

## Nuu A5x (DYH-KX)

# Nuu A5x Case Instruction Manual

Model: Nuu A5x (DYH-KX)

Brand: Generic

## 1. PRODUCT OVERVIEW

This instruction manual provides detailed information for the Nuu A5x Case, designed to protect your Nuu Mobile A5x phone. The case features a durable construction of hard PC and soft silicone, integrated ring support, and comes with a tempered glass screen protector. It is designed for enhanced protection and functionality.

Figure 1.1: Complete product package including the phone case, detachable ring stand, and tempered glass screen protector.

## 2. KEY FEATURES

- **Dual-Layer Protection:** Constructed with a hard PC back panel and a soft silicone frame for comprehensive impact absorption.
- **Shock Airbags:** Four-corner design incorporates shock airbags to provide enhanced protection against drops and impacts.
- **Integrated Ring Support:** Features an adhesive metal finger ring that can be attached to the case or used separately. The ring offers 360-degree rotation for versatile viewing angles and improved grip.
- **Magnetic Car Mount Compatibility:** The ring support is designed to be compatible with magnetic car mounts (car mount not included).
- **Advanced Back Panel Design:** The back side combines four layers: solid PC, ultra-high definition pattern layer, special process layer, and a clear, scratch-resistant surface layer.
- **Frosted Surface:** Provides a delicate feel, is scratch-free, and fingerprint-free. Features a silver reflective light effect.
- **Camera and Screen Protection:** The case design ensures that it is higher than both the camera lens and the phone screen, offering superior flat surface protection.
- **Tempered Glass Screen Protector:** Included for additional screen protection, featuring 9H hardness, shatterproof design, perfect adhesion, case-friendly fit, 99.9% super transparency, and anti-fingerprint properties.

## 3. INSTALLATION GUIDE

### 3.1 Installing the Phone Case

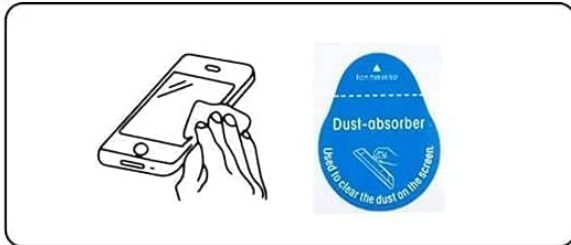

1. Ensure your NuU Mobile A5x phone is clean and free of dust or debris.
2. Align the phone with the soft silicone frame of the case.
3. Gently press the phone into the case, ensuring all corners and edges are securely seated within the silicone frame.
4. Verify that all ports, buttons, and camera cutouts align correctly with your phone.

### 3.2 Installing the Tempered Glass Screen Protector

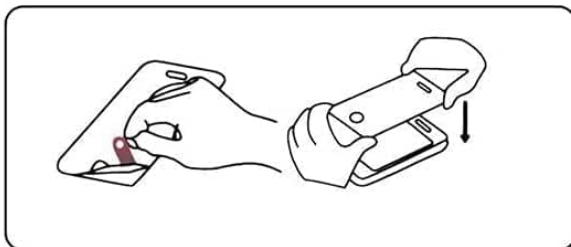

# Install Guide:

**Step 1**  
Gently clean phone screen with included wet wipe 1, then dry wipe 2.

**Step 2**  
Use included dust absorber to remove all dust on phone screen.

**Step 3**  
Peel off the film on the back of the screen protector.

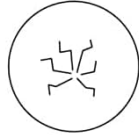

**Step 4**  
Align the screen protector to the screen and press the middle part with finger.

Figure 3.1: Visual guide for screen protector installation.

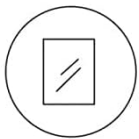

- Step 1: Clean the Screen.** Gently clean your phone screen with the included wet wipe (Wipes 1), then dry it thoroughly with the dry wipe (Wipes 2). Ensure no moisture or residue remains.
- Step 2: Remove Dust.** Use the included dust absorber sticker to remove any remaining dust particles from the phone screen. Inspect the screen carefully under light to ensure it is completely dust-free.
- Step 3: Peel the Film.** Carefully peel off the protective film from the adhesive side of the tempered glass screen protector. Avoid touching the adhesive surface.
- Step 4: Align and Apply.** Align the screen protector precisely with your phone screen, paying attention to the edges, cutouts, and speaker. Once aligned, gently press the middle part of the screen protector with your finger. The adhesive will spread automatically.
- Step 5: Remove Bubbles (if any).** If small bubbles appear, gently push them towards the edges of the screen protector using a soft cloth or a squeegee (not included).

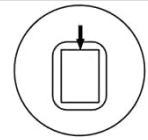

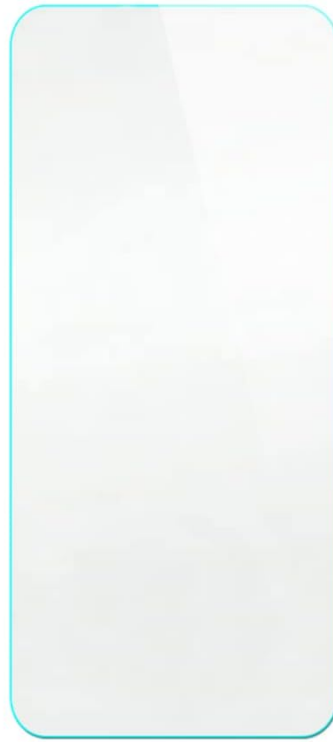

9H High Hardness

Shatterproof

99.9% Super Transparency

Perfect Adhesion

Case Friendly

Anti-fingerprint

## Scratch Proof

Scratch proof screen effectively avoids sharp objects scratching or abrasion

Figure 3.3: Visual proof of the screen protector's scratch-resistant properties, showing it can withstand sharp objects.

