JIMIMORO 12 Pack Hex Lights

JIMIMORO 12-Pack Hexagon Smart RGB LED Wall Lights Instruction Manual

INTRODUCTION

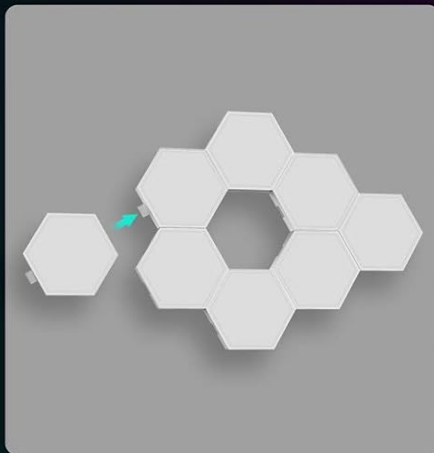

The JIMIMORO 12-Pack Hexagon Smart RGB LED Wall Lights offer dynamic lighting with 16 million colors and over 200 modes. These modular panels are made from durable ABS and PC materials, allowing for creative arrangements. Control is available via a dedicated app, remote, or wire, including music synchronization and timer functions. The package includes 12 panels, adhesive tape, a remote, and a manual, backed by a 6-month warranty.

SETUP INSTRUCTIONS

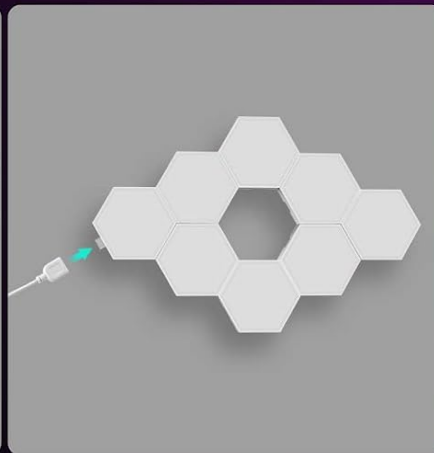

Follow these steps to set up your hexagonal light panels:

1. **Unpack Components:** Carefully remove all hexagonal light panels, connectors, adhesive pads, power cable, and remote control from the packaging.
2. **Plan Your Design:** Arrange the hexagonal panels on a flat surface to visualize your desired pattern. The modular design allows for various creative shapes.
3. **Connect Panels:** Use the provided connectors to link the hexagonal panels together. Ensure each connection is secure.
4. **Connect Power Cable:** Attach the power cable to one of the hexagonal panels. This panel will serve as the main power input for your entire light arrangement.
5. **Mount Panels:** Apply the adhesive pads to the back of each panel. Clean the wall surface thoroughly to ensure it is dry and free of dust or grease. Carefully press each panel firmly onto the wall in your planned design.
6. **Power On:** Plug the USB end of the power cable into a suitable USB power source, such as a laptop, power bank, PC, or a USB wall charger. The lights should illuminate.

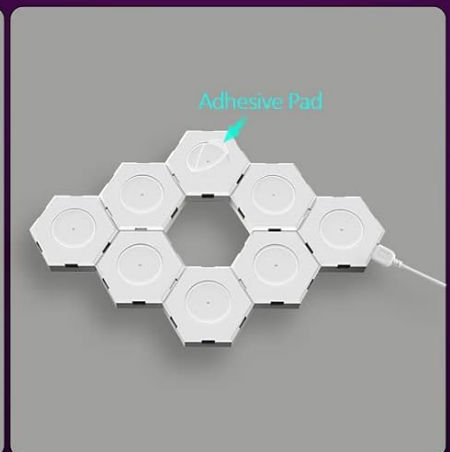

How to Use?

