## Ingenuity InLighten 5-Speed Baby Swing

MODEL 13096 USER MANUAL

The Ingenuity InLighten 5-Speed Baby Swing, featuring the Van The Elephant design, ready for use.

### Important Safety Instructions

Read all instructions before assembly and use of the Ingenuity InLighten 5-Speed Baby Swing. Failure to follow these instructions could result in serious injury or death.

- **WARNING:** Never leave child unattended in the swing.
- **WARNING:** This product is intended for infants from birth up to 9 months of age, or up to 9 kg (20 lbs), whichever comes first. Discontinue use when the child can sit up unassisted.
- Always use the 5-point safety harness. Ensure it is securely fastened and properly adjusted to fit the child.
- Do not use the product if any components are broken, torn, or missing.
- Keep children away from the product during assembly.
- Ensure the product is placed on a flat, level, and stable surface.
- Only use the USB cord provided. A wall adapter is NOT included and must be purchased separately.

## Product Overview

The Ingenuity InLighten 5-Speed Baby Swing is designed to provide comfort and entertainment for your infant. Key features include:

- Seat rotates 180 degrees and swings in 3 different directions.
- 5 adjustable swing speeds.
- 2 recline positions for infant comfort.
- GentleTouch control pad with 20 soothing melodies, white noise, and nature sounds.
- Electronic mobile with 2 plush toys (elephant and pastel rainbow) and a dazzling light show.
- Removable elephant-shaped insert for added comfort, also usable as a tummy time mat.
- Integrated handle and wheels for easy portability.
- Machine-washable fabrics for easy cleaning.
- Powered by an included USB cord.

This diagram highlights the swing's features: 5 swing speeds, 20 melodies and sounds, 2-position recline, 5-point harness, and soothing vibrations.

**Fold frame and use the handle and wheels to easily move around the house**

The swing's frame can be folded, and it features an integrated handle and wheels for easy movement around the home.

The removable elephant-shaped insert can also be used as a tummy time mat to support infant development.

## Setup and Assembly

Follow these steps to assemble your Ingenuity InLighten Baby Swing:

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify all components are present according to the parts list (refer to your product packaging for a complete list).
2. **Assemble Frame:** Connect the frame components as instructed in the included quick-start guide. Ensure all connections click into place securely.
3. **Attach Seat:** Secure the seat assembly to the frame. Confirm it is firmly attached and stable.
4. **Install Mobile:** Attach the electronic mobile to the designated slot on the swing frame.
5. **Connect Power:** Plug the provided USB cord into the swing and connect it to a suitable USB wall adapter (not included) or power source.

A user demonstrates the assembly process, showing how the frame components connect to form the swing's base.

## Operating Instructions

Familiarize yourself with the control panel to utilize all features of your baby swing.

The control panel features buttons for power, swing speed, timer, music/sounds, volume, and light show activation.

- **Power On/Off:** Press the power button on the control panel to turn the swing on or off.
- **Swing Speed:** Select from 5 different swing speeds using the dedicated speed control buttons.
- **Timer Settings:** Choose a swing duration of 30, 45, or 60 minutes using the timer button.
- **Music and Sounds:** Cycle through 20 melodies, white noise, or nature sounds. Adjust the volume as desired.
- **Light Show:** Activate the overhead light show feature for visual stimulation.
- **Seat Rotation:** The seat can be rotated 180 degrees to allow swinging in 3 different directions (front-to-back, side-to-side, or diagonal). Adjust manually.
- **Recline Positions:** Adjust the seat to one of the 2 available recline positions for optimal infant comfort.

## Seat Rotates 180 degrees and swings in 3 directions

This image illustrates how the swing seat rotates 180 degrees, enabling three distinct swinging directions for the infant.

## Only swing to offer overhead engaging light show

The overhead mobile projects an engaging light show, providing visual stimulation for the baby.

### Maintenance and Care

Proper maintenance ensures the longevity and hygiene of your baby swing.

- **Seat Pad:** Remove the seat pad from the frame. Fasten all buckles on the seat restraint and seat pad. Fasten all hook-and-loop patches to their corresponding patches. Machine wash with cold water on a gentle cycle. Do not use bleach. Tumble dry using low heat.
- **Frame:** Wipe the metal and plastic parts of the swing frame with a soft, damp cloth and mild soap. Do not immerse the frame in water.
- **Toys:** Wipe plush toys with a damp cloth and mild soap. Air dry.

## Machine-washable fabrics

The swing features machine-washable fabrics for convenient and easy cleaning.

### Troubleshooting

If you encounter issues with your Ingenuity InLighten Baby Swing, refer to the following common solutions:

- **Swing Not Operating:** Ensure the USB cord is securely connected to both the swing and a functioning power source. Check if the power button is pressed.
- **Swing Motion is Weak or Stops:** Verify the child's weight does not exceed the maximum limit of 9 kg (20 lbs). Check for any obstructions preventing smooth movement.
- **Sounds or Lights Not Working:** Confirm the swing is powered on. Adjust volume settings for sounds.
- **Unusual Noises:** Ensure all frame connections are secure. If noises persist, discontinue use and contact customer support.

If problems persist after attempting these solutions, please contact customer support.

## Specifications

Feature	Detail
