooting steps:

- **Lights Not Turning On:**

- Check if the power adapter is securely plugged into a working electrical outlet.
- Ensure all light bars are properly connected to each other and to the power adapter/dimmer switch.
- Verify that the touch dimmer or remote control is functioning correctly (e.g., remote battery is not depleted).

- **Lights Flickering or Dim:**

- Confirm that the power supply is stable and not experiencing fluctuations.
- Check for loose connections between light bars or to the power adapter.
- Adjust the brightness level using the touch dimmer or remote control.

- **Remote Control Not Responding:**

- Ensure there are no obstructions between the remote and the IR receiver on the dimmer switch.
- Replace the remote control battery if necessary.
- Point the remote directly at the IR receiver for optimal performance.

If the problem persists after trying these steps, please contact Maylit customer support for further assistance.
