## 4. USAGE INSTRUCTIONS

This chart is intended as a reference guide to support flute practice, lessons, and quick review. It does not attach to a flute and does not alter instrument performance.

1. **Placement:** Position the chart on a music stand, desk, or wall for easy visibility during practice sessions.
2. **Note Identification:** Locate the desired note on the musical staff displayed on the chart.

3. **Fingering Reference:** Observe the corresponding color-coded fingering diagram next to the note. The diagrams illustrate which keys to close (solid circles) and which to leave open (hollow circles).
4. **Hand Position Guide:** Refer to the hand diagrams provided on the chart for correct left and right-hand placement on the flute keys.

## 6. MAINTENANCE

To ensure the longevity and clarity of your QMG Flute Fingering Chart, follow these maintenance guidelines:

- **Cleaning:** Wipe the laminated surface with a soft, dry cloth to remove dust or smudges. Avoid using abrasive cleaners or harsh chemicals, as these may damage the lamination.

- **Storage:** Store the chart flat or gently rolled to prevent creasing. Avoid prolonged exposure to extreme temperatures or direct sunlight, which can cause fading or warping.
- **Handling:** Handle the chart by its edges to prevent fingerprints or oils from accumulating on the main display area.

## 7. TROUBLESHOOTING

### Chart Curling

If the chart arrives rolled and exhibits a tendency to curl, you can address this issue with the following methods:

- **Flattening:** Place the chart on a clean, flat surface and weigh it down with heavy books or other flat objects for several days. This will help the lamination relax and flatten out.
- **Mounting:** For a permanent flat display, consider mounting the chart on a rigid backing such as a poster board or thin plywood using appropriate adhesive.
