WUBEN T5C2

WUBEN C2 Flashlight User Manual

Model: T5C2 | Brand: WUBEN

1. PRODUCT OVERVIEW

The WUBEN C2 is a high-performance, USB-C rechargeable tactical flashlight designed for versatility and durability. It offers exceptional brightness and multiple lighting modes, making it suitable for a wide range of applications from everyday carry to outdoor adventures and emergency situations.

Key Features

- **High Lumens:** Equipped with an advanced SST40 6500K LED, delivering up to 2000 lumens of brightness and a throw distance of up to 358 meters.
- **Durable Construction:** Crafted from hard anodized aircraft-grade 6061 T6 aluminum, ensuring resistance to high and low temperatures, IP68 waterproof rating, and 1.5M impact resistance.
- **Rechargeable Battery:** Features a 4800mAh large capacity rechargeable battery and a Type-C charging cable for extended use and convenient recharging.
- **Versatile Lighting Modes:** Includes 4 basic modes (High, Medium, Low, ECO) with memory function, 1 hidden mode (Turbo), and 2 flashing modes (Strobe, SOS).
- **Portable Design:** Compact size (5.06 x 4.11 inches) and an integrated pocket-clip allow for easy carrying on belts, in pockets, or attached to backpacks.

2. SETUP

Unboxing and Initial Charge

Upon receiving your WUBEN C2 Flashlight, please ensure all components are present:

- WUBEN C2 Flashlight
- 4800mAh Rechargeable Battery (pre-installed)
- USB Type-C Charging Cable
- Lanyard
- Belt Clip

Before first use, fully charge the flashlight. Connect the included USB Type-C cable to the flashlight's charging port and plug the other end into a standard USB power source (e.g., wall adapter, computer, power bank). The indicator light will show charging status.

TYPE-C Fast Charging

About 4 hours fast charging with any
USB port （5V/2A)

USB-A Portable

Provides extra security by charging devices in
an emergency (5V/2A)

The WUBEN C2 supports Type-C fast charging and can also act as a portable power bank via USB-A.

3. OPERATION

Basic Functions

The WUBEN C2 features a single side switch for all operations.

- **Turn On/Off:** Single click the side switch to turn the flashlight on or off.
- **Change Brightness Modes (Eco, Low, Medium, High):** When the flashlight is on, long press the side switch to cycle through Eco, Low, Medium, and High modes. The flashlight has a memory function and will turn on in the last used basic mode.

Advanced Modes

- **Turbo Mode:** Double click the side switch when the flashlight is on to activate Turbo mode (2000 lumens).
- **Strobe Mode:** Double click the side switch again from Turbo mode to activate Strobe mode.
- **SOS Mode:** Double click the side switch from Strobe mode to activate SOS mode.
- **Access Flashing Modes from Off:** Double click the side switch when the flashlight is off to directly enter Turbo mode. From Turbo, double click to cycle through Strobe and SOS.

7 Lighting Mode & 4800mAh

Power Bank Function

The WUBEN C2 can also serve as a portable power bank. Connect your device to the USB-A output port on the flashlight using a compatible cable to charge your device in an emergency.

The WUBEN C2 is suitable for a variety of applications, including outdoor activities and everyday tasks.

4. MAINTENANCE

Cleaning and Care

- Keep the flashlight clean, especially the lens and charging port. Use a soft, clean cloth to wipe surfaces.
- Avoid dropping the flashlight or subjecting it to severe impacts, despite its impact resistance.
- The WUBEN C2 is IP68 waterproof, meaning it can be submerged in up to 2 meters of water for up to 60 minutes. Ensure the charging port cover is securely closed before exposing it to water.

IP68 Waterproof
in up to 2m of water for up to 60 minutes

The WUBEN C2 is IP68 waterproof, capable of withstanding submersion.

Battery Care

- For optimal battery life, charge the flashlight regularly, even if not in frequent use.
- Store the flashlight in a cool, dry place when not in use for extended periods.
- If the flashlight will not be used for a long time, it is recommended to charge it every 3-6 months to maintain battery health.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Flashlight does not turn on.	Low battery; Loose battery connection; Faulty switch.	Charge the battery; Ensure battery is inserted correctly; Contact customer support if issue persists.
Light output is dim.	Low battery; Lens is dirty.	Recharge the battery; Clean the lens with a soft cloth.

Problem	Possible Cause	Solution
Flashlight does not charge.	Charging cable faulty; Charging port dirty; Power source issue.	Try a different USB-C cable and power source; Clean the charging port gently.
Flashlight gets hot on high modes.	Normal operation for high lumen output.	This is normal. The flashlight has built-in thermal regulation to prevent overheating by automatically reducing brightness.
