LIVTAB LT135

LIVTAB Smart Coffee Table LT135 Instruction Manual

Model: LT135

1. Introduction

Thank you for choosing the LIVTAB Smart Coffee Table LT135. This innovative coffee table integrates a refrigerator, Bluetooth speakers, wireless charging, and multiple power outlets into a sleek design. This manual provides essential information for safe operation, setup, and maintenance to ensure optimal performance and longevity of your product.

2. Safety Information

Please read all safety instructions carefully before using the LIVTAB Smart Coffee Table. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- **Electrical Safety:** Ensure the table is connected to a grounded power outlet. Do not overload the 110V AC outlets. Avoid using the table in wet environments or near water sources. Disconnect power before cleaning or performing any maintenance.
- **Weight Limits:** The maximum weight recommendation for the tabletop is 150 pounds (68 kg). Do not exceed this limit to prevent damage or instability.
- **Stability:** Place the coffee table on a flat, stable surface. Avoid placing heavy objects unevenly on the table.
- **Ventilation:** Ensure adequate ventilation around the refrigerator components. Do not block the air vents located at the back of the table.
- **Children and Pets:** Keep children and pets away from moving parts and electrical components. The refrigerator drawers can be a hazard if not properly supervised.
- **Cleaning:** Use only recommended cleaning agents and methods. Avoid abrasive cleaners or solvents that may damage surfaces.

3. Product Overview

The LIVTAB Smart Coffee Table LT135 is designed to enhance your living space with integrated functionalities.

