SMANOW BOC95725-70-C

SMANOW Running Boards Instruction Manual for 2007-2014 Toyota FJ Cruiser SUV

INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your SMANOW Running Boards, specifically designed for the 2007-2014 Toyota FJ Cruiser SUV. Please read this manual thoroughly before installation and use to ensure proper function and safety.

SAFETY INFORMATION

- Always ensure all mounting hardware is securely tightened before using the running boards.
- Do not exceed the maximum weight limit of **350 pounds** per running board.
- Regularly inspect the running boards for any signs of damage, corrosion, or loose components.
- Exercise caution when stepping on or off the running boards, especially in wet, icy, or muddy conditions.
- Wear appropriate personal protective equipment during installation, such as gloves and eye protection.

PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- Left Side Step (1)
- Right Side Step (1)
- Mounting Brackets (Set)
- Hardware Kit (Bolts, Washers, Nuts)
- Installation Instructions (This Manual)

SETUP AND INSTALLATION

The SMANOW Running Boards are designed for a simple, no-drill installation using existing factory mounting points on your 2007-2014 Toyota FJ Cruiser SUV.

General Installation Steps:

1. **Identify Mounting Points:** Locate the factory mounting holes on the vehicle's chassis beneath the doors.
2. **Attach Brackets:** Secure the appropriate mounting brackets to the vehicle's frame using the provided hardware. Ensure a snug fit but do not fully tighten at this stage.
3. **Position Running Boards:** Carefully lift and align each running board with the attached brackets.
4. **Secure Running Boards:** Attach the running boards to the brackets using the remaining hardware.
5. **Final Tightening:** Once both running boards are in place and aligned, progressively tighten all bolts to the manufacturer's recommended torque specifications. Ensure even tightening across all points for optimal stability.

The fixed mounting holes and precise design ensure a tight connection and enhanced stability.

**FIXED MOUNTING HOLES EXHIBIT HIGHER STABILITY
DUE TO TIGHT CONNECTION AND PRECISE INSTALLATION.**

OPERATING INSTRUCTIONS

The SMANOW Running Boards provide a convenient and secure step for easier entry and exit from your vehicle. Their drop-down style offers an optimal stepping height.

- **Stepping On:** Place your foot firmly on the non-slip step pad. Use the vehicle's grab handles for additional support if needed.
- **Stepping Off:** Ensure a clear path before dismounting. Step down carefully, maintaining balance.

The step pads feature a special non-slip tread for superior traction, enhancing safety even in adverse weather conditions. The robust construction, including triangular welding, provides greater stability and can support over 350 pounds.

4.7 INCHES DROP OFF MAKING IT EASIER TO ENTER AND EXIT

MAINTENANCE

To ensure the longevity and appearance of your SMANOW Running Boards, follow these maintenance guidelines:

- **Regular Cleaning:** Wash the running boards with mild soap and water. Rinse thoroughly and dry to prevent water spots.
- **Inspect for Damage:** Periodically check for any scratches, dents, or signs of corrosion. The matte textured black powder coating provides excellent rust and corrosion resistance, but regular inspection is recommended.
- **Hardware Check:** Re-check all mounting bolts every few months or after off-road use to ensure they remain tight.

HIGH QUALITY FINISH

Rust Resistance

Waterproof

TROUBLESHOOTING

If you encounter any issues with your SMANOW Running Boards, refer to the following common troubleshooting tips:

- **Loose Running Board:** If a running board feels loose or wobbly, re-check all mounting bolts and ensure they are tightened to the recommended torque specifications.
- **Unusual Noise:** Inspect for any loose components or contact points between the running board and the vehicle chassis. Tighten any loose hardware.
- **Difficulty Stepping:** Ensure the running boards are installed correctly and are not obstructed by debris or vehicle components. Verify the drop-down height is consistent.

SPECIFICATIONS

Brand	SMANOW
Model Number	BOC95725-70-C

Compatible Vehicle	2007-2014 Toyota FJ Cruiser SUV
Material	Carbon Steel
Color	BLACK
Exterior Finish	Dual-Stage Textured Black Powder
Item Dimensions (L x W x H)	60 x 3 x 4.5 inches
Item Weight	35.7 pounds
Weight Limit	350 pounds
Number of Items	2 (Left and Right Side Steps)

PRODUCT SIZE
