## VIVO STAND-KIT-RACE1B

# VIVO Racing Simulator Cockpit with TV Mount (STAND-KIT-RACE1B) User Manual

## INTRODUCTION

This manual provides essential information for the assembly, operation, and maintenance of your VIVO Racing Simulator Cockpit with TV Mount, model STAND-KIT-RACE1B. Please read these instructions thoroughly before use to ensure proper setup and safe operation.

Image: The VIVO Racing Simulator Cockpit, featuring a red and black racing seat, a sturdy black metal frame, a wheel stand, a gear mount, and an integrated TV mounting bracket. Steering wheel, pedals, and shifter are not included.

## SAFETY INFORMATION

**WARNING: This product can expose you to chemicals including Diisononyl phthalate (DINP) which is known to the State of California to cause cancer and Di(2-ethylhexyl)phthalate (DEHP), which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).**

- Ensure all components are securely fastened before use.
- Do not exceed the maximum weight recommendations for the chair (220 lbs) or TV mount (77 lbs).
- Keep children and pets away from the cockpit during assembly and adjustment.
- Use only as intended for racing simulation.

## PACKAGE CONTENTS

---

The VIVO Racing Simulator Cockpit (STAND-KIT-RACE1B) includes the following components:

- Racing Seat (Red/Black)
- Main Frame Assembly
- Wheel Stand
- Gear Mount
- TV Mounting Bracket
- All necessary hardware for assembly

**Note:** Steering wheel, pedals, and shifter are not included with this product.

## SETUP

---

### Assembly

Detailed assembly instructions are provided in the included installation manual (PDF). Ensure all parts are present and undamaged before beginning assembly. A typical assembly takes approximately one hour. Tools provided include a hex key and a small wrench.

For a complete guide, please refer to the official [Installation Manual \(PDF\)](#).

### Compatibility

- **Racing Wheels:** Universal design fits most racing wheels, including models from Logitech, Thrustmaster, and Fanatec.
- **Gaming Platforms:** Compatible with most gaming programs for Xbox One, PlayStation, and PC.
- **TV Screens:** Supports screens from 32" to 50" in size, weighing up to 77 lbs.
- **VESA Mounting Patterns:** Compatible with VESA 100x100, 200x100, 200x200, 300x200, 400x200, 300x300, 400x300, and 400x400.

Image: Diagram illustrating the dimensions of the racing simulator cockpit (44.5"H x 51.2"L x 14.5" seat length) and specifications for the TV mounting bracket, including supported screen sizes (32"-50"), weight capacity (up to 77 lbs), and VESA patterns.

## OPERATION

### Adjusting the Racing Seat

The racing seat is designed for comfort and adjustability to suit various user preferences:

- **Sliding Mechanism:** The seat slides forward and backward along a track (12.6" range) to optimize distance from the wheel and pedals.
- **Recline Function:** The seat back can be reclined to your preferred angle for extended gaming sessions.

## Adjusting the Wheel Mount

The wheel mount features a tilting mechanism to allow for optimal steering wheel positioning. This adjustment helps accommodate different driving styles and user heights.

## Adjusting the TV Mount

The integrated TV mount offers flexibility for viewing angles:

- **Height Adjustment:** The TV mount can be adjusted in height to align the screen with your eye level. Center of screen height settings are 32.5" and 35.3".
- **Tilt Function:** The mount allows for a tool-free tilt of  $\pm 10^\circ$ , reducing glare and improving viewing comfort.

## Gear Shifter Installation

The gear mount can be installed on either the left or right side of the cockpit, depending on your preference and the specific racing setup.

## MAINTENANCE

To ensure the longevity and optimal performance of your VIVO Racing Simulator Cockpit, follow these general maintenance guidelines:

- Regularly inspect all bolts and fasteners to ensure they remain tight. Re-tighten as necessary.
- Clean the frame with a soft, damp cloth. Avoid abrasive cleaners.
- Wipe down the racing seat with a mild cleaner suitable for faux leather or vinyl.
- Keep the cockpit in a dry environment to prevent rust or material degradation.

## TROUBLESHOOTING

---

If you encounter issues with your racing simulator cockpit, consider the following:

- **Stability Issues:** Ensure all frame connections are securely tightened. Verify the cockpit is placed on a flat, stable surface.
- **Difficulty Adjusting Components:** Check for any obstructions or loose parts. Refer to the assembly instructions to confirm correct installation of adjustable mechanisms.
- **TV Mount Alignment:** If the TV mount seems misaligned or unstable, double-check that all VESA screws are properly seated and tightened. Ensure any necessary washers are used correctly as per the installation manual.
- **Wheel/Pedal/Shifter Fit:** While designed for universal compatibility, some accessories may require minor adjustments or additional mounting hardware not included with the cockpit. Ensure your accessories are properly secured to their respective mounts.

For persistent issues, please contact VIVO Customer Support.

## SPECIFICATIONS

---