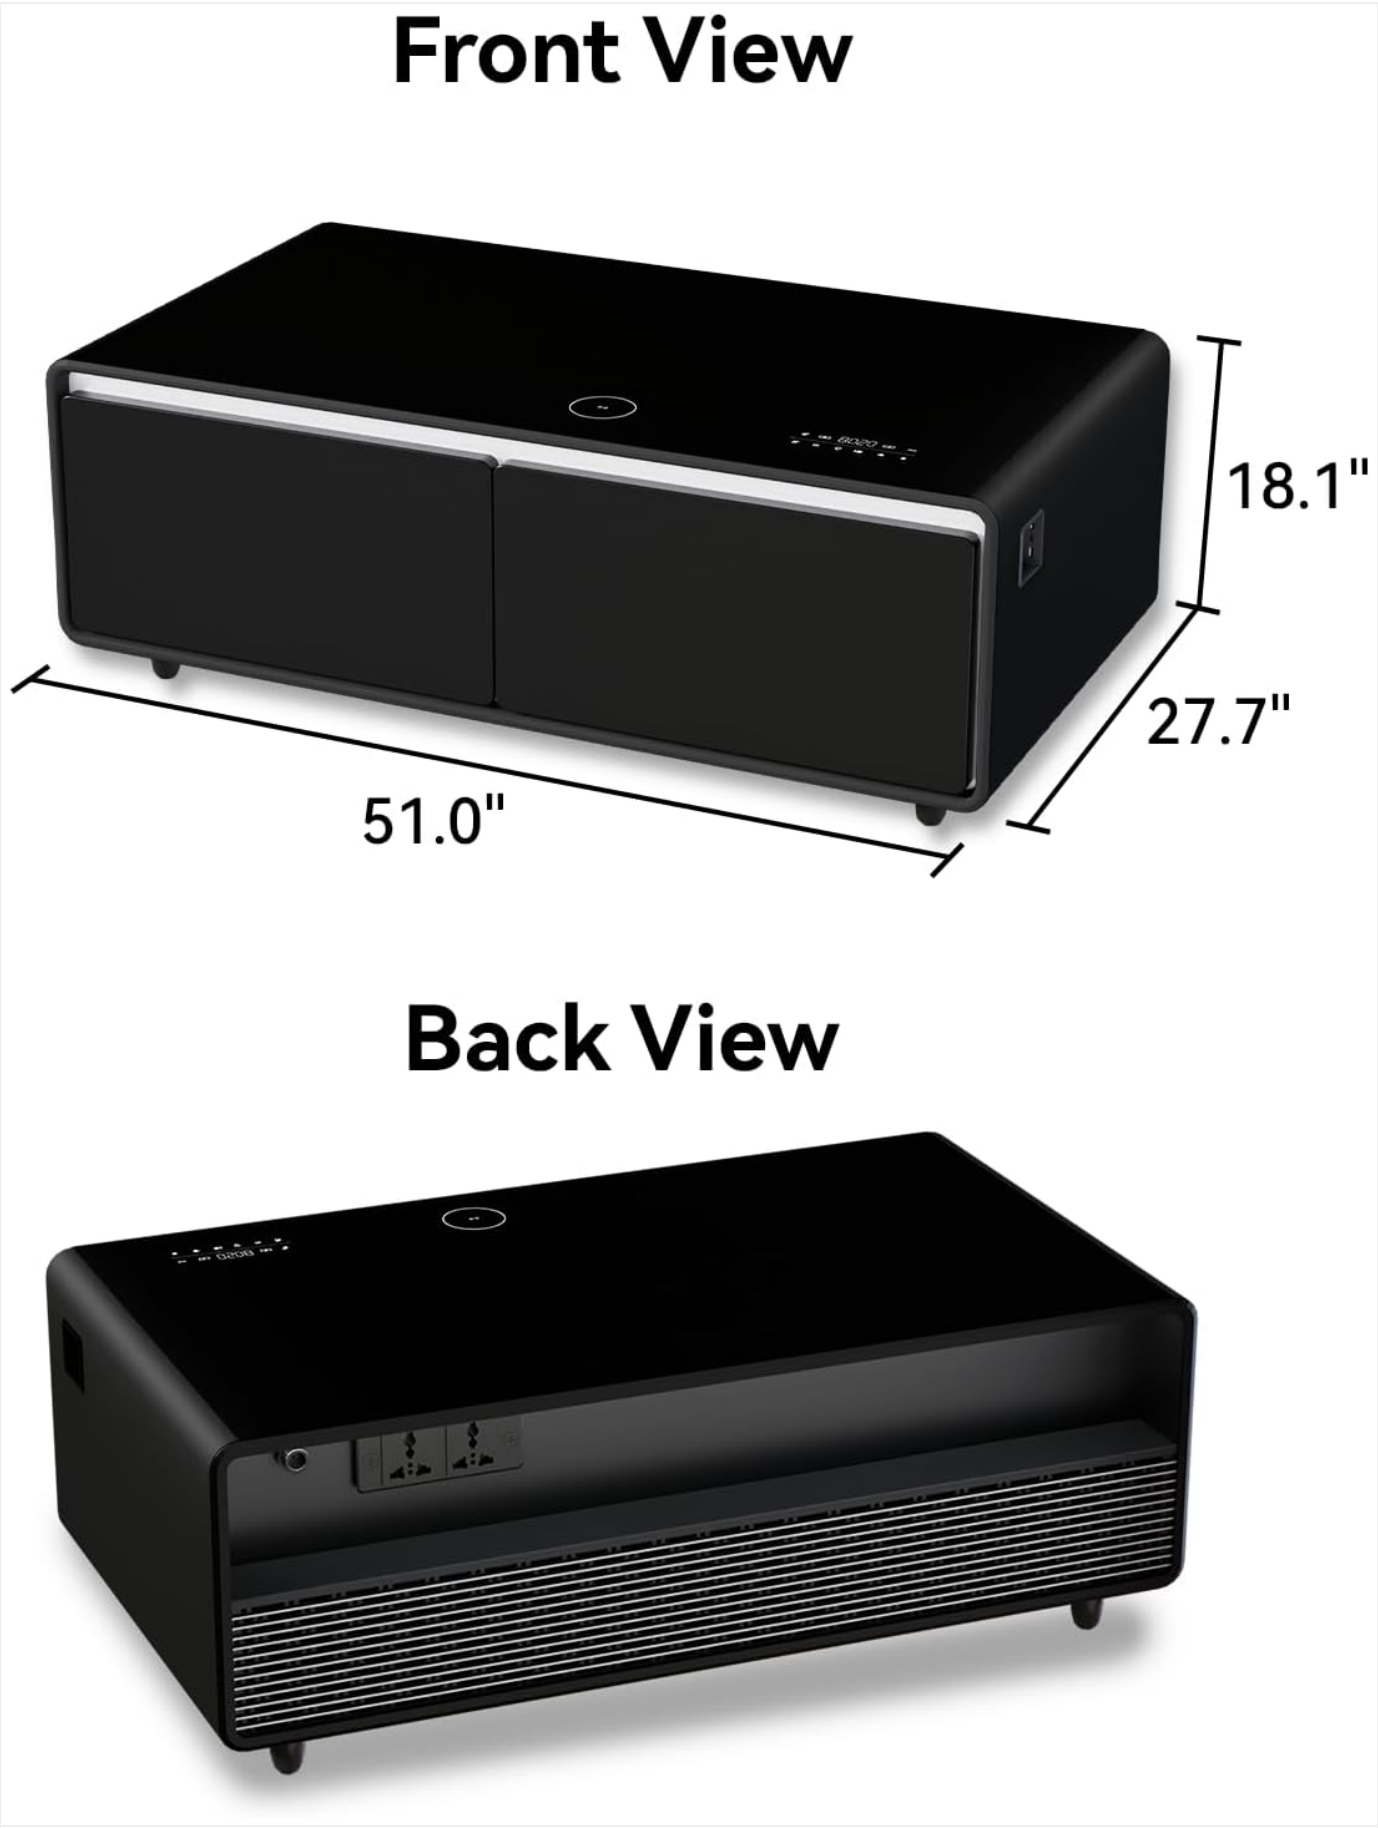

Image 3.1: Front and Back View of the LIVTAB Smart Coffee Table LT135, showing its dimensions (51.0" W x 27.7" D x 18.1" H).

Image 3.2: Visual representation of the LIVTAB Smart Coffee Table's key features: Coffee Table, Fridge, Bluetooth Speakers, Wireless Charging, 110V Outlets, USB A/C Charger, and RGB Ambient Light.

4. Setup

The LIVTAB Smart Coffee Table LT135 requires minimal setup. It is designed for immediate use upon delivery.

1. **Unpacking:** Carefully remove the coffee table from its packaging. Retain packaging materials for future transport or storage.
2. **Placement:** Position the table on a level, stable floor surface in your desired living area. Ensure there is sufficient space around the table for proper ventilation, especially at the rear where the refrigerator's cooling components are located.
3. **Power Connection:** Plug the power cord into a standard 110V AC grounded wall outlet.
4. **Initial Cooling:** Allow the refrigerator drawers to cool for at least 2-4 hours before placing items inside.

5. Operating Instructions

5.1 Cooling Drawers

The coffee table features dual cooling drawers with a total capacity of 135L, allowing you to store beverages and snacks at optimal temperatures.

