

Ohniyou GLX032

Ohniyou 52 Inch Ceiling Fan with Light and Remote User Manual

Model: GLX032

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Ohniyou 52 Inch Ceiling Fan with Light and Remote. Please read this manual thoroughly before installation and use to ensure safe and efficient operation. Keep this manual for future reference.

The Ohniyou 52-inch ceiling fan is designed for both indoor and outdoor use, featuring a reversible DC motor, integrated LED lighting with adjustable color temperature, and a convenient remote control. Its five double-finish blades offer versatile aesthetic options.

SAFETY INFORMATION

Always follow basic safety precautions when installing and operating electrical appliances to reduce the risk of fire, electric shock, and personal injury.

- Ensure the power is turned off at the circuit breaker before installation or maintenance.
- All wiring must be in accordance with national and local electrical codes. If you are unfamiliar with wiring, consult a qualified electrician.
- The mounting structure must be capable of supporting the weight of the fan (approximately 7.26 kg).
- Do not bend the blade holders during installation or cleaning.
- Maintain a minimum clearance of 7 feet from the floor to the bottom of the fan blades.
- This fan is designed for use with a remote control only; wall switches may not provide full functionality.

PACKAGE CONTENTS

Before beginning installation, ensure all parts are present and accounted for:

- Ceiling Fan Motor Assembly

- Fan Blades (5)
- Blade Brackets (5)
- Downrods (5-inch and 10-inch options)
- Mounting Bracket
- Canopy and Canopy Cover
- LED Light Kit
- Remote Control with Wall Mount
- Hardware Pack (screws, washers, wire nuts, cotter pin)
- User Manual

SETUP AND INSTALLATION

Installation of this ceiling fan typically requires 1 to 2 people and takes approximately 0.5-1 hour. Refer to the following steps and videos for guidance.

Step 1: Prepare the Motor and Blade Brackets

Attach the blade brackets to the fan motor. Ensure they are securely fastened.

Step 3: Connect LED Light Kit

Connect the LED light kit to the fan motor's wiring. Ensure all connections are secure before proceeding.

Image: The LED light kit is shown being connected to the fan's internal wiring, illustrating the 3-color temperature feature.

Step 4: Assemble Downrod and Canopy

Thread the electrical wires from the fan motor through the chosen downrod (5-inch or 10-inch). Secure the downrod to the motor assembly with the provided pin and screws. Slide the canopy and canopy cover onto the downrod.

Step 5: Mount the Fan to the Ceiling

Attach the mounting bracket to the ceiling junction box. Carefully lift the fan assembly and hang it on the mounting bracket. Connect the fan's electrical wires to the household wiring according to the wiring diagram in the full instruction manual. Secure the canopy to the mounting bracket.

OPERATING INSTRUCTIONS

Your Ohniyou ceiling fan is operated using the included remote control. Ensure the remote has fresh batteries installed.

Fan Speed Control

The fan features 6 adjustable speeds. Use the remote control to select your desired airflow. Speeds 1-2 provide a comfortable low wind for sleeping or reading, speeds 3-4 offer natural medium wind for entertainment, and speeds 5-6 deliver a cool high wind for sports or fitness activities.

LED Light Control

The integrated 18W LED light offers 3 color temperature options: 3000K (warm light), 4500K (natural light), and 6000K (cool light). Use the remote to cycle through these settings to match your preference or room ambiance. The light also has a memory function, retaining the last used setting.

Reversible DC Motor (Summer/Winter Mode)

The fan features a reversible DC motor for year-round comfort. In summer, the downdraft mode creates a cooling effect. In winter, the updraft mode circulates warm air trapped near the ceiling, promoting air circulation and energy saving.

REVERSE DC MOTOR

Cooler in summer and warmth in winter
Promote air circulation

Timer Function

Set the fan to automatically turn off after 1, 2, or 4 hours using the timer function on the remote control. This is ideal for nighttime use or when you want to conserve energy.

Quiet Operation

The fan is equipped with a silent DC motor, operating at a low noise level of approximately 30 decibels, ensuring a peaceful environment.

POWERFUL & QUIET

MAINTENANCE

Regular maintenance helps prolong the life and performance of your ceiling fan.

- **Cleaning:** Periodically clean the fan blades and motor housing with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Tightening Screws:** Check all screws on the fan blades and mounting hardware annually to ensure they are secure.
- **Lubrication:** The DC motor is permanently lubricated and does not require additional oiling.

TROUBLESHOOTING

If you experience issues with your ceiling fan, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; loose wire connections; remote control battery dead.	Check circuit breaker; ensure all wire connections are secure; replace remote control battery.
Fan is noisy	Loose fan blades or mounting screws; motor housing rubbing.	Tighten all blade and mounting screws; ensure no parts are rubbing.
Light does not work	Loose wire connection to light kit; LED driver failure.	Check light kit wiring connections; contact customer support if LED driver is suspected.
Remote control not working	Dead battery; incorrect pairing.	Replace battery; refer to remote pairing instructions in the full manual.

If problems persist after attempting these solutions, please contact Ohniyou customer support.

SPECIFICATIONS

Feature	Specification
Brand	Ohniyou
Model Number	GLX032
Blade Length	52 Inches
Number of Blades	5
Blade Material	Wood
Motor Type	Silent DC Motor
Number of Speeds	6
Light Type	LED
Wattage (Light)	18 watts
Color Temperature	3000K-6000K (Warm, Natural, Cool)
Control Method	Remote Control
Special Features	LED Light, Remote Controlled, Silent DC Motor, Timer, Reversible Airflow
Noise Level	30 Decibels
Mounting Type	Downrod Mount (suitable for sloped ceilings up to 15 degrees)
Indoor/Outdoor Usage	Indoor, Outdoor
Item Weight	7.26 Kilograms
