

EPOMAKER TH80

EPOMAKER TH80 Pro 75% Mechanical Gaming Keyboard User Manual

Model: TH80 Pro

1. INTRODUCTION

The EPOMAKER TH80 Pro is a high-performance 75% layout mechanical gaming keyboard designed for versatility and customization. It features a compact design, hot-swappable switches, tri-mode connectivity (Bluetooth 5.0, 2.4GHz wireless, and USB-C wired), PBT keycaps, and vibrant RGB backlighting. This manual provides instructions for setting up, operating, maintaining, and troubleshooting your TH80 Pro keyboard.

2. PACKAGE CONTENTS

Before you begin, please ensure all items are present in your package:

- EPOMAKER TH80 Pro Mechanical Keyboard
- USB-C to USB-A Cable
- Keycap Puller
- Switch Puller
- Extra Switches (quantity may vary)
- 2.4GHz USB Receiver (stored in the keyboard)
- User Manual (this document)

UPGRADE PACKAGE LIST, MAC ALTERNATE KEYCAPS ARE INCLUDED

3. SETUP AND CONNECTIVITY

3.1 Powering On and Charging

Locate the power switch on the underside of the keyboard. Slide it to the 'ON' position to power on the device. To charge the keyboard, connect the provided USB-C cable to the keyboard's USB-C port and the other end to a USB power source. The keyboard features a 4000mAh battery for extended use.

3.2 Connectivity Modes

The TH80 Pro supports three connectivity modes:

- **USB-C Wired Mode:** Connect the keyboard directly to your device using the USB-C cable. This mode also charges the keyboard.
- **2.4GHz Wireless Mode:** Insert the 2.4GHz USB receiver into an available USB port on your computer. The keyboard will automatically connect. The polling rate can reach up to 1000Hz in this mode.
- **Bluetooth 5.0 Mode:** The keyboard can connect to up to three Bluetooth devices.

Wireless & Wired Mechanical Keyboard

Stable & Low Latency & Quick Response

PC

Bluetooth Pairing Instructions:

1. Ensure the keyboard is powered on.
2. Press **Fn + 1**, **Fn + 2**, or **Fn + 3** to select a Bluetooth channel. The corresponding key will flash rapidly, indicating pairing mode.
3. On your device, search for Bluetooth devices and select "TH80 Pro" to connect.
4. Once connected, the key will stop flashing and remain steadily lit.

4. OPERATING THE KEYBOARD

4.1 Basic Key Functions

The TH80 Pro features a 75% layout, providing essential keys while maintaining a compact form factor. Standard alphanumeric keys, function row (F1-F12), navigation keys (Page Up, Page Down, Home, End via Fn combinations), and arrow keys are present.

4.2 RGB Backlighting Control

The keyboard features customizable RGB backlighting. Use the following shortcuts to control the lighting effects:

- **Fn + Backspace:** Turn on/off backlighting.
- **Fn + \/: Toggle** through different RGB lighting effects.
- **Fn + P:** Toggle through different RGB lighting colors.

Programmable Software

Compatible with Windows/Mac OS

Macro Editing

Combine multiple shortcuts in one key

RGB Effect

Customize your own light mode and speed (Support changing per-key RGB)

Key Remapping

Improves Efficiency

Knob Redefine

Set the Knob (Volume Adjust, Shortcuts, etc)

Image: The EPOMAKER TH80 Pro keyboard displaying its vibrant RGB backlighting, with an overlay showing key combinations for controlling backlight functions.

4.3 Knob Control

The rotary knob located on the top right of the keyboard serves multiple functions:

- **Rotate:** Adjusts system volume.
- **Press:** Mutes/unmutes audio.

4.4 Programmable Software

The TH80 Pro is compatible with dedicated software for advanced customization. This software allows you to:

- Edit macros.
- Customize RGB lighting effects.
- Remap keys.
- Redefine knob functions.

The software is compatible with Windows and Mac OS. Please visit the official EPOMAKER website to download the latest version.

Hot Swappable Keyboard

Compatible with 3/5 pins mechanical switches

Hot-swap Socket

Pre-lubed Switch

Pre-lubed Plate-mounted Stabilizer

South-facing LEDs

*** Comes with a keycap puller tool**

5. MAINTENANCE

5.1 Cleaning the Keyboard

To maintain optimal performance and appearance, regularly clean your keyboard:

- Disconnect the keyboard from all power sources.
- Use a soft, lint-free cloth dampened with a small amount of water or a mild cleaning solution to wipe the keycaps and chassis.
- For deeper cleaning, use the included keycap puller to remove keycaps and clean underneath with compressed air or a small brush.
- Ensure the keyboard is completely dry before reconnecting it.

5.2 Keycap and Switch Replacement

The PBT keycaps are durable and oil-resistant. If you wish to replace them or the switches:

- Use the keycap puller to gently remove keycaps by hooking it onto the sides of the keycap and pulling upwards.
- Use the switch puller to remove switches by compressing the clips on the top and bottom of the switch and pulling upwards.
- Align new switches carefully with the PCB sockets and press down firmly until they click into place.
- Place new keycaps onto the switch stems and press down until secure.

6. TROUBLESHOOTING

If you encounter issues with your EPOMAKER TH80 Pro, refer to the following common solutions:

Problem	Possible Cause	Solution
Keyboard not responding (Wired)	Loose cable connection, faulty USB port, keyboard off.	Ensure USB-C cable is securely connected. Try a different USB port or cable. Check if the power switch is ON.

Problem	Possible Cause	Solution
Keyboard not responding (2.4GHz Wireless)	Receiver not connected, low battery, keyboard off, interference.	Ensure 2.4GHz receiver is plugged in. Charge the keyboard. Check if the power switch is ON. Move closer to the receiver or reduce interference.
Keyboard not responding (Bluetooth)	Not paired, low battery, out of range, incorrect channel selected.	Re-pair the keyboard (Fn+1/2/3). Charge the keyboard. Ensure device Bluetooth is on. Select the correct Bluetooth channel.
RGB backlighting not working	Backlight turned off, software issue.	Press Fn + Backspace to toggle backlight. Check software settings.
Keys double-typing or not registering	Faulty switch, debris under keycap.	Remove keycap and clean. Replace the faulty switch using the switch puller.