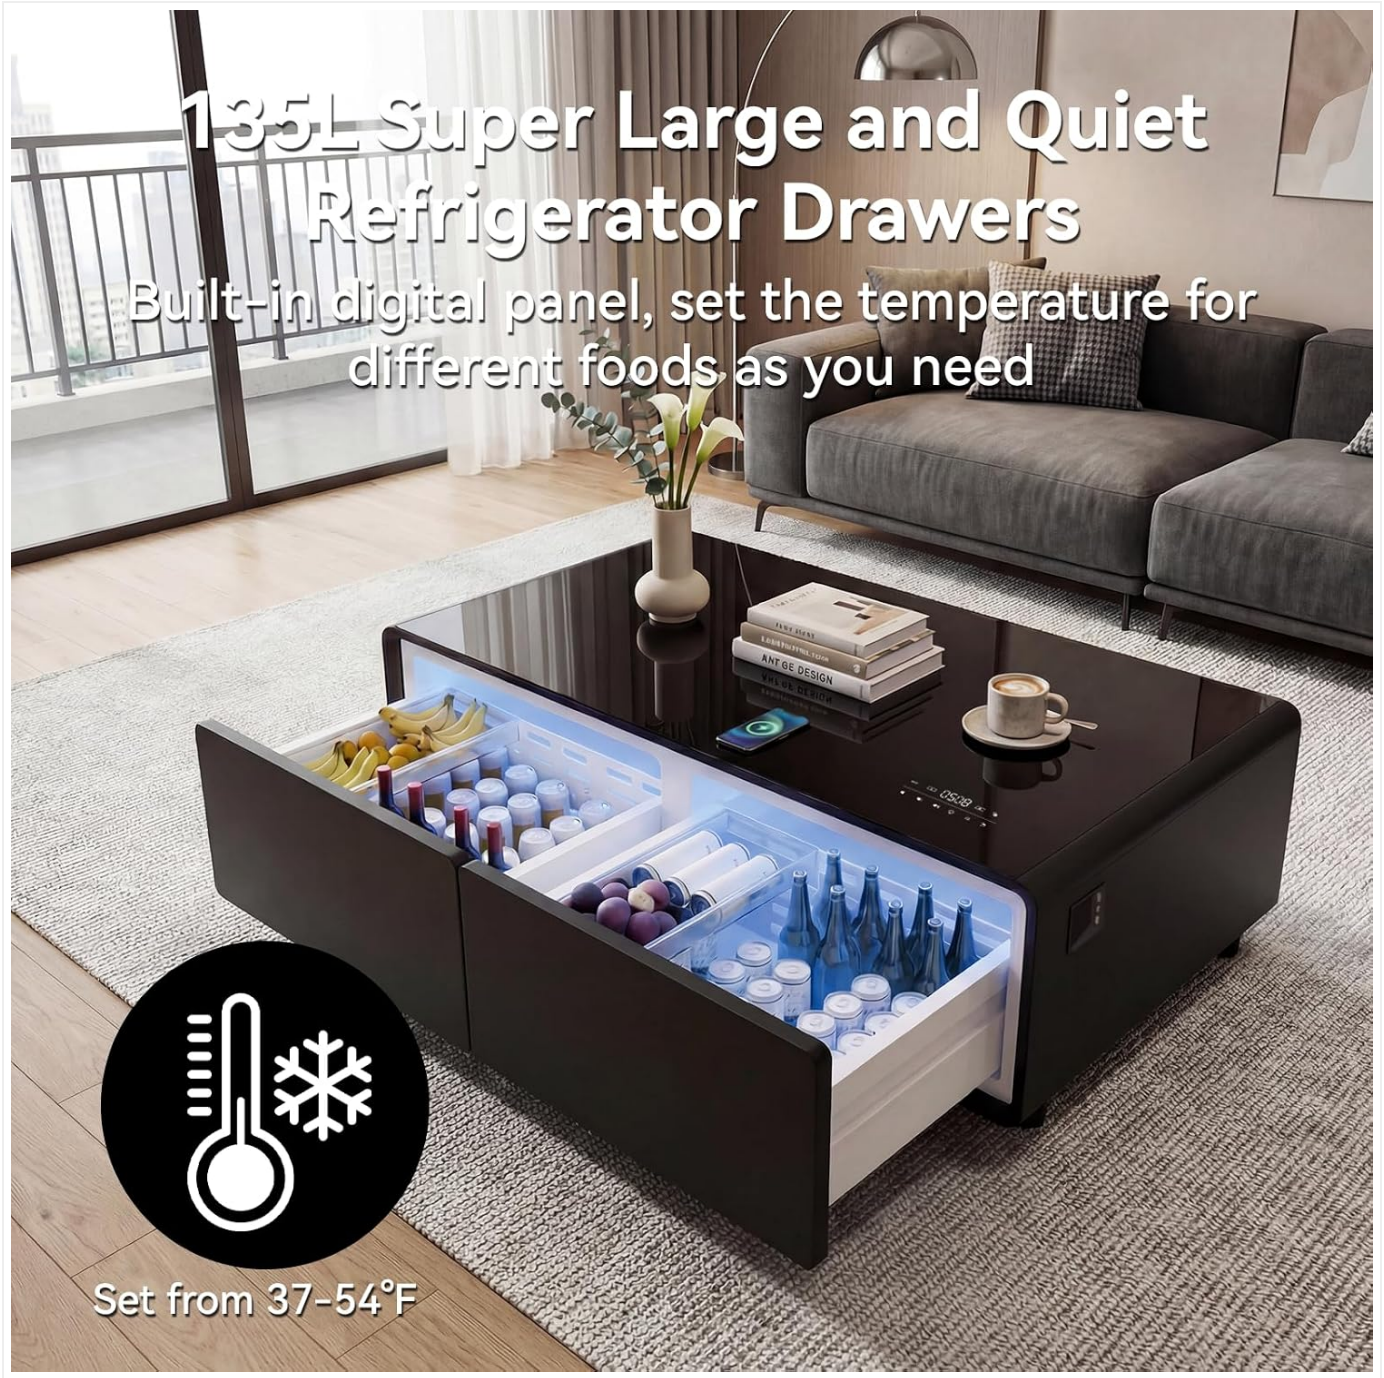

Image 5.1.1: The dual refrigerator drawers of the LIVTAB Smart Coffee Table, shown open and filled with various items. The temperature range is indicated as 37-54°F (3-12°C).

- **Temperature Control:** Use the built-in digital panel on the tabletop to set the desired temperature for each drawer independently. The temperature range is 37-54°F (3-12°C).
- **Storage:** The drawers include removable partition dividers and a top sliding tray for organized storage of various items.
- **Energy Saving:** Avoid leaving drawers open for extended periods to maintain cooling efficiency.

5.2 Audio System (Bluetooth Speakers & RGB Lights)

Enjoy rich, room-filling sound and dynamic lighting with the integrated 40W stereo speakers and RGB LED lights.

Image 5.2.1: The LIVTAB Smart Coffee Table displaying its RGB LED lights and indicating 20W powerful sound from its built-in speakers, enhancing a social setting.

- **Bluetooth Pairing:** Activate Bluetooth on your device (e.g., smartphone, tablet). On the coffee table's control panel, press the Bluetooth button to enter pairing mode. Select 'LIVTAB LT135' from your device's Bluetooth list to connect.
- **Volume Control:** Adjust speaker volume using the controls on the tabletop panel or directly from your connected device.
- **RGB LED Lights:** The dynamic RGB LED lights can be controlled via the tabletop panel. They can pulse to the beat of your music or be set to a static color.

5.3 Charging Features (Wireless, USB, AC Outlets)

The table provides multiple charging options for your devices.

Image 5.3.1: Close-up view of the LIVTAB Smart Coffee Table's charging capabilities, including a 15W wireless charging pad, USB A/C charging ports, and 110V AC outlets.

- **15W Wireless Charging Pad:** Place your Qi-compatible device on the designated wireless charging area on the tabletop. Ensure the device is centered for optimal charging.
