Newbealer NB301

Newbealer Travel Iron User Manual

Model: NB301

1. INTRODUCTION

Thank you for choosing the Newbealer Travel Iron. This compact and lightweight dry iron is designed for convenience and efficiency, making it an ideal companion for travel or quick touch-ups at home. Please read this manual thoroughly before use to ensure safe and optimal performance.

2. SAFETY INFORMATION

To reduce the risk of fire, electric shock, or injury, always follow basic safety precautions when using electrical appliances.

- Always ensure the voltage of the power outlet matches the iron's auto-adapting voltage range (100-240V). A plug adapter may be required for global outlets.
- Do not leave the iron unattended while it is plugged in or hot.
- Keep the iron out of reach of children and pets.
- Use the provided heat-resistant silicone stand to rest the hot iron during use and storage to prevent damage to surfaces.
- Do not immerse the iron, cord, or plug in water or other liquids.
- Do not operate the iron with a damaged cord or plug, or if it has been dropped or damaged.
- Unplug the iron from the outlet when not in use and before cleaning.
- This iron is for dry ironing only; it does not have a steam function.

Diamond Ceramic Soleplate

- Non-stick ceramic glides effortlessly over delicate fabrics.
- Faster heating, durable, clothes friendly

Safety

Use the heat-resistant silicone stand during use to rest the hot iron, no damage to desktop.

3. PACKAGE CONTENTS

Please check the package for the following items:

- Newbealer Mini Iron x1
- Silicone Rest x1
- Spray Bottle x1
- Zipper Bag x1
- User Manual x1

Package Included:

- Mini Iron x1
- Silicone Rest x1
- Spray Bottle x1
- Zipper Bag x1
- User Manual x1

Image: All items included in the Newbealer Travel Iron package: the iron, silicone mat, spray bottle, zippered bag, and user manual.

4. SPECIFICATIONS

Feature	Detail
Model Name	NB301
Voltage	AC 100-240V 50/60Hz (Auto-adapting)
Maximum Rated Power	300W
Heating Time	40-60 seconds
Temperature Range	302°F (150°C) Constant
Product Dimensions	6.1"L x 3.1"W x 1.3"H
Net Weight	0.8 lbs
Soleplate Material	Diamond Ceramic
Cable Length	5 Feet (approx. 8 FT in some descriptions)

Specifications:

- Voltage: AC 100-240V 50/60Hz
- Maximum Rated Power: 300W
- Average Power: 30-36W
- Heating Time: 40-60s
- Product Size: 6.1*3.1*1.3 in
- Temperature Range: 302°F (150°C)
- Net Weight: 0.8 lbs

time, and dimensions.

5. SETUP

Before first use, ensure all packaging materials are removed from the iron.

1. **Plug In:** Insert the power plug into a suitable electrical outlet. The iron features intelligent auto-voltage adjustment (100-240V), so it will automatically adapt to the local voltage.
2. **Power On:** Slide the power switch located on the top of the iron to the 'ON' position. The indicator light will illuminate.
3. **Pre-heating:** Allow the iron to pre-heat for 40-60 seconds until the soleplate reaches its constant temperature of 302°F (150°C).

6. OPERATING INSTRUCTIONS

6.1 Dry Ironing

The Newbealer Travel Iron is designed for dry ironing. It maintains a constant temperature of 302°F (150°C), which is suitable for most fabrics without causing damage.

- Place the garment flat on a heat-resistant surface.
- For stubborn wrinkles or thicker fabrics, lightly mist the area with water using the provided spray bottle before ironing.
- Apply gentle pressure and glide the iron over the fabric. The diamond ceramic soleplate ensures smooth movement.

Dry Ironing

- Heats up in just 60 seconds
- The soleplate maintained at a constant temperature of 302°F, never burns clothes.

Wet the clothes with a small spray bottle before ironing, which can better remove wrinkles.

6.2 Ironing Methods

The compact design allows for both horizontal and vertical ironing.

- **Horizontal Ironing:** Ideal for collars, cuffs, and smaller garment sections. Use a flat, stable surface.
- **Vertical Ironing:** Convenient for quick touch-ups on hanging garments. Gently press the iron against the fabric while holding it taut.

Horizontal Ironing

Iron cuffs and collars horizontally for convenient, effective results. Rely on the underlying surface for support, making the process smoother and easier.

6.3 Fabric Compatibility

The iron is suitable for various fabric types, including:

- Cotton
- Wool
- Nylon
- Polyester
- Fabric blends
- Silk
- Linen
- Plush

6.4 Heat Press Function

The constant 302°F (150°C) temperature also makes this iron suitable for light crafting, such as applying heat transfers or decals to small objects like custom t-shirts, tote bags, shoes, or mouse pads. Ensure the material and transfer are compatible with this temperature.

Premium Package

Mini Heat Press Iron

Uniform ironing temperature of 302°F

Use it to decals and heat transfer patterns of small objects, like custom t-shirts, tote bags, shoes, mouse pads, etc.

7. MAINTENANCE

Proper maintenance ensures the longevity and performance of your iron.

- **Cleaning the Soleplate:** The non-stick ceramic soleplate is designed for easy cleaning. After the iron has cooled completely, wipe the soleplate with a soft, damp cloth. Do not use abrasive cleaners or scouring pads, as these can damage the non-stick coating.
- **Storage:** Once the iron is completely cool, fold the handle flat for compact storage. Store it in the provided zippered carry bag to protect it from dust and scratches. Always store the iron on its silicone mat or in its bag to prevent soleplate damage.

8. TROUBLESHOOTING

If you encounter any issues with your Newbealer Travel Iron, please refer to the following common solutions:

- **Iron not heating:** Ensure the iron is securely plugged into a working electrical outlet and the power switch is in the 'ON' position. Check if the outlet itself is functioning.
- **Wrinkles not removing effectively:** Ensure the iron has fully pre-heated. For thicker fabrics or stubborn wrinkles, lightly mist the fabric with water using the spray bottle before ironing. Apply gentle, even pressure.
- **Iron sticking to fabric:** Ensure the soleplate is clean. Avoid ironing over zippers, buttons, or other metallic parts that could scratch the soleplate.

If the problem persists after trying these steps, please contact Newbealer customer support.

9. WARRANTY AND SUPPORT

Newbealer products are manufactured with quality and performance in mind. For warranty information or technical support, please refer to the contact details provided on the product packaging or visit the official Newbealer website. Please retain your proof of purchase for warranty claims.
