HMHAMA Robot Vacuum Water Tank with Mop Cloth Replacement Instruction Manual

For Dreame L10pro/D9 and TROUVER L600 L300 Robot Vacuum Cleaners

1. Introduction

This manual provides instructions for the HMHAMA Robot Vacuum Water Tank with Mop Cloth Replacement. This accessory is designed to maintain the mopping functionality of your compatible robot vacuum cleaner, ensuring effective wet and dry cleaning on various hard floor surfaces.

2. Compatibility

The HMHAMA Robot Vacuum Water Tank is compatible with the following robot vacuum cleaner models:

- Dreame L10pro
- Dreame D9
- TROUVER L600
- TROUVER L300

Please verify your robot vacuum model before purchasing and installing this replacement part.

3. Package Contents

The package includes:

- 1x Robot Vacuum Replacement Water Tank
- 1x Mop Cloth (may be pre-attached or included separately)

4. Setup and Installation

Follow these steps to install the replacement water tank:

1. **Power Off:** Ensure your robot vacuum cleaner is powered off and disconnected from its charging base.
2. **Locate Slot:** Identify the existing water tank or the designated slot for the water tank on your robot vacuum. Consult

your robot vacuum's original manual if unsure.

3. **Remove Old Tank:** Carefully remove the old water tank, if present, by pressing any release buttons or sliding mechanisms.
4. **Align New Tank:** Align the new HMHAMA water tank with the installation slot on your robot vacuum.
5. **Secure Installation:** Gently push the water tank into place until it clicks securely. Ensure it is flush with the robot's body.
6. **Attach Mop Cloth:** If the mop cloth is not pre-attached, secure it to the designated area on the bottom of the water tank, typically using Velcro or a sliding mechanism.

5. Operating Instructions

Once the water tank is installed, follow these steps for operation:

1. **Fill Water Tank:** Open the water inlet cap on the tank. Fill the tank with clean tap water. Do not use detergents or cleaning solutions unless specifically approved for your robot vacuum, as this may cause blockages or damage. Do not overfill. Close the cap securely to prevent leaks.
2. **Initiate Mopping:** Place the robot vacuum on its charging base or a flat surface. Start a cleaning cycle that includes mopping via your robot vacuum's mobile application or control panel. The robot will automatically dispense water for mopping as it cleans.

Image 2: Top-down view of the HMHAMA replacement water tank, showing its transparent grey plastic construction and internal water channels.

6. Maintenance

Regular maintenance ensures optimal performance and extends the lifespan of your water tank and mop cloth.

- **Empty and Clean Water Tank:** After each mopping session, empty any remaining water from the tank. Rinse the tank with clean water to prevent residue buildup. Allow the tank to air dry completely before reinstalling or storing.
- **Mop Cloth Care:** Remove the mop cloth after each use. Wash the mop cloth by hand or machine wash according to your robot vacuum's instructions. Ensure the mop cloth is clean and dry before reattaching it for the next use.
- **Regular Inspection:** Periodically inspect the water tank for any signs of damage, cracks, or blockages in the water dispensing nozzles. Replace the tank if significant damage is observed.

7. Troubleshooting

If you encounter issues with your water tank, refer to the following common problems and solutions:

- **Water Not Dispensing:**
  - Ensure the water tank is correctly installed and securely latched into the robot vacuum.
  - Check if the water inlet cap is properly closed after filling.

- Verify that the robot vacuum's mopping function is activated in its mobile application or control panel.
- Inspect the water dispensing nozzles on the tank for any blockages. Clean gently with a small brush if necessary.

- **Tank Cracks or Leaks:**
  - If the tank develops cracks or leaks, it indicates material fatigue or damage. The tank should be replaced immediately to prevent water damage to the robot vacuum's internal components or flooring.

8. Specifications

Brand	HMHAMA
Model Name	Water Tank
Special Feature	Dry, Wet Mopping
Color	White
Included Components	Water Tank with Mop Cloth
Filter Type	Cloth
Compatible Devices	Dreame L10pro, D9, TROUVER L600, L300 Robot Vacuum Cleaners
Product Dimensions	12.79 x 0.59 x 5.3 inches
