KBO Ranger

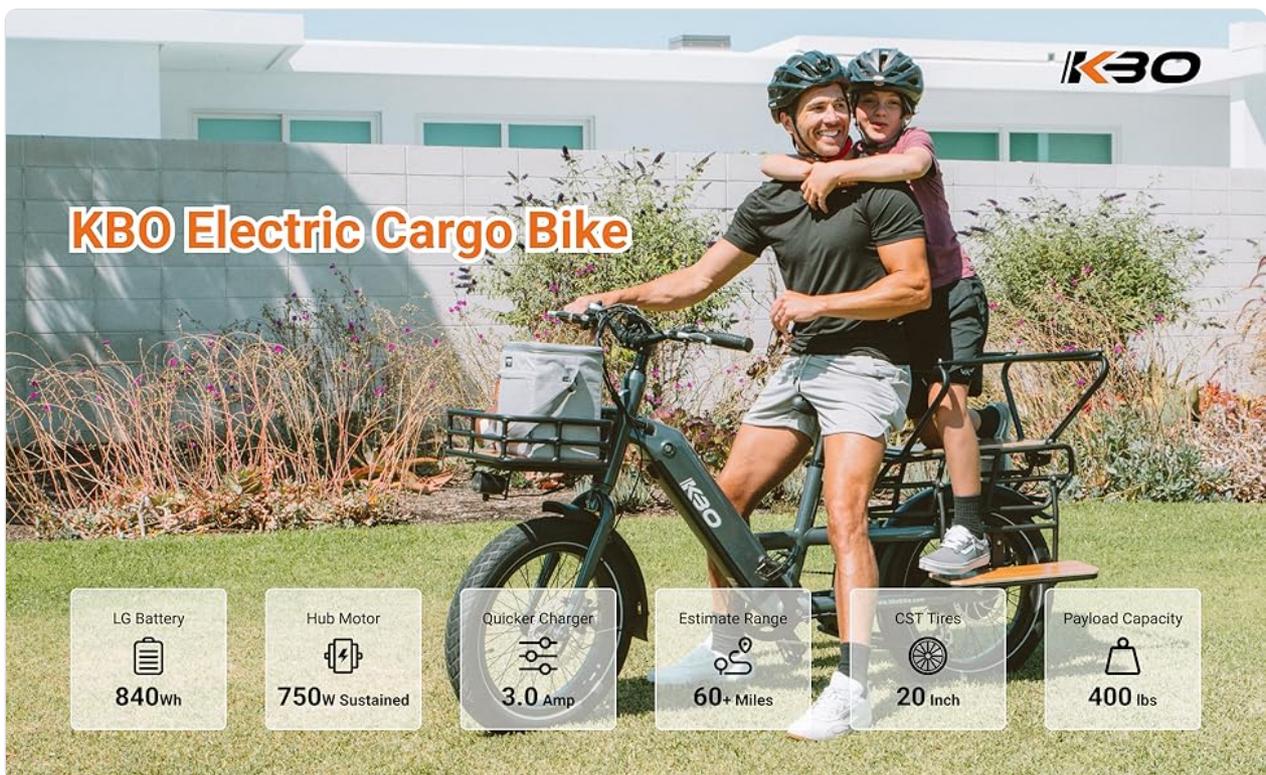

KBO Ranger Electric Cargo Bike

Instruction Manual

INTRODUCTION

Welcome to the KBO Ranger Electric Cargo Bike instruction manual. This guide provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your KBO Ranger electric bike.

Please read this manual thoroughly before your first ride to ensure proper setup and to familiarize yourself with all features.

KBO Electric Cargo Bike

LG Battery 840Wh	Hub Motor 750W Sustained	Quicker Charger 3.0 Amp	Estimate Range 60+ Miles	CST Tires 20 Inch	Payload Capacity 400 lbs
---------------------	-----------------------------	----------------------------	-----------------------------	----------------------	-----------------------------

The KBO Ranger Electric Cargo Bike, designed for versatility and capacity, featuring a powerful 750W motor and a robust 400 lbs payload capacity.

