6. MAINTENANCE

- **Cleaning the Screen:** Use a soft, lint-free cloth to gently wipe the touchscreen. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals.
- **General Cleaning:** Wipe the frame's exterior with a dry, soft cloth. Do not use abrasive cleaners.
- **Software Updates:** Regularly check for and install software updates to ensure the frame operates with the latest features and security enhancements.
- **Data Backup:** Periodically back up important photos and videos from the frame to an external storage device (SD card or USB drive) to prevent data loss.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Frame does not power on.	Power adapter not connected or faulty.	Ensure the power adapter is securely plugged into the frame and a working power outlet. Try a different outlet.
Cannot connect to WiFi.	Incorrect password, weak signal, or network issue.	Verify the WiFi password. Move the frame closer to the router. Restart your router and the frame.
Photos/Videos not appearing.	Incorrect file format, corrupted files, or not properly imported.	Check supported file formats (JPEG, MP4, etc.). Ensure files are not corrupted. Re-import media from the app, SD card, or USB drive.
Touchscreen unresponsive.	Temporary software glitch.	Restart the frame by holding down the power button. If the issue persists, perform a factory reset (refer to settings menu).