- **USB/Type-C Ports:** Three side USB/Type-C ports are available for charging various devices using appropriate cables.
- **110V AC Outlets:** Two 110V AC outlets (960W max total) are provided for powering larger electronics like laptops or small appliances. Do not exceed the maximum wattage.

design.

6. Maintenance

Regular maintenance ensures the longevity and optimal performance of your smart coffee table.

- **Cleaning the Tempered Glass Top:** The durable tempered glass top can be wiped clean with a soft, damp cloth and a mild glass cleaner. Avoid abrasive materials to prevent scratches.
- **Cleaning Refrigerator Drawers:** The refrigerator drawers feature removable door seals for hygienic deep cleaning. Clean the interior with a mild detergent and water. Ensure the drawers are dry before closing.
- **Ventilation Grille:** Periodically check and clean the ventilation grille at the back of the table to ensure unobstructed airflow for the refrigerator's cooling system.
- **Power Cord:** Inspect the power cord regularly for any signs of damage. If damaged, contact customer support for assistance.

7. Troubleshooting

Refer to this section for common issues and their solutions.

Problem	Possible Cause	Solution
Refrigerator not cooling	Power cord unplugged; temperature set too high; blocked vents.	Ensure power is connected. Adjust temperature settings. Clear any obstructions from vents.
Bluetooth speakers not connecting	Bluetooth not enabled on device; table not in pairing mode; device too far.	Enable Bluetooth on your device. Press the Bluetooth button on the table. Move device closer to the table.
Wireless charging not working	Device not Qi-compatible; device not centered; foreign objects on pad.	Verify device compatibility. Reposition device on the charging pad. Remove any objects between device and pad.
AC outlets not providing power	Table not powered; circuit overload.	Ensure the table is plugged in and powered on. Reduce the total wattage of connected devices.
