

365179

Generic Livarno Home Telescopic Bathroom Shelf Instruction Manual

Model: 365179 | Brand: Generic

INTRODUCTION

This instruction manual provides essential information for the safe and effective assembly, operation, and maintenance of your Generic Livarno Home Telescopic Bathroom Shelf. Please read this manual thoroughly before installation and retain it for future reference.

SAFETY INSTRUCTIONS

- Ensure all components are present and undamaged before assembly. Do not use if any parts are missing or broken.
- Install the shelf on a stable, flat surface between the floor and ceiling of your shower or bathtub area.
- Do not overload the shelves. The maximum recommended weight capacity is 9 kg (approximately 20 lbs). Distribute weight evenly.
- Keep small children and pets away during assembly to prevent accidents.
- Regularly check the tension of the pole to ensure it remains securely in place.
- Avoid using abrasive cleaners or materials that could damage the plastic and metal surfaces.

PACKAGE CONTENTS

Before beginning assembly, verify that all the following components are included in your package:

- Telescopic pole sections (main vertical support)
- Adjustable shelf baskets (3 units)
- Rubber end caps (top and bottom for tension mounting)
- Mounting hardware for shelves (clips/rings)
- Instruction manual (this document)

Image: All components of the telescopic bathroom shelf, including the main pole and three shelf baskets.

SETUP AND ASSEMBLY

Follow these steps to assemble and install your telescopic bathroom shelf:

1. **Prepare the Area:** Choose a corner in your shower or bathtub area where you wish to install the shelf. Ensure the floor and ceiling surfaces are clean and dry.
2. **Assemble the Pole:** Connect the telescopic pole sections. The pole is designed to extend and retract to fit various ceiling heights.

Image: Detail of the top rubber cap and tension mechanism, showing how the pole secures against the ceiling.

3. **Install the Pole:** Place the bottom end cap firmly on the floor in the desired corner. Extend the top section of the pole until the top end cap makes firm contact with the ceiling. Twist or use the locking mechanism (if present) to secure the pole in place with adequate tension. The pole should be stable and not wobble.

Image: The fully assembled telescopic shelf standing upright in a shower corner, demonstrating its height and placement.

4. **Attach the Shelves:** Slide the shelf baskets onto the pole. Each basket typically has a locking mechanism (e.g., a rubber ring or clip) that allows you to adjust its height. Position the shelves at your desired heights and secure them by tightening the mechanism.

Image: A detailed view of the individual shelf baskets, highlighting their design and how they attach to the main pole.

5. **Final Check:** Gently push and pull on the installed shelf to ensure it is stable and securely mounted. Adjust tension if necessary.

OPERATING AND USAGE

Your telescopic bathroom shelf is designed for convenient storage of shower and bath essentials. Here are some tips for optimal use:

- Place shampoo, conditioner, soap, sponges, and other toiletries on the shelves.
- Distribute items evenly across the shelves to maintain stability and prevent tipping.
- Utilize the corner design to maximize space efficiency in your shower or bath area.

Image: The telescopic shelf positioned in a shower corner, holding various bath products like bottles and sponges, with a shower head visible.

Image: The telescopic shelf installed in a shower with white tiled walls, showcasing its integration into a brighter bathroom aesthetic, holding bath items.

MAINTENANCE

To ensure the longevity and appearance of your bathroom shelf, follow these maintenance guidelines:

- **Cleaning:** Wipe down the pole and shelves regularly with a soft cloth and mild soap or a non-abrasive bathroom cleaner. Rinse thoroughly with water.
- **Drying:** After cleaning, dry all surfaces to prevent water spots and mineral buildup.
- **Inspection:** Periodically inspect the pole and shelf connections for any signs of wear, corrosion, or loosening.
- **Avoid Harsh Chemicals:** Do not use abrasive pads, scouring powders, or strong chemical cleaners, as these can damage the finish.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Shelf is wobbly or unstable.	Insufficient tension on the pole; uneven surface; overloaded shelves.	Ensure the pole is extended with enough tension between the floor and ceiling. Check that the floor and ceiling surfaces are flat. Redistribute or remove some items from the shelves.
Shelves slide down the pole.	Shelf locking mechanism is not tightened sufficiently; shelves are overloaded.	Re-tighten the locking mechanism for each shelf. Reduce the weight on the shelves.
Rust or discoloration appears.	Exposure to harsh chemicals; prolonged water exposure; hard water buildup.	Clean regularly with mild soap and water. Avoid harsh cleaners. Ensure proper ventilation in the bathroom. For hard water stains, use a vinegar solution.

