TROUBLESHOOTING

Device not charging:

- Ensure the charging station is properly connected to the power adapter and wall outlet.
- Verify that your device is placed correctly and centered on the charging pad.
- Remove any thick or metallic phone cases, PopSockets, or cardholders that may interfere with wireless charging.
- Check if your device is compatible with wireless charging.

Slow charging:

- Ensure you are using the provided QC3.0 adapter and USB cable, as other adapters may not provide sufficient power.

- Reposition your device on the charging pad to ensure optimal alignment with the charging coils.
- Avoid using the device while it is charging, as this can slow down the charging process.

LED indicator flashing red:

- This usually indicates a foreign object detection or improper device placement. Remove any objects from the charging pad and reposition your device.
- If the issue persists, try unplugging and re-plugging the power adapter.

Device getting hot during charging:

- A slight warmth is normal during wireless charging. However, if the device becomes excessively hot, remove it from the charger immediately.
- Ensure there is adequate ventilation around the charging station.
- Check for any foreign objects or incompatible cases that might be causing overheating.

CARE AND MAINTENANCE

- Clean the charging station with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Keep the device free from dust and debris to ensure optimal performance.
- Store the charging station in a cool, dry place when not in use.

WARRANTY AND SUPPORT

HATALKIN offers a 12-month warranty for replacement or refund in case of any quality problems with the charging station. For support or warranty claims, please contact HATALKIN customer service through your purchase platform or visit the official HATALKIN store.

For further assistance, please refer to the contact information provided with your purchase or on the HATALKIN official website.
