TOTO Aquia IV One-Piece Elongated Dual Flush Toilet User Manual

Model: CST646CEMFGNAT40

1. Product Overview

The TOTO Aquia IV One-Piece Elongated Dual Flush Toilet (Model CST646CEMFGNAT40) is a modern, high-efficiency fixture designed for optimal performance and aesthetics. This one-piece unit features a skirted design that conceals the trapway, contributing to a sleek appearance and simplifying cleaning. It incorporates TOTO's DYNAMAX TORNADO FLUSH system and CEFIONTECT ceramic glaze for enhanced hygiene and reduced maintenance. The toilet is WASHLET+ and Auto Flush ready, offering future upgrade compatibility.

A front-side view of the TOTO Aquia IV one-piece toilet, showcasing its sleek, skirted design and the integrated tank. The toilet is white, with the dual flush button visible on top of the tank. The elongated bowl is visible, ready for a seat.

2. Key Features

- **DYNAMAX TORNADO FLUSH:** Utilizes 360-degree cleaning power to effectively clean the entire bowl surface.
- **Dual Flush System:** Offers a choice between 0.9 GPF (gallons per flush) for lighter waste and 1.28 GPF for heavier waste, promoting water conservation.
- **CEFIONTECT Ceramic Glaze:** An ultra-smooth, ion-barrier surface that minimizes waste from adhering to ceramic surfaces, reducing the need for frequent cleaning and harsh chemicals.
- **Skirted Design:** Conceals the trapway for a clean, elegant appearance and easier cleaning.
- **One-Piece Construction:** Eliminates the gap between the tank and bowl, preventing dirt and debris accumulation and reducing potential leak points.
- **Quiet Flush:** Enhanced inner bowl design reduces water flow resistance and turbulence for a quieter operation.

- **WASHLET+ and Auto Flush Ready:** Designed for seamless integration with compatible TOTO WASHLET+ bidet seats and Auto Flush kits, concealing supply lines and power cords.
- **Universal Height:** Provides a comfortable seating position for a wide range of users.
- **Water Conservation Compliant:** Meets EPA WaterSense, California CEC, and CALGreen requirements.

3. Installation Notes

This toilet is designed for installation with a 12-inch rough-in. Adapters for 10-inch or 14-inch rough-ins are available for separate purchase if required. Professional installation is recommended to ensure proper function and compliance with local plumbing codes.

Items Not Included (Purchased Separately):

- Toilet Seat or WASHLET
- Wax Ring
- Toilet Mounting Bolts
- Water Supply Lines

4. Operation

The TOTO Aquia IV features a chrome center-mounted push button on top of the tank for flush activation. This dual flush mechanism allows users to select the appropriate water volume for waste removal:

- **0.9 GPF Flush:** Press the smaller button or the designated side of the button for a light rinse, suitable for liquid waste.
- **1.28 GPF Flush:** Press the larger button or the designated side of the button for a full flush, recommended for solid waste.

For users upgrading with a compatible WASHLET+ and Auto Flush system, refer to the specific instructions provided with those accessories for their operation.

5. Care and Maintenance

The CEFIONTECT ceramic glaze significantly reduces the adherence of waste, making cleaning easier and less frequent. To maintain the toilet's finish and performance:

- **Regular Cleaning:** Use a soft cloth or sponge with a mild, non-abrasive cleaner. Avoid harsh chemicals, abrasive pads, or strong detergents, as these can damage the CEFIONTECT finish.
- **Bowl Cleaning:** For the interior of the bowl, use a toilet brush with soft bristles and a mild toilet bowl cleaner. Ensure the cleaner is safe for glazed ceramic surfaces.
- **Skirted Design:** The smooth, skirted exterior can be wiped down easily with a damp cloth and mild cleaner.
- **Avoid Abrasives:** Do not use cleaners containing bleach, acids, or abrasive particles, as these can compromise the integrity of the ceramic glaze over time.

6. Troubleshooting

Should you encounter any issues with your TOTO Aquia IV toilet, consider the following general troubleshooting steps:

- **Weak Flush:** Ensure the water supply valve behind the toilet is fully open. Check for any obstructions in the trapway or siphon jet.
- **Continuous Running Water:** Inspect the flush valve and fill valve for proper seating and operation. Ensure the flapper or seal is not obstructed or worn.

- **Leaks:** Check all connections, including the water supply line, tank-to-bowl connection (if applicable for two-piece, though this is a one-piece), and the wax ring at the base.

If problems persist, it is recommended to consult a qualified plumber or contact TOTO customer support for assistance.

7. Product Specifications

Specification	Detail
Model Number	CST646CEMFGNAT40
Color	Cotton White
Product Dimensions (D x W x H)	27.63" x 15.19" x 28.38"
Material	Ceramic
Item Weight	118 Pounds
Installation Type	Floor Mounted
Shape	Elongated
Flush Type	Dual Flush (0.9 GPF / 1.28 GPF)
