3. PRODUCT FEATURES

3.1. Built-in 32GB Memory

Store approximately 8000 songs directly on your headphones. Supports MP3, WAV, WMA, AAC, and FLAC formats, allowing you to listen to music without needing a connected device. Ideal for swimming where

Bluetooth signals may be interrupted.

3.2. IPX8 Waterproof Rating

Designed for aquatic activities, these headphones are fully waterproof (IPX8 rated), making them suitable for swimming, snorkeling, and other water sports. The enclosed bone conduction technology ensures sound quality even underwater. Remember to switch to MP3 mode when swimming.

IPX8 Waterproof

Switch to MP3 mode and listen to music underwater
It can dive for up to two hours in water up to two metres deep

Image: A person using the headphones while surfing, highlighting the IPX8 waterproof feature.

3.3. Bone Conduction Technology

Unlike traditional headphones, the P8 transmits sound through vibrations in your skull bones directly to your inner ear. This open-ear design eliminates ear pain from prolonged use and allows you to hear ambient sounds, enhancing safety during outdoor activities.

Advanced Bone Conduction Technology

3.4. Bluetooth 5.3 Connectivity

Equipped with the latest Bluetooth 5.3 chip, the headphones offer improved communication speed, extended transmission distance (up to 10 meters), near-zero latency, and low power consumption for a stable and efficient wireless experience.

Image: A visual representation of the Bluetooth 5.3 chip, emphasizing advanced connectivity.

3.5. Open Ear Comfort & Secure Fit

The ergonomic design ensures comfortable wear for extended periods, preventing ear swelling or pain. A wraparound titanium frame keeps the headphones stable during intense training. An included adjustment strap allows for a customized fit for various head sizes.

3.7. Ultra-Long Battery Life & Magnetic Charging

The built-in 180mAh battery provides up to 6 hours of playback time (at 80% volume) on a single charge. The convenient magnetic charging cable allows for easy and secure charging anytime, anywhere, via computer, laptop, power bank, or charging adapter.

4. SETUP GUIDE

4.1. Charging the Headphones

Before first use, fully charge your headphones. Connect the magnetic charging cable to the charging port on the headphones and the USB-A end to a power source (e.g., computer USB port, wall adapter). The charging indicator light will show charging status (refer to LED indicator section for details). A full charge takes approximately 1.5 hours.

Image: Detail of the magnetic charging connection on the headphones.

4.2. Powering On/Off

- **Power On:** Press and hold the Power/Multi-function button for 3 seconds until the LED indicator flashes blue and you hear a power-on prompt.
- **Power Off:** Press and hold the Power/Multi-function button for 5 seconds until the LED indicator flashes red and you hear a power-off prompt.

4.3. Bluetooth Pairing

1. Ensure the headphones are powered off.
2. Press and hold the Power/Multi-function button for 5-7 seconds until the LED indicator flashes red and blue alternately, indicating pairing mode.
3. On your device (smartphone, tablet, computer), enable Bluetooth and search for available devices.
4. Select "KONLEYA P8" from the list of found devices.
5. Once connected, the LED indicator will flash blue slowly, and you will hear a connection confirmation.

The headphones will automatically attempt to reconnect to the last paired device when powered on.

5. OPERATING INSTRUCTIONS

5.1. Button Functions

Weight: bare metal 33g
Headphone size: 135*101*45mm
Bluetooth version: V5.3
Transmission distance: 10M
Frequency response range: 140Hz~15KHz
Playing time: 6 hours(about 80% volume)
Charging time: 1.5 hours
Charging input: DC 5.0V==150mA
Battery capacity: 180mAh
Waterproof grade: IPX8

**Night Running Bone
Conduction Bluetooth Earphone**

Button/Action	Function
Power/Multi-function Button (Main Button)	Press & Hold 3s: Power On Press & Hold 5s: Power Off Single Press: Play/Pause music, Answer/End call Double Press: Redial last number Triple Press: Activate voice assistant
Volume + / Next Song Button	Single Press: Volume Up Press & Hold: Next Song
Volume - / Previous Song Button	Single Press: Volume Down Press & Hold: Previous Song
Night Run Safety Lights Button	Single Press: Turn Night Lights On/Off

5.2. Switching Between Bluetooth and MP3 Mode

The headphones automatically default to Bluetooth mode when powered on. To switch to MP3 mode (for built-in memory playback), quickly double-press the Power/Multi-function button. To switch back to Bluetooth mode, double-press the Power/Multi-function button again.

Note: When swimming underwater, Bluetooth signals are significantly interfered with. Always switch to MP3 mode for uninterrupted audio during swimming.

5.3. Transferring Music to Built-in Memory

1. Ensure the headphones are powered off.
2. Connect the headphones to your computer using the magnetic charging cable. The computer should recognize the headphones as a removable disk.

3. Drag and drop your desired audio files (MP3, WAV, WMA, AAC, FLAC) into the headphone's storage folder.
4. Safely eject the removable disk from your computer before disconnecting the cable.

6. MAINTENANCE

- **Cleaning:** Wipe the headphones with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners. Ensure the charging contacts are clean and dry before charging.
- **Storage:** Store the headphones in a cool, dry place away from direct sunlight and extreme temperatures.
- **Water Resistance:** While IPX8 rated, avoid prolonged submersion beyond recommended depths (up to 2 meters) and durations (up to 2 hours). Always rinse with fresh water after use in chlorinated or saltwater and allow to air dry completely before charging.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge regularly, even if not in use for extended periods.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Headphones do not power on.	Low battery.	Charge the headphones fully.
Cannot pair with device.	Headphones not in pairing mode; device Bluetooth off; too far from device.	Ensure headphones are in pairing mode (flashing red/blue). Turn device Bluetooth off/on. Move headphones closer to device (within 10m).
No sound or distorted sound.	Volume too low; wrong mode (Bluetooth/MP3); water interference (swimming).	Increase volume. Switch to correct mode. If swimming, ensure you are in MP3 mode.
Cannot transfer files to memory.	Headphones not recognized as storage device; incorrect file format.	Ensure headphones are powered off before connecting to PC. Check file formats (MP3, WAV, WMA, AAC, FLAC). Try a different USB port or computer.
Night light not working.	Light feature is off.	Press the Night Run Safety Lights button to activate.
