nanoblock Jujutsu Kaisen Nobara Kugisaki Building Kit Instruction Manual

Model: NBCC_153

INTRODUCTION

This manual provides detailed instructions for the assembly, care, and troubleshooting of your nanoblock Jujutsu Kaisen Nobara Kugisaki Character Collection Series Building Kit. This kit allows you to construct a micro-sized block model of Nobara Kugisaki, standing approximately 2.55 inches (6.5 cm) tall, using 140 precision-engineered pieces.

The model is rated at a Difficulty Level 2 (entry level) on a scale of 1 to 5, making it suitable for builders aged 15 years and up. Please read all instructions carefully before beginning assembly.

Warning: This product contains small parts and is considered a choking hazard. Keep out of reach of small children.

SETUP AND PREPARATION

Before you begin assembling your nanoblock model, ensure you have a clear and organized workspace. Proper preparation will enhance your building experience.

1. **Unpack Contents:** Carefully open the product box and remove all contents. The kit includes the nanoblock pieces and a detailed instruction booklet.
2. **Verify Components:** Confirm that all 140 pieces are present. While nanoblock kits often include a few extra pieces, it's good practice to ensure no major components are missing. Refer to the parts list in the instruction booklet if available.
3. **Prepare Workspace:** Choose a well-lit, flat, and stable surface. Due to the small size of nanoblock pieces (as small

as 4mm x 4mm x 5mm), a clean and uncluttered area is crucial to prevent loss of parts. Consider using a tray or mat to contain the pieces.

4. **Review Instructions:** Familiarize yourself with the entire instruction booklet before starting. Pay attention to the color coding and step-by-step diagrams.

ASSEMBLY INSTRUCTIONS

Follow the detailed, step-by-step instructions provided in the included booklet to assemble your Nobara Kugisaki nanoblock model. The process involves connecting micro-sized blocks to form the character.

- **Follow Diagrams:** Each step in the instruction booklet features clear diagrams indicating which blocks to use and where to place them. Pay close attention to the orientation of each block.
- **Secure Connections:** Ensure each block is firmly pressed into place. A secure connection is vital for the stability and integrity of the finished model.
- **Work Systematically:** Build layer by layer, or section by section, as guided by the instructions. Avoid skipping steps.
- **Patience is Key:** Given the small size of the blocks, assembly requires patience and precision. Take breaks if needed to maintain focus.

MAINTENANCE AND CARE

To ensure the longevity and appearance of your nanoblock model, follow these simple maintenance guidelines:

- **Cleaning:** Dust can accumulate on the model. Use a soft brush, a can of compressed air, or a damp cloth (lightly moistened with water) to gently clean the blocks. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store the assembled model in a stable location away from direct sunlight, extreme temperatures, and high humidity to prevent discoloration or material degradation.
- **Handling:** Handle the model carefully, especially when moving it, to prevent pieces from detaching.

TROUBLESHOOTING

If you encounter any issues during or after assembly, refer to the following common problems and solutions:

Problem	Solution
Missing pieces	Double-check your workspace and the packaging. If pieces are genuinely missing, contact customer support for assistance.
Difficulty connecting blocks	Ensure blocks are correctly aligned and apply firm, even pressure. Some connections may require a bit more force due to the micro size.
Model parts are unstable or fall off	Review the assembly steps for the affected section. Ensure all blocks are fully seated and correctly oriented according to the instructions. Reassemble the unstable section if necessary.
Incorrect assembly	Carefully re-examine the instruction diagrams for the step where the error occurred. Disassemble only the necessary sections and reassemble correctly.

SPECIFICATIONS

Feature	Detail
Product Name	Jujutsu Kaisen - Nobara Kugisaki Character Collection Series Building Kit

Feature	Detail
Model Number	NBCC_153
Brand	nanoblock
Number of Pieces	140
Assembled Dimensions (approx.)	2.04 x 1.73 x 2.55 inches (5.18 x 4.39 x 6.48 cm)
Item Weight (approx.)	2.04 ounces (57.8 grams)
Difficulty Level	2 (Entry Level, on a scale of 1-5)
Recommended Age	15 years and up
Manufacturer	Kawada
Release Date	July 12, 2023

WARRANTY INFORMATION

This nanoblock product is manufactured by Kawada and distributed by authorized partners. For products purchased within the U.S. Markets, the product box will feature a Bandai Namco warning label, which serves as proof of an officially licensed Kawada product. This label also entitles the purchaser to product support assistance within the United States. Specific warranty details, including coverage duration and terms, are typically provided with the product packaging or can be obtained by contacting the authorized distributor directly. Please retain your proof of purchase for any warranty claims.

CUSTOMER SUPPORT

For product support, inquiries about missing parts, or any other assistance related to your nanoblock Jujutsu Kaisen Nobara Kugisaki Building Kit, please contact the authorized distributor in your region. For customers in the U.S. Markets, support is provided by Bandai Namco. When contacting support, please have your product model number (NBCC_153) and proof of purchase readily available.