## 4. OPERATING INSTRUCTIONS

### 4.1 Using the Ring Support

- **Attaching the Ring:** The metal finger ring comes with an adhesive backing. Peel off the protective film and firmly press the ring onto the desired position on the back of your phone case. Ensure the surface is clean and dry before attachment for optimal adhesion.
- **Finger Grip:** Slide your finger through the ring for a secure and comfortable grip, reducing the risk of accidental drops.
- **Kickstand Function:** Rotate the ring to your desired angle (up to 360 degrees) and prop your phone up on a flat surface for hands-free viewing of videos or video calls.
- **Magnetic Car Mount:** The metal plate on the ring support allows it to attach to magnetic car mounts. Simply place the back of the case onto a compatible magnetic car mount for secure navigation or media viewing while driving.

**Note: The ring support does not support wireless charging. You may need to remove the case or use a**

wired charger for wireless charging functionality.

# One-Hand Operation

Touch more spots on the screen

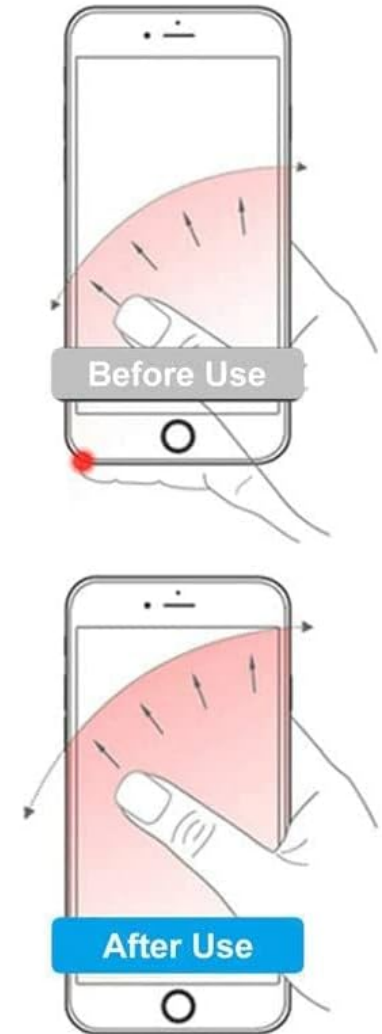

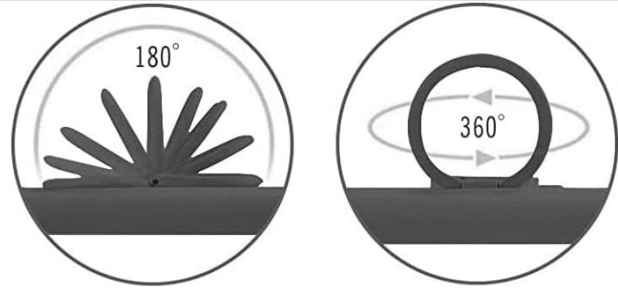

Figure 4.1: How the ring stand enables easier one-hand operation and reaching more areas of the screen.

## SUPPORT MAGNETIC CAR MOUNT

Support multi-angle stand.  
not support wireless charging.

Figure 4.2: Demonstrating the multi-angle stand capability and compatibility with magnetic car mounts.

## 5. MAINTENANCE AND CARE

- **Cleaning the Case:** To clean the phone case, gently wipe it with a soft, damp cloth. For stubborn stains, a mild soap solution can be used. Avoid harsh chemicals or abrasive cleaners, as they may damage the case's finish.
- **Cleaning the Screen Protector:** Use a microfiber cloth to wipe the screen protector. For smudges or fingerprints, a screen cleaner spray designed for electronics can be used.
- **Ring Stand Care:** Ensure the ring stand remains free of excessive dirt or debris that could impede its rotation. If the adhesive weakens over time, consider replacing the ring stand or using a stronger adhesive.
- **Avoid Extreme Temperatures:** Do not expose the case or screen protector to extreme heat or cold, as this can affect the material integrity and adhesive properties.
- **Regular Inspection:** Periodically inspect the case and screen protector for any signs of wear, cracks, or damage. Replace if necessary to ensure continued protection for your device.

## 6. TROUBLESHOOTING

- **Screen Protector Bubbles:** If bubbles appear after installation, gently lift the nearest edge of the screen protector and re-apply, pushing the bubble out with a soft cloth. Small bubbles often disappear within 24-48

hours.

- **Ring Stand Loosening:** If the adhesive on the ring stand begins to loosen, ensure the surface it's attached to is clean. If it continues to loosen, the adhesive may have worn out, and the ring stand might need to be re-adhered with a stronger adhesive or replaced.
- **Case Fit Issues:** Ensure you have the correct model of phone (Nuu Mobile A5x) for this case. If the case does not fit properly, double-check the phone model.
- **Reduced Touch Sensitivity (Screen Protector):** If you experience reduced touch sensitivity after installing the screen protector, ensure it is properly aligned and free of air bubbles. Sometimes, adjusting touch sensitivity settings on your phone can help.

## 7. PRODUCT SPECIFICATIONS

| Attribute               | Detail   |
|-------------------------|--|
| Product Dimensions      | 0.39 x 0.39 x 0.39 inches  |
| Item Weight             | 2.46 ounces  |
