TOPREK TP-VE4U5S-C

TOPREK Power Strip with USB-C and Surge Protector (Model TP-VE4U5S-C) User Manual

Model: TP-VE4U5S-C

INTRODUCTION

Thank you for choosing the TOPREK Power Strip with USB-C and Surge Protector. This device is designed to provide convenient power distribution and charging capabilities for your electronic devices while offering protection against power surges. It features multiple AC outlets and USB ports, including a USB-C port, all within a compact design.

Image: The TOPREK power strip, black in color, featuring a cube design with AC outlets on its sides and USB ports on the bottom edge. A coiled 10-foot power cord with a flat plug is visible.

SAFETY INSTRUCTIONS

Please read and understand all safety instructions before using this product. Failure to follow these instructions may result in electric shock, fire, or damage to the product or connected devices.

- Do not exceed the maximum power rating of 1250W / 10A.
- This product is for indoor use only. Do not use in wet or damp conditions.
- Do not disassemble or modify the power strip.
- Keep away from children and pets.
- Ensure the plug is fully inserted into the wall outlet.
- Do not connect to another relocatable power tap or extension cord.
- The surge protector circuit provides a minimum 700 Joules energy absorbing capacity to protect against lightning, surges, or sparks.

Minmizes Risk Of Fire From Lightning Strikes & sdden Surges

Minimum Absord Energy 700 Joules

8-Point Safety System

This power strip incorporates an 8-point safety system for enhanced protection:

- Over-Voltage Protection
- Over-Load Protection
- Over-Current Protection
- Grounded Protection
- Short-Circuit Protection
- Fire-Resistance Shell
- 700J Surge Protection
- Over-Temperature Control

8-Point Safety System

PRODUCT FEATURES

The TOPREK Power Strip is designed for versatility and safety:

- **9-in-1 Design:** Features 5 AC outlets and 4 USB ports (1 USB-C, 3 USB-A).
- **Smart USB Charging:** USB ports automatically detect devices and deliver optimal current (USB-C up to 5V/3.0A, USB-A up to 5V/2.4A, total 5V/3.1A).
- **Surge Protection:** 700 Joules surge protection for connected electronics.
- **Compact Cube Design:** Measures approximately 3.11"x3.11"x3.27", saving space and allowing for large adapters without blocking other outlets.
- **10 FT Extension Cord:** Provides extended reach for flexible placement.
- **Flat Plug:** A 45° angled flat plug allows for easy placement behind furniture and does not obstruct other wall outlets.
- **On/Off Switch:** Integrated power switch for convenient control.
- **Mounting Slots:** Allows for secure mounting to surfaces.

9-in-1 Power Strip

5 AC Outlets
1250W/10A

3 USB-A Ports
5V/2.4A Max

1 USB-C port
5V/3A Max

5-side Design
Space-saving

Image: A visual representation of the power strip in use, connected to a laptop, tablet, and smartphone. Icons highlight its features: 5 AC outlets, 3 USB-A ports, 1 USB-C port, and a 5-side space-saving design.

SETUP

1. **Unpack:** Carefully remove the power strip from its packaging.
2. **Placement:** Choose a dry, indoor location for the power strip. Its compact design and 10-foot cord allow for flexible placement, including behind furniture or on a desk.
3. **Plug In:** Insert the flat plug into a standard 3-prong wall outlet. The 45° angled design ensures it does not block the second wall outlet.
4. **Power On:** Press the integrated On/Off switch to activate the power strip. A small indicator light will illuminate when power is supplied.
5. **Mounting (Optional):** If desired, use the mounting slots on the back of the unit to secure it to a wall or desk using appropriate screws (not included).

Image: The power strip's 10-foot extension cord and flat plug are shown, demonstrating how the flat plug fits discreetly into a wall outlet behind a sofa, allowing the power strip to be placed conveniently on a side table.

OPERATING INSTRUCTIONS

Using AC Outlets

The power strip provides 5 standard AC outlets. Plug your devices directly into any available AC outlet. The cube design ensures that even bulky power adapters can be used simultaneously without blocking adjacent outlets.

Using USB Charging Ports

The power strip includes 3 USB-A ports and 1 USB-C port for charging compatible devices.

- **USB-C Port:** Connect your USB-C compatible devices for charging at up to 5V/3.0A.
- **USB-A Ports:** Connect your USB-A compatible devices for charging at up to 5V/2.4A per port (total 5V/3.1A for all USB-A ports combined).

The built-in smart IC technology automatically detects your connected devices and delivers the appropriate current for optimal charging speed.

Smart USB Charging Station

Built with Smart IC technology
USB ports charge your devices fast and at proper rates

Image: A smartphone is shown charging via the USB-C port, displaying a charging animation. Arrows indicate power flow from the AC outlet (1250W) to the USB-C (5V/3A Max) and USB-A (5V/2.4A Max) ports.

Power Switch

Use the On/Off switch located on the side of the power strip to control power to all connected AC outlets and USB ports. This allows you to easily cut power to all devices when not in use, conserving energy.

MAINTENANCE

- **Cleaning:** Disconnect the power strip from the wall outlet before cleaning. Use a dry, soft cloth to wipe the exterior. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use for extended periods, store the power strip in a cool, dry place away from direct sunlight and moisture.
- **Cord Care:** Avoid bending or kinking the power cord excessively. Do not place heavy objects on the cord.

TROUBLESHOOTING

- **No Power to Devices:**
 - Ensure the power strip's On/Off switch is in the 'On' position.

- Verify the power strip's plug is securely inserted into the wall outlet.
 - Check if the wall outlet is functional by plugging in another device.
 - If the surge protector has tripped (often indicated by a reset button or light), unplug all devices, press the reset button (if present), and then reconnect devices.
- **Devices Not Charging via USB:**
 - Ensure the USB cable is properly connected to both the power strip and the device.
 - Try a different USB port or cable to rule out a faulty connection.
 - Confirm your device is compatible with the USB charging specifications (5V/3.0A for USB-C, 5V/2.4A for USB-A).
- **Overload Indication:** If the power strip becomes overloaded, the surge protection may activate, cutting power. Unplug some devices to reduce the load, then reset the power strip if necessary.

SPECIFICATIONS

Feature	Specification
Model Number	TP-VE4U5S-C
Product Dimensions	3.11 x 3.11 x 3.27 inches
Item Weight	15.1 ounces
AC Outlets	5
USB-A Ports	3 (5V/2.4A Max per port, 5V/3.1A total)
USB-C Port	1 (5V/3.0A Max)
Voltage	125 Volts
Max Power Rating	1250W / 10A
Surge Protection	700 Joules
Extension Cord Length	10 feet
Special Features	Mountable, On/Off Switch, Surge Protection, USB Slots

WARRANTY INFORMATION

TOPREK products are manufactured to high-quality standards. For specific warranty details, please refer to the warranty card included with your purchase or contact customer support. This warranty typically covers defects in materials and workmanship under normal use.

CUSTOMER SUPPORT

If you have any questions, concerns, or require assistance with your TOPREK Power Strip, please contact our customer support team. Contact information can typically be found on the product packaging or on the official TOPREK website.