1. Splicing into the shape you like

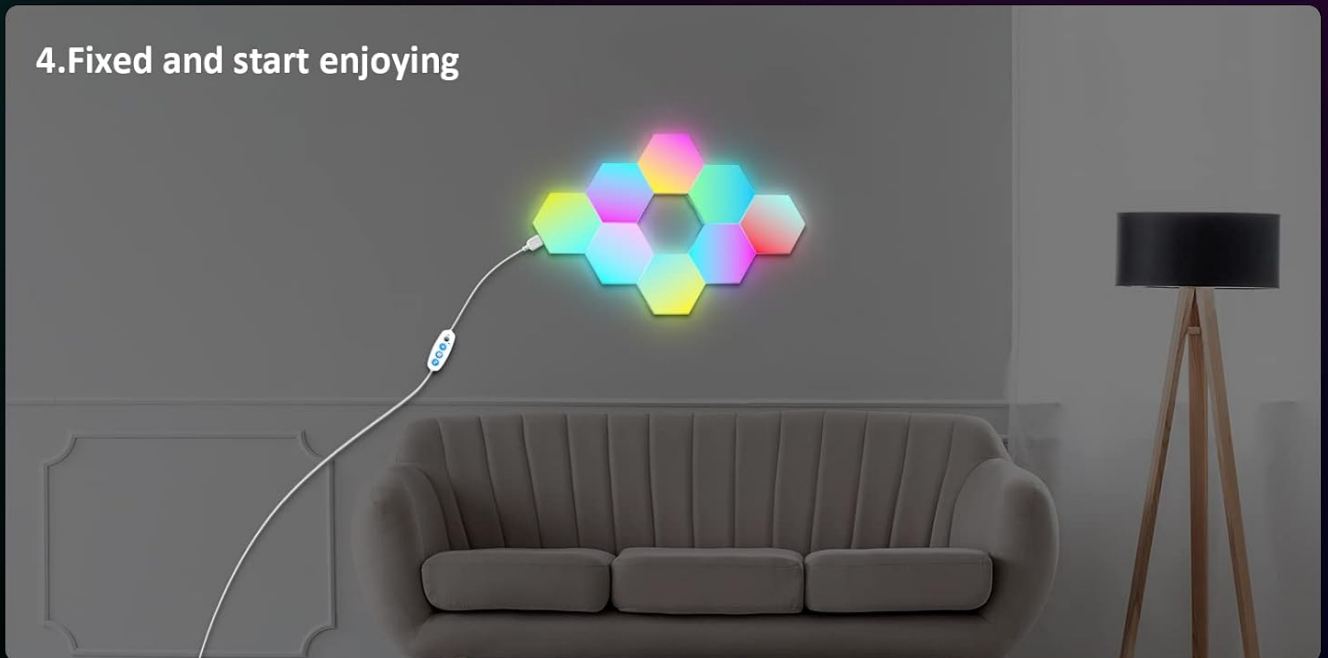

2. Connect the power cable

3. Attach adhesive pads to the back

4. Fixed and start enjoying

This image illustrates the four-step setup process: 1. Splicing panels into desired shapes. 2. Connecting the power cable. 3. Attaching adhesive pads to the back of the panels. 4. Fixing the panels to the wall and starting use.

