TECKEEN BT-SV Light Tank

TECKEEN 1:50 Paper Soviet BT-SV Light Tank Model Instruction Manual

Model: BT-SV Light Tank

INTRODUCTION

This instruction manual provides detailed guidance for assembling the TECKEEN 1:50 Paper Soviet BT-SV Light Tank Model. This kit is designed for enthusiasts and collectors, offering an accurate scale paper model of the BT-SV Light Tank. The assembly process is suitable for beginners, requiring basic crafting tools.

PRODUCT OVERVIEW AND COMPONENTS

The BT-SV Light Tank paper model kit includes all necessary paper components to construct a detailed replica.

- Brand new and high quality light tank paper model.
- Designed for military nautical collectibles enthusiasts.
- Accurate 1:50 scale paper model.
- Material: Paper.
- Finished model size: Approximately 11 x 4 x 4 CM.

The kit contains pre-printed paper sheets with all parts required for assembly.

SETUP AND ASSEMBLY INSTRUCTIONS

Before beginning assembly, ensure you have the following tools ready:

- Scissors or hobby knife

- White glue (PVA glue)
- Ruler
- Cutting mat (recommended)
- Tweezers (for small parts)

Follow the numbered instructions on the provided paper sheets. The general assembly steps are outlined below:

1. **Step 1: Prepare Components**

Carefully cut out all paper parts from the sheets. Pay attention to score lines for folding.

2. **Step 2: Assemble the Hull Base**

Begin by folding and gluing the main hull base structure. Ensure all folds are crisp and glue is applied evenly.

Figure 3: Assembling the Hull Base

3. **Step 3: Construct the Main Hull Body**

Attach the side and top panels to the hull base. Refer to the diagrams on the instruction sheet for correct placement and orientation.

Figure 4: Main Hull Body Assembly

4. **Step 4: Assemble the Turret and Details**

Construct the turret, gun barrel, and other smaller details such as tools and antennae. These parts require precision cutting and folding.

5. **Step 5: Attach Tracks and Wheels**

Assemble the paper tracks and wheels according to the instructions. These can be intricate and require patience.

6. **Step 6: Final Assembly**

Once all sub-assemblies are complete, attach the turret to the hull and secure any remaining small details. Allow sufficient drying time for all glued joints.

OPERATING (DISPLAY AND HANDLING)

Once assembled, your 1:50 Paper Soviet BT-SV Light Tank Model is a static display piece.

- **Display:** Place the model on a flat, stable surface away from direct sunlight, excessive humidity, or extreme temperatures to prevent paper degradation or warping.
- **Handling:** Handle the model carefully, preferably by its base or main hull, to avoid damaging delicate parts like antennae, gun barrels, or tracks.

MAINTENANCE

To ensure the longevity of your paper model:

- **Dusting:** Gently dust the model regularly with a soft, dry brush or a can of compressed air to prevent dust buildup. Avoid using wet cloths.
- **Environmental Control:** Keep the model in an environment with stable temperature and humidity. High humidity can cause paper to warp or glue to weaken, while extreme dryness can make paper brittle.
- **Repairs:** If any parts become detached or damaged, use a small amount of white glue to reattach them.

TROUBLESHOOTING

Common issues and their solutions during assembly or display:

- **Parts not fitting correctly:** Double-check the part numbers against the instruction diagrams. Ensure cuts are precise and folds are sharp.
- **Glue not holding:** Ensure surfaces are clean and dry. Apply a thin, even layer of glue and hold parts together firmly until set. Allow adequate drying time.
- **Paper warping:** This can occur due to excessive glue or high humidity. Use minimal glue and allow parts to dry completely before proceeding. Store the model in a stable environment.
- **Model appears flimsy:** Ensure all tabs are securely glued. For added rigidity, you may reinforce internal structures with additional paper strips or a thin coat of clear sealant (test on a scrap piece first).

SPECIFICATIONS

Feature	Detail
Material	Paper
Model	Soviet BT-SV Light Tank
Scale	1:50
Finished Model Size	11 x 4 x 4 CM (approx.)
Package Dimensions	12.99 x 8.66 x 0.39 inches
Item Weight	4.2 ounces
Recommended Age	16 years and up
Manufacturer	TECKEEN

WARRANTY AND SUPPORT

As a paper model kit, this product typically does not come with a formal manufacturer's warranty for the assembled item. The kit is provided as a set of components for self-assembly.

For any issues regarding missing or damaged components upon receipt of the kit, please contact the seller directly through the platform where the purchase was made. Provide your order details and a description of the issue for assistance.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
