

## **Glorious GLO-MS-IWV2-MB**

# **Glorious Gaming Model I 2 Wireless Gaming Mouse**

Model: GLO-MS-IWV2-MB

Brand: Glorious

## **1. INTRODUCTION**

This user manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your Glorious Gaming Model I 2 Wireless Gaming Mouse. Designed for optimal performance and comfort, this ultralight mouse offers versatile connectivity and customizable features to enhance your gaming experience.

Figure 1: Glorious Model I 2 Wireless Gaming Mouse (Matte Black)

## 2. KEY FEATURES

- **Ultralight Ergonomic Design:** Weighing only 75 grams, the Model I 2 features an ergonomic shape for comfortable, extended gaming sessions. It includes a new split-button design and 80M-rated switches for crisp clicks.
- **9 Programmable Buttons:** Customize your gameplay with 9 programmable buttons, including 2 swappable magnetic side buttons. Two programmable layers allow for up to 16 configurations, easily switched via the Action Button.
- **Advanced BAMF 2.0 Optical Sensor:** Experience precise tracking with up to 26,000 DPI, 650 IPS, and 1,000Hz Polling Rate. Motion Sync Technology ensures accurate real-time cursor movement.
- **Versatile Connectivity:** Choose from three connection modes:
  - 2.4GHz Wireless: Up to 110 hours of battery life (RGB off).
  - Bluetooth 5.2 LE: Up to 210 hours of battery life (RGB off).
  - Wired Mode: Play while charging for uninterrupted use.
- **Customizable RGB Lighting:** Personalize your mouse with vibrant RGB lighting that illuminates through the honeycomb

shell.

## 3. SETUP GUIDE

### 3.1. Unboxing and Initial Inspection

Carefully remove all components from the packaging. Ensure the following items are present:

- Glorious Model I 2 Wireless Gaming Mouse
- USB-A to USB-C charging cable
- Wireless 2.4GHz USB dongle
- Additional swappable magnetic side buttons

Figure 4: Mouse accessories including the USB dongle and charging cable.

### 3.2. Initial Charging

Before first use, fully charge the mouse. Connect the USB-C end of the charging cable to the mouse and the USB-A end to a powered USB port on your computer or a wall adapter. The mouse's RGB lighting will indicate charging status and turn off when fully charged.

### 3.3. Connectivity Options

The Model I 2 offers three ways to connect:

#### 1. 2.4GHz Wireless (Recommended for Gaming):

- Locate the power switch on the bottom of the mouse and slide it to the "2.4" position.
- Insert the 2.4GHz USB dongle into an available USB port on your computer.
- The mouse should automatically connect.

#### 2. Bluetooth 5.2 LE:

- Slide the power switch on the bottom of the mouse to the "BT" position.
- On your computer, go to Bluetooth settings and search for new devices.

- Select "Glorious Model I 2" from the list to pair.

**3. Wired Mode:**

- Connect the USB-C cable directly from the mouse to your computer.
- The mouse will function as a wired mouse and charge simultaneously.

Figure 5: Power and connectivity switch located on the underside of the mouse.

### 3.4. Software Installation (Glorious CORE)

For full customization of DPI settings, button assignments, and RGB lighting, download and install the Glorious CORE software from the official Glorious Gaming website ([gloriousgaming.com/core](http://gloriousgaming.com/core)). Follow the on-screen instructions for installation.

## 4. OPERATING INSTRUCTIONS

### 4.1. Button Functions

The Model I 2 features 9 programmable buttons. Default functions are as follows:

- Left Click (LMB)
- Right Click (RMB)
- Scroll Wheel Click (MMB)
- DPI Cycle Button (behind scroll wheel)
- Forward Side Button
- Backward Side Button
- Two Swappable Side Buttons (default: G-Shift, Action Button)
- Scroll Up
- Scroll Down

Use the Glorious CORE software to reassign any button to a different function, macro, or keyboard shortcut.

### 4.2. DPI Adjustment

The DPI (Dots Per Inch) button allows you to cycle through preset sensitivity levels. You can customize these levels and add more steps using the Glorious CORE software, up to 26,000 DPI.

### 4.3. RGB Lighting Customization

The RGB lighting can be adjusted for brightness, effects, and colors via the Glorious CORE software. To maximize battery life, it is recommended to set RGB brightness at 5% or turn it off.

*Quick Shortcut:* Hold Scroll Wheel + DPI Button, then tap the Right Mouse Button to cycle through brightness levels.

### 4.4. Swappable Side Buttons

The Model I 2 comes with two magnetic swappable side buttons. To change them, gently pull the existing buttons off and align the new buttons with the magnetic slots until they click into place.

## 5. MAINTENANCE

### 5.1. Cleaning

To maintain optimal performance, regularly clean your mouse. Use a soft, dry cloth to wipe down the surface. For the honeycomb shell, a can of compressed air can help remove dust and debris. Avoid using harsh chemicals or abrasive materials.

## 5.2. Battery Care

To prolong battery life, avoid fully discharging the mouse frequently. Charge it when the battery indicator is low. If storing the mouse for an extended period, charge it to about 50% and turn it off.

## 5.3. Firmware Updates

Periodically check for firmware updates via the Glorious CORE software. Updates can improve performance, add new features, and resolve potential issues. Ensure the mouse is connected via USB cable during firmware updates to prevent interruptions.

# 6. TROUBLESHOOTING

If you encounter issues with your Glorious Model I 2 Wireless Gaming Mouse, please refer to the common solutions below:

- **Mouse not responding:**

- Ensure the mouse is charged.
- Check the power switch on the bottom of the mouse is in the correct position (2.4 or BT).
- For 2.4GHz, ensure the USB dongle is securely plugged into a working USB port. Try a different port.
- For Bluetooth, ensure Bluetooth is enabled on your computer and the mouse is paired. Try re-pairing.
- Try connecting the mouse in wired mode to see if it functions.

- **Intermittent connectivity/stuttering:**

- Ensure the dongle is not too far from the mouse or obstructed.
- Minimize interference from other 2.4GHz wireless devices (e.g., Wi-Fi routers, other wireless peripherals).
- Ensure your computer's drivers are up to date.

- **Buttons not working/responding:**

- Check Glorious CORE software for any custom button assignments that might be causing unexpected behavior.
- Perform a factory reset if necessary (refer to Glorious CORE software or online resources for instructions).

- **RGB lighting issues:**

- Ensure RGB is enabled and brightness is not set to 0% in Glorious CORE.
- Check battery level, as low battery can affect RGB performance.

For more in-depth troubleshooting, please refer to the official Glorious Gaming [Troubleshooting Guide \(PDF\)](#).
