TORRAS iPhone 12/12 Pro

TORRAS Magnetic Case for iPhone 12/12 Pro User Manual

Model: iPhone 12/12 Pro

INTRODUCTION

Thank you for choosing the TORRAS Magnetic Case for your iPhone 12 or iPhone 12 Pro. This case is designed to provide superior protection and enhance your device's functionality with MagSafe compatibility. Please read this manual carefully to ensure proper installation and care of your new case.

Figure 1: TORRAS Magnetic Case for iPhone 12/12 Pro. This image displays the blue case from an angled perspective, highlighting its translucent back and the integrated magnetic ring for MagSafe accessories.

SETUP AND INSTALLATION

Installing your TORRAS Magnetic Case is a straightforward process. Follow these steps to ensure a secure fit and optimal protection for your iPhone.

- Clean Your Device:** Before installing the case, ensure your iPhone 12 or 12 Pro is clean and free of dust or debris. Use a soft, lint-free cloth to wipe down the front and back surfaces.
- Align the Case:** Hold your iPhone with the screen facing up. Take the TORRAS case and align the camera cutout with your phone's camera module.
- Insert Top Edge:** Gently insert the top edge of your iPhone into the top edge of the case, ensuring the corners are

properly seated.

4. **Press Down Sides:** Once the top is in place, gently press down on the sides of your iPhone, working your way down to the bottom. Ensure all edges of the phone are securely snapped into the case.
5. **Check Fit:** Verify that all buttons (power, volume) are accessible and functional, and that the charging port and speakers are unobstructed. The case should fit snugly without any loose areas.

OPERATING AND KEY FEATURES

The TORRAS Magnetic Case is engineered with several features to enhance your iPhone experience and provide robust protection.

MagSafe Compatibility

The case features a built-in second-generation magnetic ring that perfectly aligns with MagSafe chargers and accessories.

This ensures a strong, secure connection for faster and more efficient wireless charging, as well as compatibility with MagSafe wallets, car mounts, and other magnetic accessories.

Once Snap, Never Slide

No shake can beat such magnetic strength

Military-Grade Drop Protection

This case is rigorously tested to meet military drop-test standards. It features 360° all-around airbags and new X-SHOCK technology at all four corners. These elements work together to effectively absorb and disperse impact, providing maximum protection against drops, bumps, and scratches. The 1.2mm raised edge around the screen and 0.8mm raised camera lips offer additional protection for vulnerable areas.

Figure 6: Detailed view of screen and camera protection. This image illustrates the precise engineering of the case with raised bezels (1.2mm for screen, 0.8mm for camera) to prevent direct contact with surfaces.

Responsive Clicky Buttons

The case features independent buttons designed for a sensitive and tactile response, making them easy to press. It also includes three sets of interchangeable buttons in different colors, allowing for personalization.

MAINTENANCE AND CARE

To ensure the longevity and appearance of your TORRAS Magnetic Case, follow these simple maintenance guidelines:

- **Regular Cleaning:** Wipe the case regularly with a soft, damp cloth to remove dust, fingerprints, and smudges. For tougher stains, a mild soap solution can be used.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or strong chemicals, as these can damage the case material or finish.
- **Prevent Discoloration:** While the case is designed to resist yellowing, prolonged exposure to direct sunlight or extreme temperatures may affect its appearance over time.
- **Inspect Periodically:** Occasionally remove the case and inspect both the case and your iPhone for any trapped debris that could cause scratches. Clean as necessary.

TROUBLESHOOTING

If you encounter any issues with your TORRAS Magnetic Case, please refer to the following common solutions:

Problem	Possible Cause / Solution
MagSafe accessory not attaching firmly.	Ensure the MagSafe accessory is genuinely compatible. Check for any debris between the case and the accessory. Realign the accessory carefully.
Case feels loose or doesn't fit properly.	Verify that you have the correct case model for your iPhone 12 or 12 Pro. Ensure the phone is fully seated in all corners of the case.

Problem	Possible Cause / Solution
Buttons are stiff or unresponsive.	Ensure the case is properly aligned with the phone's buttons. If using interchangeable buttons, ensure they are correctly installed.
Case appears discolored or dirty.	Clean the case using a soft, damp cloth and mild soap. Avoid prolonged exposure to direct sunlight or harsh chemicals.

If the issue persists, please contact TORRAS customer support for further assistance.
