1. INTRODUCTION

This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your Miele Boost CX1 Parquet Bagless Canister Vacuum Cleaner. Please read this manual thoroughly before using the appliance for the first time to ensure proper usage and to maximize its lifespan.

The Miele Boost CX1 Parquet is a powerful, compact, and agile bagless canister vacuum cleaner designed for maximum extraction power. It features Vortex Technology for efficient cleaning, a HEPA AirClean filter for superior air hygiene, and a flexible Parquet Twister floorhead specifically designed for delicate hard floors. Its compact design and TrackDrive system ensure easy maneuverability in various living spaces.

2. IMPORTANT SAFETY INFORMATION

Always observe the following safety precautions when using your vacuum cleaner:

- Read all instructions before use.
- Do not use the appliance outdoors or on wet surfaces.
- Do not allow children to operate the vacuum cleaner. Close supervision is necessary when used near children.
- Do not pick up flammable or combustible liquids, such as gasoline, or use in areas where they may be present.
- Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.
- Do not use without the dust container and filters properly in place.
- Unplug from the outlet when not in use and before cleaning or servicing.

- Inspect the power cord and plug for damage before each use. Do not use if damaged.

6. MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your Miele Boost CX1 Parquet vacuum cleaner.

6.1 Emptying the Dust Container

The Boost CX1 is a bagless vacuum cleaner with an easy-to-empty dust container.

1. Ensure the vacuum cleaner is unplugged from the power outlet.
2. Remove the dust container from the main unit by following the instructions in the user manual (typically involves a release button).
3. Position the dust container over a waste bin. Press the "Empty" button to open the container and release the collected dust and debris.

4. Close the container securely and re-insert it into the vacuum cleaner until it clicks into place.

6.2 Cleaning/Replacing the HEPA AirClean Filter

The HEPA AirClean filter ensures maximum air hygiene and retains over 99.999% of fine dust particles. Check the filter regularly and clean or replace it as indicated by the appliance or as recommended in the full user manual.

- Refer to the detailed instructions in your full Miele user manual for specific filter cleaning and replacement procedures.
- Always use genuine Miele replacement filters to maintain performance and warranty.

6.3 General Cleaning

- Wipe the exterior of the vacuum cleaner with a dry or slightly damp cloth. Do not use abrasive cleaners.
- Periodically check the floorheads and attachments for tangled hair or debris and remove them.

7. TROUBLESHOOTING

If you encounter issues with your Miele Boost CX1 Parquet, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Vacuum does not turn on.	No power supply; power cord not plugged in; circuit breaker tripped.	Check power cord connection; check household fuse/circuit breaker; try a different outlet.

Problem	Possible Cause	Solution
Reduced suction power.	Dust container full; filter clogged; hose/floorhead blocked.	Empty dust container; clean or replace HEPA filter; check hose and floorhead for obstructions.
Unusual noise during operation.	Obstruction in the fan or motor; worn-out parts.	Turn off and unplug the vacuum. Inspect for and remove any obstructions. If noise persists, contact Miele Service.
Dust escaping from the vacuum.	Dust container not properly sealed; filter not correctly installed or damaged.	Ensure dust container is securely closed; check and re-install filters correctly; replace damaged filters.

If the problem persists after attempting these solutions, please contact Miele Customer Service.
