3. GETTING STARTED

3.1 Package Contents

Please check the package for the following items:

- Nuvance K22 Smartwatch
- Charging Cable
- User Manual (this document)

3.2 Charging the Smartwatch

Before first use, fully charge your smartwatch. Connect the charging cable to the charging port on the back of the watch and

plug the USB end into a power adapter (not included) or a computer's USB port. A full charge takes approximately 2.5 hours.

3.3 App Installation and Pairing

To unlock the full potential of your Nuvance K22 Smartwatch, you need to download and install the corresponding application on your smartphone. The smartwatch is compatible with Android 4.4 or higher and iOS 8.0 or higher.

1. Scan the QR code in the manual or search for the app name (usually mentioned in the quick start guide or on the watch screen) in your phone's app store (Google Play Store for Android, Apple App Store for iOS).
2. Download and install the application.
3. Enable Bluetooth on your smartphone.
4. Open the app and follow the on-screen instructions to pair your smartwatch. Ensure the smartwatch is powered on and near your phone during the pairing process.
5. Once paired, you can access clear statistics of your activities and customize watch settings through the app.

4. OPERATING YOUR SMARTWATCH

4.1 Navigation and Interface

The Nuvance K22 Smartwatch features a full touch screen for easy navigation. Swipe left, right, up, or down to access different functions and menus. Press the side buttons for specific actions like power on/off or returning to the home screen.

Höchster Tragekomfort

Einstellbar auf die gewünschte Größe

4.4 Health Monitoring

The smartwatch is equipped with an intelligent sensor to accurately measure various health metrics.

- **Heart Rate:** Monitor your heart rate continuously to optimize workouts and track your cardiovascular health.
- **SpO2 (Blood Oxygen):** Measure your blood oxygen saturation levels.
- **Blood Pressure:** Keep track of your blood pressure readings.
- **Sleep Monitoring:** Gain insights into your sleep patterns, including deep sleep, light sleep, and awake times, to improve sleep quality.

4.5 Activity Tracking

The Nuvance K22 helps you stay active and reach your fitness goals.

- **Pedometer & Distance:** Tracks your steps and distance covered throughout the day.
- **Calorie Counter:** Estimates calories burned based on your activity.
- **Multi-Sport Mode:** Select from 8 different activities (hiking, running, yoga, cycling, treadmill, mountain climbing, spinning) to track specific workout data.

4.6 Additional Functions

- **Music Control:** Control music playback directly from your smartwatch.
- **Remote Camera Control:** Shake the smartwatch or tap the screen to remotely trigger your phone's camera.
- **Weather Information:** Get current weather updates and forecasts directly on your watch face.

5. BATTERY AND CHARGING

The Nuvance K22 Smartwatch is equipped with a powerful 400mAh battery, providing excellent endurance.

- **Charging Time:** Approximately 2.5 hours for a full charge.
- **Active Use:** Up to 15 days of battery life for the average user.
- **Standby Mode:** Up to 30 days of battery life when used only in standby mode.

To charge, connect the magnetic charging cable to the back of the watch and a USB power source. Ensure the contacts are clean and dry before charging.

6. CARE AND MAINTENANCE

6.1 Water Resistance (IP67)

The Nuvance K22 Smartwatch has an IP67 waterproof rating, meaning it is protected from dust and can withstand immersion in water up to 1 meter for up to 30 minutes. It is suitable for daily activities like hand washing or light rain.

Important: The IP67 rating does **not** make the watch suitable for swimming, showering, diving, or exposure to hot water/steam, as this can compromise the seals and cause damage.

6.2 Cleaning

To clean your smartwatch, wipe it gently with a soft, damp cloth. Do not use harsh chemicals, abrasive cleaners, or solvents, as these can damage the watch's finish and components. Ensure the watch is dry before charging.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Watch does not turn on	Low battery; Power button not pressed long enough	Charge the watch for at least 30 minutes; Press and hold the power button for 3-5 seconds.
Cannot pair with phone	Bluetooth off; App not open; Watch too far; App permissions missing	Ensure Bluetooth is on; Open the app and follow pairing steps; Keep watch close to phone; Grant necessary app permissions.
Notifications not received	App not running in background; Notification permissions off; Do Not Disturb mode on watch/phone	Ensure app is running; Check app notification settings on phone; Disable Do Not Disturb mode.
Inaccurate health data	Watch not worn correctly; Sensor dirty; Excessive movement	Ensure watch is snug on wrist; Clean the sensor on the back; Remain still during measurements.