12 Packs Hexagon Light Panel Free Splicing

Stimulate unlimited imagination without borders splicing

TIPS: Use 2 USB Powers If Connect 16 Hexagon LED Panels

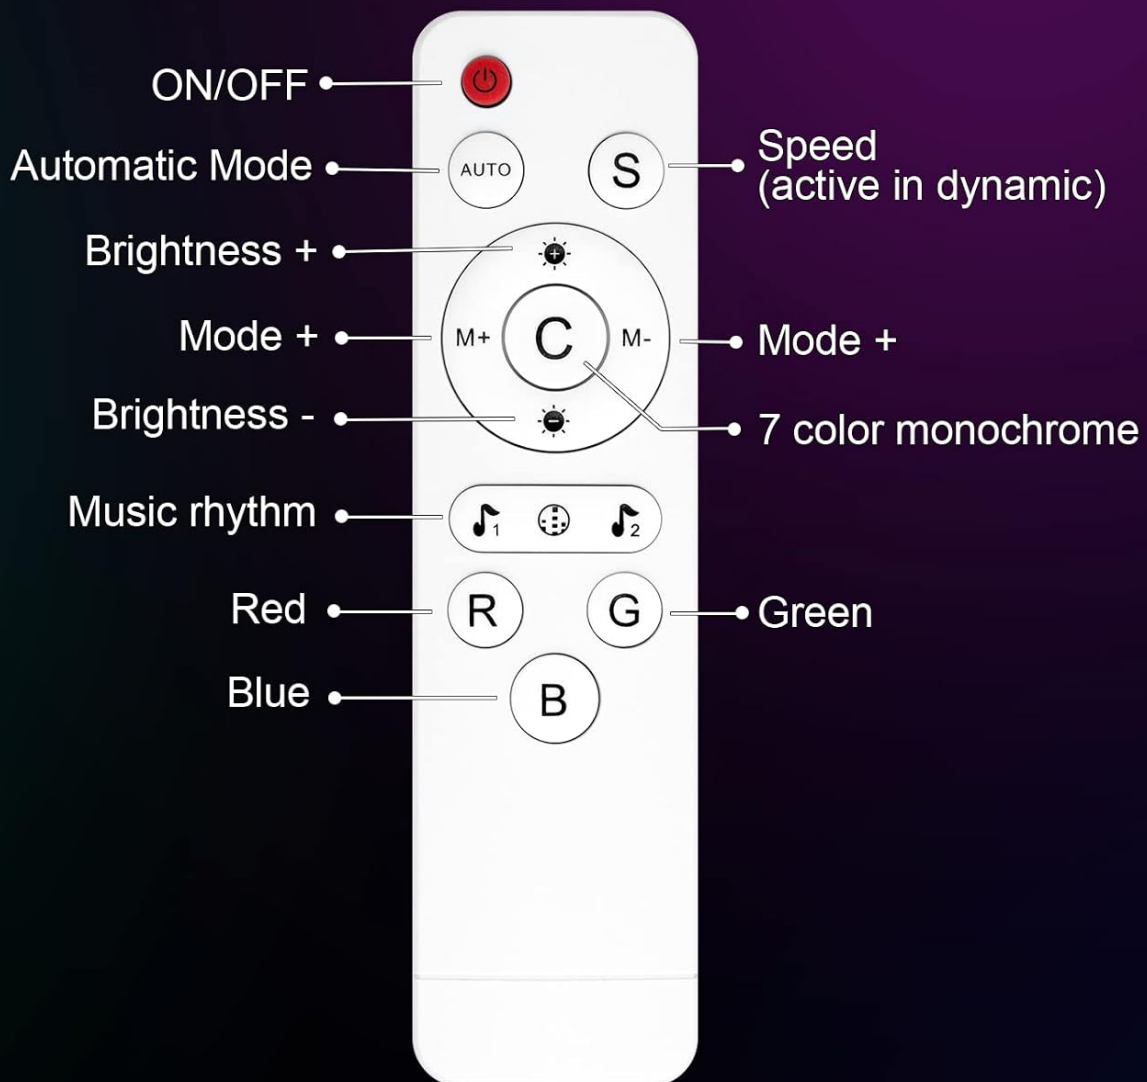

This image shows an example arrangement of 12 hexagonal light panels on a wall above a desk, demonstrating free splicing for custom designs. A note advises using two USB power sources if connecting 16 Hexagon LED Panels.

OPERATING INSTRUCTIONS

Your JIMIMORO Hexagon Smart RGB LED Wall Lights can be controlled via the included remote or a dedicated mobile application.

