Baseus WKJZ010013

Baseus AcmeJoy 4-Port Type-C HUB Adapter

Model: WKJZ010013
Brand: Baseus

1. INTRODUCTION

The Baseus AcmeJoy 4-Port Type-C HUB Adapter is designed to expand the connectivity of your USB-C enabled devices. It provides multiple ports for efficient data transfer, power delivery, and peripheral connections, enhancing your productivity and device versatility.

2. PRODUCT OVERVIEW

This hub features a robust design with essential ports for modern computing needs. It offers a plug-and-play experience, requiring no additional drivers for most operating systems.

- **3x USB 3.0 Ports:** For connecting various USB peripherals such as flash drives, keyboards, mice, and external hard drives.
- **1x Type-C PD & Data Port:** A versatile port supporting both Power Delivery (PD) for charging your host device and high-speed data transfer.

3. SETUP INSTRUCTIONS

1. **Connect the Hub:** Insert the integrated Type-C connector of the Baseus AcmeJoy hub into an available USB-C port on your laptop, tablet, or smartphone.

2. **Connect Peripherals:** Plug your USB devices (e.g., USB flash drives, external hard drives, mouse, keyboard) into the three USB 3.0 ports on the hub.

3. **Power and Data (Optional):** If your host device requires charging or you need additional data transfer capabilities, connect a compatible Type-C power adapter and/or data cable to the Type-C PD & Data port on the hub. This port supports up to 100W Power Delivery.

The hub is designed for plug-and-play operation, meaning it should be recognized automatically by your device without the need for driver installation.

4. OPERATING INSTRUCTIONS

Once connected, the Baseus AcmeJoy hub functions as an extension of your device's connectivity. Below are guidelines for using its features:

4.1. USB 3.0 Data Transfer

- Connect any USB 3.0 or USB 2.0 compatible device to the USB-A ports.
- These ports support data transfer speeds of up to 500 MB/s, allowing for quick transfers of large files.
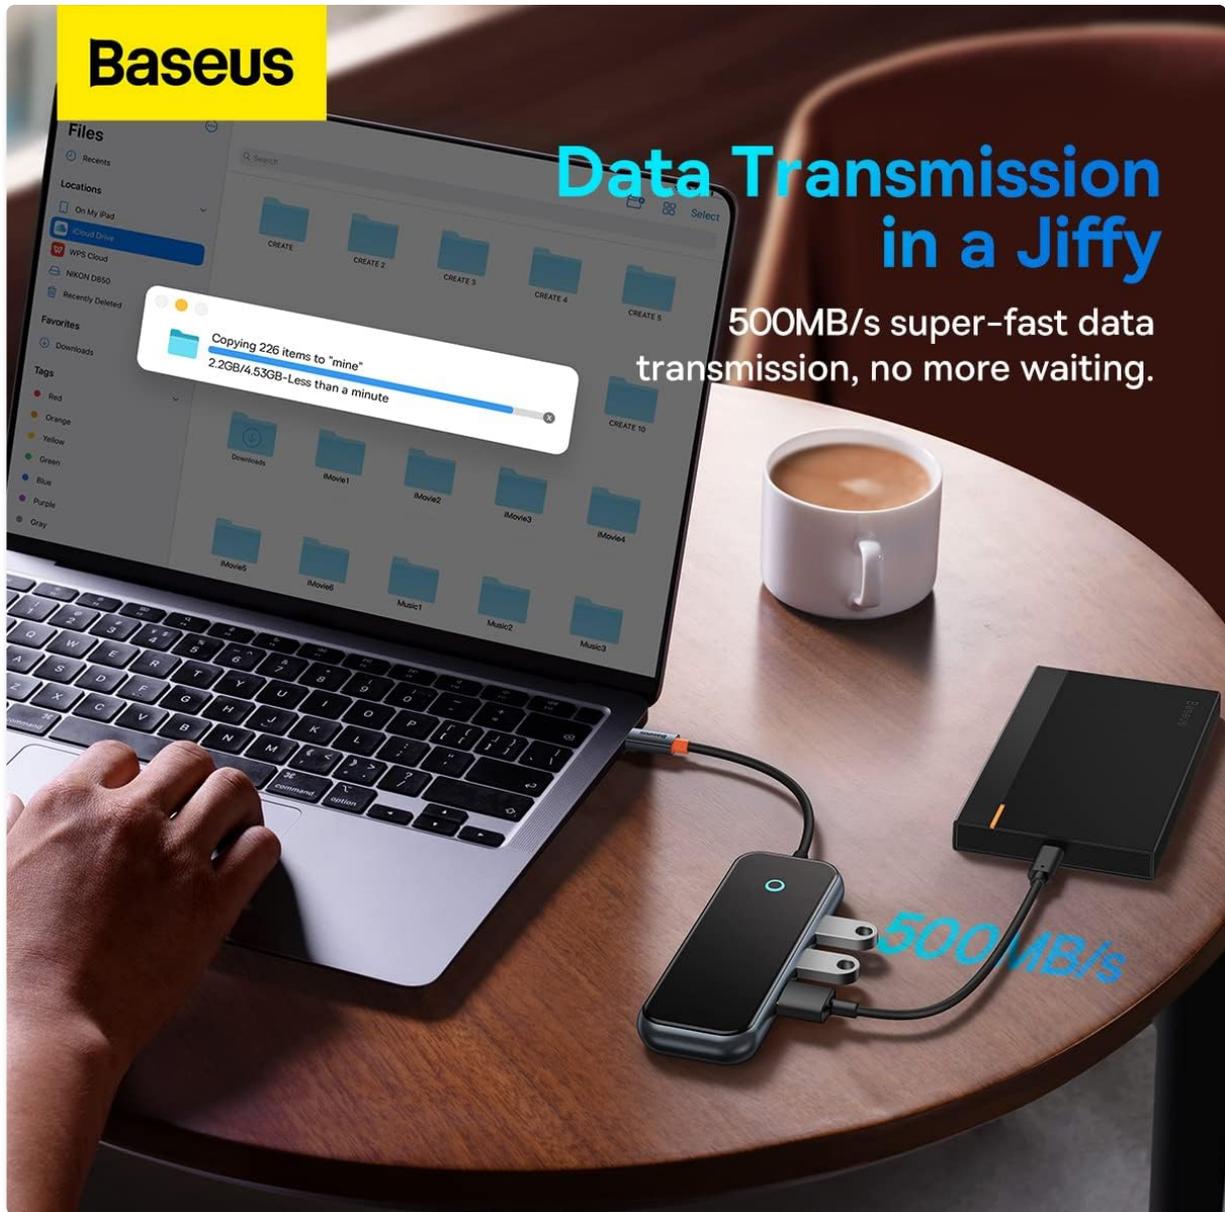

