3. SETUP INSTRUCTIONS

3.1 Installation

The YUNLEX NLS21 Night Light is designed for simple plug-and-play installation. Ensure the power outlet is easily accessible and not obstructed.

1. Unpack the night light from its packaging.
2. Plug the night light directly into a standard wall outlet. The compact design ensures that the second outlet remains free for other devices.

4. OPERATING INSTRUCTIONS

4.1 Adjustable Brightness

The night light features three adjustable brightness levels: Low, Medium, and High. This allows you to customize the illumination according to your needs and environment.

- **Low:** Ideal for bedrooms, nurseries, or when minimal light is desired.
- **Medium:** Suitable for hallways or areas requiring moderate illumination.
- **High:** Provides sufficient light for corridors, garages, or staircases.

To adjust the brightness, locate the slider switch on the top of the night light and move it to your desired setting.

4.2 Automatic Dusk-to-Dawn Sensor

The integrated light sensor automatically detects ambient light conditions. The night light will turn on at dusk or when the room becomes dark, and turn off at dawn or when sufficient light is present.

4.3 Soft Indirect Lighting

The YUNLEX NLS21 features a double-layer design where the lamp beads are hidden by an anti-glare inner layer. Light is emitted through reflection from the outer edge, providing a soft, non-glaring illumination that is gentle on the eyes, especially at night.

5. MAINTENANCE

To ensure optimal performance and safety of your YUNLEX NLS21 Night Light, follow these maintenance guidelines:

- **Cleaning:** Disconnect the night light from the power outlet before cleaning. Use a soft, dry cloth to wipe the surface. Do not use abrasive cleaners, solvents, or immerse the device in water.
- **Storage:** When not in use for extended periods, store the night light in a cool, dry place away from direct sunlight and moisture.
- **Safety:** Do not attempt to disassemble or repair the night light. Refer all servicing to qualified personnel.

6. TROUBLESHOOTING

If you encounter any issues with your YUNLEX NLS21 Night Light, please refer to the following table for common problems and solutions:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Night light does not turn on.	No power to the outlet. Room is too bright (sensor activated).	Check if the outlet is working. Ensure the room is dark enough for the sensor to activate.
Light is too dim or too bright.	Brightness setting is not optimal.	Adjust the slider switch on top of the night light to your preferred brightness level (Low, Medium, High).
Night light flickers or behaves erratically.	Unstable power supply. Device malfunction.	Try plugging the night light into a different outlet. If the problem persists, discontinue use and contact customer support.

If the issue is not resolved by the above steps, please contact YUNLEX customer support for further assistance.
