4. Maintenance

To ensure the longevity and appearance of your nanoblock model, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry brush or a can of compressed air to gently remove dust from the model. Avoid using water or chemical cleaners, as these may damage the plastic or affect the block connections.
- **Storage:** Store the assembled model in a stable location away from direct sunlight and extreme temperatures to prevent discoloration or warping of the plastic.

- **Disassembly:** If disassembling the model, do so carefully to avoid damaging the blocks. Store disassembled blocks in a secure container to prevent loss.

5. Troubleshooting

If you encounter issues during or after assembly, consider the following:

- **Missing Pieces:** Double-check the packaging and surrounding area for any small blocks that may have been overlooked. If pieces are genuinely missing, refer to the product support information.
- **Assembly Difficulties:** Review the instruction manual carefully. Ensure each block is oriented and placed correctly. Sometimes, a small misplacement early in the build can affect later steps.
- **Loose Connections:** Ensure blocks are firmly pressed together. nanoblocks are designed for a tight fit.