SETUP AND ASSEMBLY

Your KBO Ranger Electric Cargo Bike comes partially assembled. Follow these steps to complete the assembly and prepare for your first ride:

1. **Unpacking:** Carefully remove all components from the packaging. Ensure all included accessories are present: 16-in-1 Repair Toolkit, Full Fenders, Quick Charger, Rear Rack, and Running Boards.
2. **Handlebar Installation:** Attach the handlebar to the stem, ensuring it is centered and tightened securely.
3. **Pedal Attachment:** Identify the left (L) and right (R) pedals. Thread them into the crank arms by hand first, then tighten with a wrench. Note that the left pedal has a reverse thread.
4. **Seat Post Adjustment:** Insert the seat post into the frame and adjust the height for a comfortable riding position. Secure with the quick-release lever.
5. **Fender and Rack Installation:** Install the full fenders and the rear rack using the provided hardware. The running boards attach to the sides of the rear rack.
6. **Battery Installation & Initial Charge:** Insert the 48V 17.5Ah removable battery into its compartment and lock it with the key. Fully charge the battery before your first use using the Quick Charger.
7. **Tire Inflation:** Inflate the 20"x3" fat tires to the recommended pressure indicated on the tire sidewall.

Included accessories for the KBO Ranger, such as the rear rack, running boards, full fenders, and a 16-in-1 repair toolkit, facilitate assembly and enhance utility.

OPERATING YOUR KBO RANGER

The KBO Ranger is designed for ease of use and versatility. Familiarize yourself with its controls and features for an optimal riding experience.

Powering On/Off and Display

To power on the bike, insert the key into the battery lock and turn it to the 'ON' position. Press and hold the power button on the LCD display. The display shows your current speed, battery level, odometer, and pedal assist level. To power off, press and hold the power button again.

Pedal Assist System (PAS) and Throttle

- **Pedal Assist:** The KBO Ranger features multiple levels of pedal assist. Use the '+' and '-' buttons on the control panel to adjust the assist level. Higher levels provide more motor assistance.
- **Throttle:** For immediate power without pedaling, use the half-twist throttle located on the handlebar. This provides instant acceleration up to the maximum speed.

Gearing

The bike is equipped with a 7-speed Shimano shifter, allowing you to adjust your pedaling effort to match terrain and desired speed. Shift gears smoothly by easing off the pedals slightly while shifting.

Payload Capacity

The KBO Ranger has a robust payload capacity of up to 400 lbs, making it suitable for carrying cargo or an additional passenger (with appropriate accessories, sold separately).

Key features of the KBO Ranger, including the adjustable saddle, LCD display, 7-speed Shimano shifter, and robust tires.

The KBO Ranger is suitable for various terrains and uses, from daily commutes to recreational rides.

MAINTENANCE

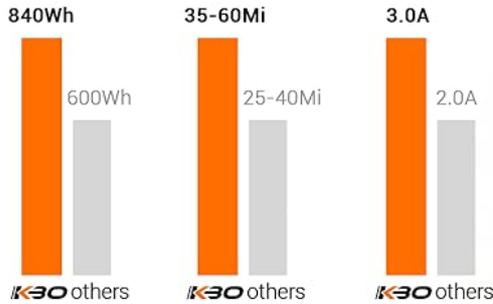

Regular maintenance ensures the longevity and safe operation of your KBO Ranger.

Battery Care

- Charge the 48V 17.5Ah battery regularly, especially after long rides.
- Avoid completely draining the battery.
- Store the bike and battery in a cool, dry place, away from direct sunlight and extreme temperatures. If storing for extended periods, charge the battery to 50-70% every few months.

K30

5-Hour Fully Charge
60Miles Longer Ride

The KBO Ranger's battery offers a long range and quick charging capabilities.

Tires and Brakes

- Regularly check the pressure of your 20"x3" fat tires and inflate to the recommended PSI.
- Inspect the linear pull brakes for wear and tear. Ensure brake levers are responsive and provide adequate stopping power. Adjust or replace brake pads as needed.

General Care

- Keep the bike clean, especially after riding in wet or muddy conditions.
- Lubricate the chain regularly to ensure smooth gear changes and prevent rust.
- Periodically check all bolts and fasteners for tightness.

TROUBLESHOOTING

Here are some common issues and their potential solutions:

- **Bike not powering on:** Ensure the battery is fully charged, properly inserted, and locked. Check that the key is in the 'ON' position.
- **Motor not assisting:** Verify the pedal assist level on the display. Check if the battery has sufficient charge. Ensure all electrical connections are secure.
- **Brakes feel weak:** Inspect brake pads for wear. Adjust brake cable tension if necessary.
- **Unusual noises:** Check for loose components, rubbing parts (e.g., fenders against tires), or issues with the chain or gears.

For more complex issues or if problems persist, please contact KBO customer support.

SPECIFICATIONS

Feature	Specification
