Evenflo Gold Revolve360 Slim 2-in-1 Rotational Car Seat with SensorSafe Instruction Manual

Model: 36812450

PRODUCT OVERVIEW

The Evenflo Gold Revolve360 Slim 2-in-1 Rotational Car Seat with SensorSafe is designed to provide safety and convenience for your child from infancy through toddlerhood. This innovative car seat features a slim exterior to maximize space in your vehicle while offering a full 360-degree rotation for easy access to your child. It supports both rear-facing and forward-facing modes, adapting to your child's growth.

KEY FEATURES

- **Space-Saving Design:** Features a streamlined 16.7-inch footprint, allowing more room for other passengers in your backseat without compromising safety or comfort.
- **360-Degree Rotation:** Effortlessly rotate the car seat with one hand to easily get your child in and out of the vehicle.
- **Extended Use:** Supports rear-facing use for children weighing 4 lb to 50 lb (17 in. to 48 in.) and forward-facing use for children weighing 22 lb to 65 lb (28 in. to 49 in.).
- **SensorSafe Technology:** Provides real-time alerts to four potentially unsafe conditions: unexpected chest clip unbuckling, temperature extremes, child unattended in the car, and child seated too long.
- **Secure Installation:** The Sure360 Safety Installation System with LockStrong and Tether360 ensures a safe, secure, and simple one-time installation for both rear-facing and forward-facing modes.

SETUP AND INSTALLATION

Proper installation is crucial for your child's safety. The Evenflo Gold Revolve360 Slim is designed for a secure and straightforward installation using the Sure360 Safety Installation System.

Installation Steps:

1. **Prepare the Vehicle:** Ensure the vehicle seat is clean and free of debris.
2. **Position the Base:** Place the car seat base firmly on the vehicle seat.
3. **Secure with LATCH or Seat Belt:**
 - *LATCH System:* Attach the lower anchor connectors to your vehicle's lower anchors. Ensure a tight fit by pressing down on the car seat while tightening the LATCH strap.

- **Vehicle Seat Belt:** Route the vehicle's lap and shoulder belt through the designated belt path. Buckle the belt and remove all slack by pressing down on the car seat and pulling the shoulder belt tight.
4. **Engage LockStrong:** Activate the LockStrong arm to further secure the installation, ensuring the car seat is immovable at the belt path.
 5. **Attach Tether360 (Forward-Facing):** For forward-facing installation, attach the top tether strap to your vehicle's top tether anchor point and tighten.
 6. **Check for Tightness:** The car seat should not move more than 1 inch side-to-side or front-to-back at the belt path.

CONNECT *to* YOUR CHILD
with **SENSORSAFE™**

OPERATING INSTRUCTIONS

Understanding the various functions of your Evenflo Gold Revolve360 Slim car seat ensures optimal safety and convenience for your child.

360-Degree Rotation:

To rotate the car seat, locate the rotation handle (usually at the front or side of the base). Press the handle and gently rotate the seat to the desired position (rear-facing or forward-facing). Ensure the seat clicks securely into place before placing your child in it.

ONE-HAND, 360° *rotation*

Harnessing Your Child:

1. Place your child in the car seat with their back flat against the seat back.
2. Pull the harness straps over your child's shoulders and between their legs.
3. Connect the buckle tongues into the buckle.
4. Slide the chest clip up to armpit level.
5. Tighten the harness straps until snug. You should not be able to pinch any excess webbing at the child's shoulder.

SensorSafe Technology:

The SensorSafe chest clip connects to your vehicle's OBD-II port (via a dongle, sold separately or included with some models) and communicates with a mobile app on your smartphone. It provides alerts for:

- Unexpected chest clip unbuckling
- Temperature too hot or too cold in the car
- Child unattended in the car
- Child seated too long

Ensure the SensorSafe app is installed on your smartphone and properly paired with the system for full functionality.

solid **ONE-TIME** *install*

Rear-Facing and Forward-Facing Modes:

The car seat transitions between rear-facing and forward-facing modes to accommodate your child's growth and developmental stage.

- **Rear-Facing Mode:** For children weighing from 4 lb to 50 lb and measuring 17 in. to 48 in. tall. This mode is recommended for as long as possible for maximum safety.
- **Forward-Facing Mode:** For children weighing from 22 lb to 65 lb and measuring 28 in. to 49 in. tall.

EXTENDED REAR-FACING *to 50 lb*

MAINTENANCE AND CARE

Regular cleaning and maintenance will help prolong the life of your car seat and ensure continued safety.

Cleaning Instructions:

- **Seat Pad:** Machine wash the seat pad separately in cold water on a delicate cycle. Tumble dry for 10 to 15 minutes on low heat.
- **Harness:** The harness can be wiped clean with mild soap and water. Allow the harness to air dry completely.
- **Plastic and Metal Parts:** Plastic and metal parts may be wiped clean with mild soap and water and dried with a soft cloth.
- **General Care:** DO NOT lubricate or immerse in water any part of this child restraint, unless rinsing is specifically permitted.

Product Dimensions	21 x 16.75 x 24.3 inches
Item Model Number	36812450
Minimum Weight Recommendation	4 Pounds
Maximum Weight Recommendation	65 Pounds
Minimum Height Recommendation	17 Inches
Maximum Height Recommendation	49 Inches
Material Type	Polyester
Number of Reclining Positions	15
Harness Type	5-Point
Item Weight	28.2 pounds
Color	Obsidian Black
Installation Type	Latch or Seat Belt

TROUBLESHOOTING

This section provides general guidance for common issues. For specific problems not listed here, please refer to the official Evenflo user manual or contact customer support.

- Car Seat Feels Loose After Installation:**
Ensure the LATCH connectors or vehicle seat belt are tightened fully. Press down firmly on the car seat while tightening. Verify that the LockStrong arm is engaged. The car seat should not move more than 1 inch at the belt path.
- Harness Straps Are Difficult to Tighten/Loosen:**
Check for any twists in the harness straps behind the car seat. Ensure the harness adjuster strap is pulled straight out, not at an angle. Do not lubricate the harness system.
- SensorSafe Not Connecting or Alerting:**
Verify the SensorSafe dongle is securely plugged into your vehicle's OBD-II port. Ensure Bluetooth is enabled on your smartphone and the SensorSafe app is open and paired. Check the app for any error messages or connection status.
- Seat Rotation is Stiff:**
Ensure the car seat is not obstructed by vehicle upholstery or other items. Confirm the rotation handle is fully engaged when attempting to rotate. Do not force the rotation.

WARRANTY AND SUPPORT