SPECIFICATIONS

- Model:** 365179
- Brand:** Generic
- Manufacturer:** OWIM GmbH & Co. KG
- Material:** Plastic, Metal
- Color:** Silver
- Product Dimensions (assembled):** Approximately 25.5 cm (Depth) x 25.5 cm (Width) x 260 cm (Height, adjustable)
- Item Weight:** 3 Kilograms
- Maximum Weight Recommendation per shelf:** 9 Kilograms (total distributed weight)
- Number of Compartments:** 3
- Form:** Rectangular, Linear
- Specific Use:** Showers, Bathtubs

PLASMA-M2250BLACK NEOMOUNTS BY NEWSTAR SUPPORT AU SOL

Le Neomounts by Newstar
PLASMA-M2250BLACK est un socle
mobile au sol pour les écrans plats jusqu'à
100"

CARACTÉRISTIQUES

Modèle	PLASMA-M2250BLACK
Matériau	Acier
Poids	100 kg
Dimensions	1000 x 1000 x 1000 mm
Capacité de charge	100 kg
Garantie	3 ans
Accessoires	4 roues, 2 roues de secours
Options	Tablette de montage, 2 roues de secours
Notes	Le Neomounts by Newstar PLASMA-M2250BLACK est un socle mobile au sol pour les écrans plats jusqu'à 100".

Le Neomounts by Newstar PLASMA-M2250BLACK est un socle mobile au sol pour les écrans plats jusqu'à 100". Le chariot est compatible avec les normes VESA allant de 200x200 à 800x800.

Disposant facilement de chariot entre les portes grâce à la qualité de ses roues Ce support électrique mobile est automatiquement réglable sur une hauteur de 50 cm via une télécommande. Entre le sol et le centre de l'écran, vous pouvez faire un réglage entre 120 cm et 170 cm.

Le Neomounts by Newstar PLASMA-M2250BLACK de couleur noir est un excellent choix de support pour tout type de pièce ou soit le montage mural, au plafond ou sur un support existant par exemple. Le chariot est équipé de quatre roues, deux pneus, deux roues avant sont équipées d'un frein.

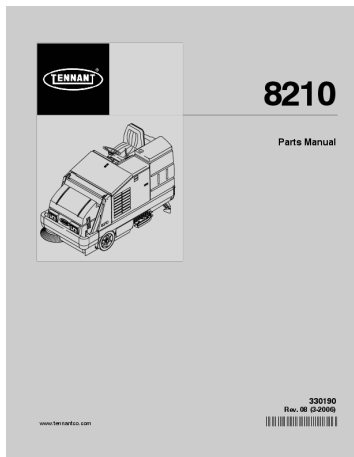

Tous les éléments d'installation sont inclus avec le produit.

PLASMA-M2250BLACK est un produit de la gamme Neomounts by Newstar. Pour plus d'informations, consultez le site internet de la gamme Neomounts by Newstar.

Fortimo SLM - best combination of performance and quality of light - now embraces industry standard footprint

Fortimo SLM C 1202 L09 1313 G7N

The leading efficiency and quality of light of Fortimo SLM is fully realized in the industry standard footprint. The new G7N family offers the standard series (S080 and S080) in 3 DC24 and the H4 series (S080) in 3 DC24, both featuring Premium White. Please check the online Easy Design Tool for your perfect system combination (www.easydesigntool.com).

- Key features and benefits
- Best quality of light available for all applications
- Extended portfolio covering standard color and Premium White color
- Standard series with great color consistency (2 DC24)
- High efficiency (S080 series offers 10-12% higher efficacy than standard S080) with excellent color consistency (2 DC24)
- System proposition (Module + Driver + Heat sink)
- Available to optimize luminaire performance (high efficacy or high lumen output)
- 50,000 hours lifetime