Image: A laptop connected to the Baseus AcmeJoy hub, which is then connected to an external hard drive, illustrating high-speed data transmission at 500MB/s.

4.2. Type-C Power Delivery (PD) and Data

- The dedicated Type-C port supports Power Delivery up to 100W, enabling fast charging for your compatible laptop or device while using the hub.

- This port also supports data transfer at speeds up to 500 MB/s, allowing you to connect Type-C peripherals or storage devices.

5. MAINTENANCE

To ensure the longevity and optimal performance of your Baseus AcmeJoy hub, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the surface of the hub. Avoid using liquid cleaners or abrasive materials.
- **Storage:** Store the hub in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the device or subjecting it to strong impacts. Do not attempt to disassemble or repair the hub, as this will void the warranty and may cause damage.
- **Cable Care:** Do not bend the integrated Type-C cable excessively or pull it forcefully.

6. TROUBLESHOOTING

If you encounter issues with your Baseus AcmeJoy hub, refer to the following common problems and solutions:

- **Device Not Recognized:**

- Ensure the hub's Type-C connector is fully and securely inserted into your host device's USB-C port.
- Try connecting the hub to a different USB-C port on your host device, if available.
- Restart your host device.

- **Slow Data Transfer:**

  - Verify that the connected peripheral devices (e.g., USB flash drive, external HDD) support USB 3.0 speeds.
  - Avoid connecting too many power-hungry devices simultaneously without external power connected to the hub's PD port.
  - Ensure your host device's USB-C port supports USB 3.0 or higher data transfer rates.

- **Charging Not Working (via PD port):**

  - Confirm that your power adapter and Type-C cable are functional and correctly connected to the hub's Type-C PD port.
  - Ensure your host device supports USB-C Power Delivery and is compatible with the power output of your adapter.
  - Check if the power adapter provides sufficient wattage for your device.

- **Intermittent Connection:**

  - Check for any physical damage to the hub or its cable.
  - Ensure all connections are firm.
  - Test with different peripherals to isolate the issue.

7. Specifications

Detailed technical specifications for the Baseus AcmeJoy 4-Port Type-C HUB Adapter:

Brand	Baseus
Model Number	WKJZ010013
Product Dimensions	10 x 5 x 3 cm
Item Weight	150 grams
Interface	USB C
Total USB Ports	4 (3x USB 3.0, 1x Type-C PD & Data)
Data Transfer Rate	500 MB/s (for USB 3.0 and Type-C data)
Power Delivery	Up to 100W (via Type-C PD port)
Operating System Compatibility	Windows Vista, Windows XP (and modern OS like macOS, Linux, Android)
Material	Rubber
