SETUP

What's in the Box

- Echo Show 8 device
- White power adapter (30 W)
- 1.5 m white cable
- Quick start guide

System Requirements

The Echo Show 8 is ready to connect to your Wi-Fi network. The Alexa app is compatible with Fire OS, Android, and iOS devices. Some features may require additional subscriptions or may not be available in all areas.

Initial Setup Steps

1. **Connect Power:** Plug the power adapter into the Echo Show 8 and then into a wall outlet.

2. **Follow On-Screen Instructions:** The device will guide you through the initial setup process, including selecting your language and connecting to your Wi-Fi network.

3. **Download Alexa App:** For full functionality and to manage your device, download the Amazon Alexa app on your smartphone or tablet.

4. **Sign In:** Sign in with your Amazon account credentials.

5. **Amazon Wi-Fi Quick Setup:** If you have other Amazon devices, the quick Wi-Fi setup feature can simplify connecting your Echo Show 8 to your network.

OPERATING YOUR ECHO SHOW 8

Voice Control with Alexa

Your Echo Show 8 is primarily controlled by your voice. Simply say "Alexa" followed by your command or question. Alexa can play music, provide news, set alarms, answer questions, and much more.

Entertainment

Enjoy immersive entertainment with the HD screen and spatial audio. Stream content from Prime Video, Netflix, and other services. Listen to music from Amazon Music, Apple Music, or Spotify.

Use sua voz para controlar músicas, séries e muito mais

"Alexa, abre Prime Video."

Communication

Make video calls to other Echo devices with automatic camera framing and noise reduction technology for more natural conversations. Use the main connections widget for quick access to contacts.

Adaptive Content and Widgets

The adaptive content feature allows you to view calendars or reminders from a distance, or more detailed content when you are closer. Shortcut icons on the home screen provide easy access to your most used widgets.

Privacy Features

The Echo Show 8 is built with multiple layers of privacy control, including a microphone/camera off button and an integrated camera cover. You can also view and delete your voice recordings.

Accessibility Features

To customize Alexa according to your abilities, go to Settings → Accessibility. Features include:

- **Tap to Alexa:** Allows touch access (instead of voice) via blocks or keyboard.
- **Alexa Captions:** Provides captions for compatible content.
- **VoiceView Screen Reader:** Assists users with blindness or visual impairment.
- **Magnifier:** Allows zooming in/out or viewing the entire screen.
- **Kindle Read Aloud:** Alexa can read your Kindle books aloud.
- **Other Features:** Color inversion, color correction, audio prompts, and more.

MAINTENANCE

To ensure the longevity and optimal performance of your Echo Show 8, follow these simple maintenance guidelines:

- **Cleaning the Screen:** Use a slightly damp microfiber cloth to clean the HD touchscreen. If necessary, follow with a dry microfiber cloth. Avoid harsh chemicals or abrasive materials.

- **Cleaning the Device Body:** For the main body and speaker area, use a soft, dry cloth. Keep liquids away from the device, especially the speaker grilles.

- **Environmental Care:** Avoid placing the device in direct sunlight, near heat sources, or in excessively humid environments.

- **Dust Protection:** If the device is in an area prone to dust (e.g., during renovation), cover it completely or move it to a protected location.

- **Power Adapter Care:** Handle the power adapter and cable with care. Do not bend or crimp the cable excessively.

TROUBLESHOOTING

If you encounter issues with your Echo Show 8, try the following common troubleshooting steps:

- **No Power/Device Not Turning On:**

  - Ensure the power adapter is securely plugged into both the device and a working wall outlet.
  - Try plugging the device into a different outlet.

- **Wi-Fi Connectivity Issues:**

  - Check if your Wi-Fi router is on and working correctly.
  - Restart your Echo Show 8 by unplugging it for a few seconds and plugging it back in.
  - Ensure your Wi-Fi password is entered correctly during setup.
  - Move the Echo Show 8 closer to your Wi-Fi router.

- **Alexa Not Responding:**

  - Ensure the microphone is not muted (the light ring will be red). Press the microphone/camera off button if it is.
  - Speak clearly and at a normal volume.
  - Check your internet connection.

- **Screen Freezing/Unresponsive:**

  - Restart the device by unplugging it and plugging it back in.
  - If the issue persists, consider performing a factory reset (refer to the Alexa app or online support for instructions, as this will erase your settings).

- **Poor Audio/Video Quality:**

  - Ensure the device is not obstructed.
  - Check your internet speed for streaming issues.
  - For video calls, ensure good lighting and a stable internet connection.

For more detailed troubleshooting or persistent issues, please refer to the Amazon support website or contact customer service.
