# TMEOSK Twin Over Twin Low Wooden Bunk Bed with Convertible Slide and Ladder Instruction Manual

Model: **86601AAK** | Brand: **TMEOSK**

## 1. Important Safety Information

Please read and understand all instructions and warnings before assembling and using this bunk bed. Failure to follow these instructions can result in serious injury.

- This product comes with safety guardrails to prevent falls. Always ensure the guardrails are properly installed and secured on the top bunk.
- Always ensure the weight limit of **400 lbs** is not exceeded for the entire bunk bed structure. Each bunk has its own weight capacity; refer to specifications.
- Use appropriate bedding materials for infants and young children to prevent entrapment and suffocation hazards. Do not place infants on the top bunk.
- Always supervise children when using this product, especially on the top bunk, ladder, and slide.
- Ensure all connections are tight before each use. Periodically check and tighten all bolts and fasteners.
- Do not allow more than one person on the top bunk at a time.
- The slide and ladder are convertible. Ensure they are securely attached before use.
- Keep children away from the assembly area during construction.

## 2. Product Overview

The TMEOSK Twin Over Twin Low Wooden Bunk Bed is designed for children and teens, offering a space-saving solution with added recreational features. This bunk bed includes a convertible slide and ladder, safety guardrails, and a low-floor design for the bottom bunk, enhancing accessibility and safety.

### Key Features:

## 4. Setup and Assembly Instructions

Assembly of the TMEOSK Twin Over Twin Low Wooden Bunk Bed requires careful attention to detail. Please follow the step-by-step instructions provided in the separate assembly manual included with your purchase. Ensure you have adequate space and the necessary tools before starting.

### General Assembly Steps:

1. **Unpack and Organize:** Carefully unpack all components and lay them out on a clean, soft surface to prevent scratches. Identify each part using the provided parts list.
2. **Assemble Bed Frames:** Begin by assembling the top and bottom bed frames according to the manual's diagrams. Ensure all bolts are finger-tight initially.
3. **Attach Support Slats:** Install the wooden slats for both bunks, ensuring they are evenly spaced and securely fastened.
4. **Connect Bunks:** Carefully lift and connect the top bunk frame to the bottom bunk frame using the designated connectors.
5. **Install Guardrails:** Securely attach the safety guardrails to the top bunk.
6. **Attach Ladder and Slide:** Decide on the desired placement for the ladder and slide (they are interchangeable) and securely attach them to the bunk bed frame. Ensure all connection points are firm.
7. **Final Tightening:** Once all components are in place, systematically tighten all bolts and fasteners using the provided tools. Do not overtighten.

8. **Safety Check:** Perform a final check to ensure the bed is stable, all parts are secure, and there are no loose components.

## 5. Operating Instructions

### Using the Bunk Bed:

- **Mattress Requirements:** Use only mattresses that comply with the dimensions specified in the product specifications section. Ensure the mattress on the top bunk does not exceed the height of the guardrails.
- **Weight Limit:** Adhere strictly to the stated weight limits for both the top and bottom bunks.
- **Top Bunk Safety:** The top bunk is not suitable for children under 6 years of age. Always ensure guardrails are in place and secure.

### Using the Ladder:

- Always use the ladder for climbing to and from the top bunk. Do not climb on the bed frame directly.
- Ensure the ladder is securely attached to the bunk bed frame before each use.
- Climb the ladder facing the steps, using both hands for support.

### Using the Slide:

- The slide is intended for single-person use at a time.
- Always slide feet first.
- Ensure the area at the bottom of the slide is clear before use.
- Adult supervision is recommended when children are using the slide.

## 6. Maintenance and Care

Proper maintenance will ensure the longevity and safety of your TMEOSK bunk bed.

- **Cleaning the Frame:** For the wooden frame, wipe clean with a dry, soft cloth. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the lacquer finish.
- **Fastener Checks:** Periodically (e.g., monthly) check all bolts, screws, and fasteners to ensure they are tight. Loose connections can compromise the bed's stability and safety.
- **Mattress Care:** Follow the care instructions provided by your mattress manufacturer. Rotate and flip mattresses regularly to ensure even wear.
- **Slide and Ladder Inspection:** Regularly inspect the slide and ladder for any signs of wear, damage, or loose connections. Replace or repair damaged parts immediately.
- **Avoid Excessive Weight:** Do not place items heavier than the specified weight limit on any part of the bed.

## 7. Troubleshooting

If you encounter any issues with your bunk bed, refer to the following common troubleshooting tips:

- **Squeaking Noises:** Squeaking often indicates loose fasteners. Re-tighten all bolts and screws on the bed frame, slats, ladder, and slide. Ensure the bed is on a level surface.
- **Instability/Wobbling:** Check that all connections are securely tightened. Ensure the bed is placed on a flat, even floor. If the issue persists, disassemble and reassemble, paying close attention to each step.
- **Difficulty with Ladder/Slide Attachment:** Ensure you are using the correct hardware for attachment. Verify that the components are oriented correctly as per the assembly manual.
- **Missing Parts:** If you discover missing parts during assembly, do not attempt to substitute them. Contact TMEOSK customer service for replacements.
