3. Setup

3.1 Unpacking

1. Carefully remove the Patch Display Holder and its components from the packaging.
2. Inspect all items for any signs of damage. If any damage is found, contact customer support.

3.2 Inserting Patch Boards

The Patch Display Holder features a standard 3-ring binder mechanism for easy insertion and removal of the patch boards.

1. Open the 3-ring mechanism by pulling the rings apart.
2. Align the grommets on each patch board with the rings.
3. Gently press the rings together until they securely close, holding the patch boards in place.
4. You can arrange the 5 flip-page patch boards in any desired order.

4. Operating Instructions

4.1 Attaching Patches

The display panels are covered with a loop-side material, designed to securely hold patches with a hook-side backing.

1. Ensure your patch has a hook-side backing.
2. Simply press the hook-backed patch firmly onto the loop-side surface of the display panel.
3. To remove, gently peel the patch off the panel.

4.2 Organizing Patches

Utilize the multiple flip-pages to categorize and organize your patch collection. The removable nature of the pages allows for flexible arrangement and expansion.

4.3 Portability

The detachable wrist-let handle provides a convenient way to carry your patch collection.

1. Attach the wrist-let handle to the metal ring on the spine of the binder.
2. Carry the holder by the wrist-let for easy transport.
3. Detach the handle when not needed or for compact storage.

5. Maintenance

5.1 Cleaning

- **Exterior (PU Leather):** Wipe the PU leather exterior with a soft, slightly damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Interior (Velvet/Loop Panels):** Use a lint roller or a soft brush to remove dust, lint, or debris from the velvet and loop-side patch panels.

5.2 Storage

Store the Patch Display Holder in a cool, dry place away from direct sunlight and extreme temperatures to preserve its material integrity.

6. Troubleshooting

- **Patches not sticking:** Ensure your patches have a hook-side backing. The display panels are designed with loop-side material only.
- **Pages difficult to turn:** Check the 3-ring mechanism for any obstructions or misalignment. Ensure

the rings are fully closed after inserting pages.

- **Binder closure issues:** Ensure the binder is not overfilled, which can prevent the snap closure from engaging properly.