Remote Control Functions:

Remote Control Definition

This image displays the remote control with labeled buttons for various functions: ON/OFF, Automatic Mode, Speed (active in dynamic modes), Brightness adjustment (+/-), Mode selection (M+/M-), 7 color monochrome selection, Music rhythm, and direct Red, Green, Blue color buttons.

- **ON/OFF:** Press the power button to turn the lights on or off.
- **Brightness Adjustment:** Use the 'Brightness +' and 'Brightness -' buttons to increase or decrease the light intensity.
- **Mode Selection:** Use the 'M+' and 'M-' buttons to cycle through various lighting modes. The 'AUTO' button activates an automatic mode sequence.
- **Color Selection:** Select preset single colors using the '7 color monochrome' button or direct 'R' (Red), 'G' (Green), 'B' (Blue) buttons.
- **Music Rhythm:** Activate the music rhythm function to make the lights react to sound.
- **Speed:** Adjust the speed of dynamic modes using the 'S' button.

Mobile App Control (MeRGBW APP):

This image showcases the 'MeRGBW APP' interface, available on the App Store and Google Play, demonstrating various control options including color selection, scenes, music sync, and DIY customization for the hexagonal lights.

- **Download App:** Scan the QR code in your manual or search for "MeRGBW APP" on the App Store (iOS) or Google Play Store (Android).
- **Connect:** Open the app and follow the instructions to connect to your hexagonal lights via Bluetooth.
- **Color Customization:** Access a full 16 million color palette for precise color selection.
- **Dynamic Modes:** Choose from over 200 preset dynamic effects and scenes.
- **Music Sync:** Enable music synchronization to make the lights react to audio played through your device's microphone.
- **DIY Mode:** Create custom lighting patterns and effects, controlling individual segments of the hexagonal panels.
- **Timer Function:** Set schedules for automatic power on/off.

DIY Modules

MAINTENANCE

To maintain the performance and appearance of your JIMIMORO Hexagon Smart RGB LED Wall Lights, regularly wipe the panels with a soft, dry cloth to remove dust. Avoid using abrasive cleaners or solvents, as these can damage the plastic surface. Ensure all connections are secure and free from debris. If any panel or connector appears damaged, discontinue use and contact customer support.

TROUBLESHOOTING

If you encounter any issues with your hexagonal lights, please refer to the following troubleshooting steps:

- **Lights Not Turning On:**
 - Check if the power cable is securely connected to both the panels and the USB power source.
 - Ensure the USB power source is active and providing power.
 - Verify the remote control has working batteries and is pointed directly at the receiver.
 - Try controlling the lights with the app to rule out remote issues.
- **Some Panels Not Lighting Up:**
 - Check the connections between adjacent panels. Ensure they are firmly clicked into place.
 - Inspect the connectors for any damage or bent pins.
 - If a specific panel consistently fails, it may be faulty.
- **Lights Flickering or Behaving Erratically:**
 - Ensure the power supply is stable and sufficient for the number of connected panels.
 - Check for loose connections.
 - If using music sync, ensure the microphone is not obstructed and the environment is not excessively noisy.
- **Remote Control Not Responding:**
 - Replace the batteries in the remote.
 - Ensure there are no obstructions between the remote and the light panels.
 - Try using the app for control.
- **App Connectivity Issues:**
 - Ensure Bluetooth is enabled on your device.
 - Restart the app and try reconnecting.
 - Ensure the lights are powered on and within Bluetooth range.

SPECIFICATIONS

Feature	Detail
Brand	JIMIMORO
Model Number	12 Pack Hex Lights
Product Dimensions	7.67"D x 5.5"W x 5.5"H
Item Weight	1 Pounds
Material	Plastic
Light Source Type	LED

Number of Light Sources	12
Shade Color	Multicolor
Power Source	Corded Electric
Control Method	App, Remote, Touch
Special Feature	Rechargeable
Indoor/Outdoor Usage	Indoor
Water Resistance Level	Not Water Resistant
Included Components	Remote Control
