HIFIT HFT-UP-04

HIFIT King Upholstered Bed Frame (Model HFT-UP-04) Instruction Manual

Modern Velvet King Size Platform Storage Bed with Solid Wooden Slat

1. Safety Information

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- Exercise caution around sharp edges on steel drawers during assembly and use.
- Do not load the bed frame with more than 1000 lbs (453 kg) of weight. This includes the mattress, occupants, and any items stored in the drawers.
- Ensure all components are correctly assembled and tightened according to the instructions to prevent instability.
- Keep small parts and packaging materials away from children to prevent choking hazards.

2. Product Overview

The HIFIT King Upholstered Bed Frame (Model HFT-UP-04) is designed to provide a comfortable and functional sleeping solution. It features a robust metal and wood construction, an elegant button-tufted headboard, and integrated storage.

4. Setup and Assembly Instructions

Assembly of the HIFIT King Upholstered Bed Frame is designed to be straightforward and can typically be completed within one hour. No additional tools are required beyond what is provided.

General Assembly Steps:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches. Verify all components against the provided list.
2. **Assemble Headboard:** Attach the headboard legs to the main headboard panel using the provided hardware.
3. **Connect Side Rails and Footboard:** Securely attach the side rails to the headboard and footboard using the designated bolts and nuts. Ensure all connections are tight.
4. **Install Center Support Beam:** Position and secure the metal center support beam within the frame.
5. **Place Wooden Slats:** Insert the wooden slats into the designated slots on the side rails and center beam. The plastic snap locks on the slats ensure easy and secure installation without screws.
6. **Assemble Drawers:** Construct the four storage drawers. Attach the wheels to the bottom of each drawer.
7. **Insert Drawers:** Slide the assembled drawers under the bed frame.

Note: The bed frame is designed for use without a box spring. Your mattress will rest directly on the wooden slats.

5. Operating Instructions

Storage Drawers:

The bed frame includes four steel storage drawers designed for easy access and organization. Each drawer is equipped with smooth wheels for effortless gliding on various floor surfaces.

- To open a drawer, gently pull the front panel.
- To close, push the drawer back into place until it aligns with the bed frame.
- The drawers feature internal fixtures that help prevent them from sliding out unintentionally.

6. Maintenance

To maintain the appearance and longevity of your HIFIT King Upholstered Bed Frame, follow these simple care instructions:

- **Cleaning:** Wipe the upholstered surfaces and metal frame with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish or fabric.
- **Regular Inspection:** Periodically check all bolts and connections to ensure they remain tight. Retighten if necessary.
- **Drawer Care:** Keep the drawer wheels free of debris to ensure smooth operation.

7. Troubleshooting

If you encounter any issues with your bed frame, please refer to the following common solutions:

Noise/Squeaking:

- Ensure all bolts and screws are securely tightened. Loose connections are a common cause of noise.
- Verify that the wooden slats are properly seated in their plastic snap locks and that the noise-free strips are intact.
- Check for any foreign objects lodged between the frame components or slats.

Drawers Not Sliding Smoothly:

- Inspect the drawer wheels for any obstructions or debris. Clean if necessary.
- Ensure the drawers are correctly aligned under the bed frame.

Instability/Wobbling:

- Re-check all assembly connections, especially those connecting the headboard, side rails, and footboard.
- Ensure the bed frame is placed on a level surface.

If the issue persists after attempting these solutions, please contact HIFIT customer support for further assistance.
