1. SETUP

The Loupedeck Live S is designed for seamless integration with your desktop environment. Follow these steps for initial setup and configuration.

1.1 What's In The Box

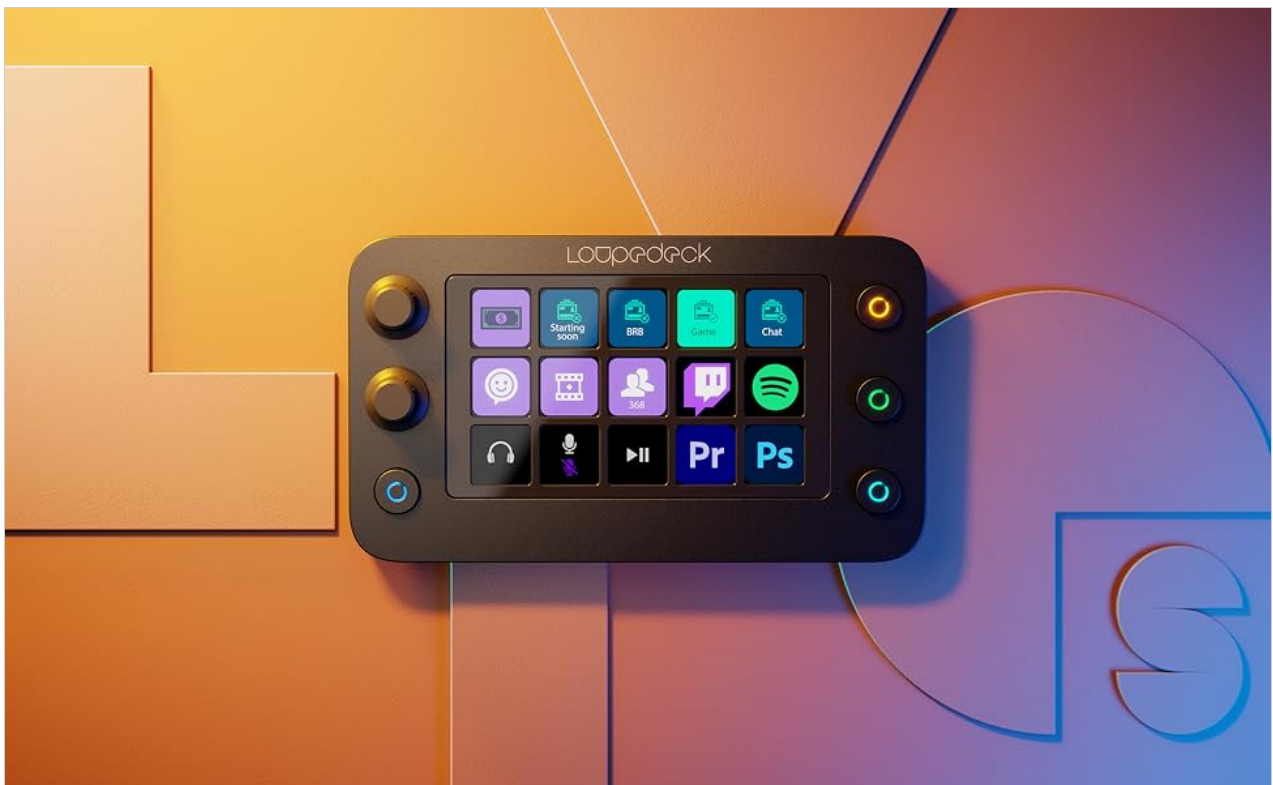

Image: Contents of the Loupedeck Live S packaging. This includes the Loupedeck Live S device, a quick start guide, a detachable stand, and a 2-meter (79-inch) USB-C cable with a C to A adapter.

- Loupedeck Live S Device

- Quick Start Guide
- Detachable Stand
- 2m / 79in USB-C Cable with C to A Adapter

1.2 Initial Connection & Software Installation

Connect the Loupedeck Live S to your computer using the provided USB-C cable. The device is compatible with both PC and Mac. Download and install the Loupedeck customization software from the official Loupedeck website. The software provides native plugins and ready-made profiles for various applications, simplifying the initial setup process.

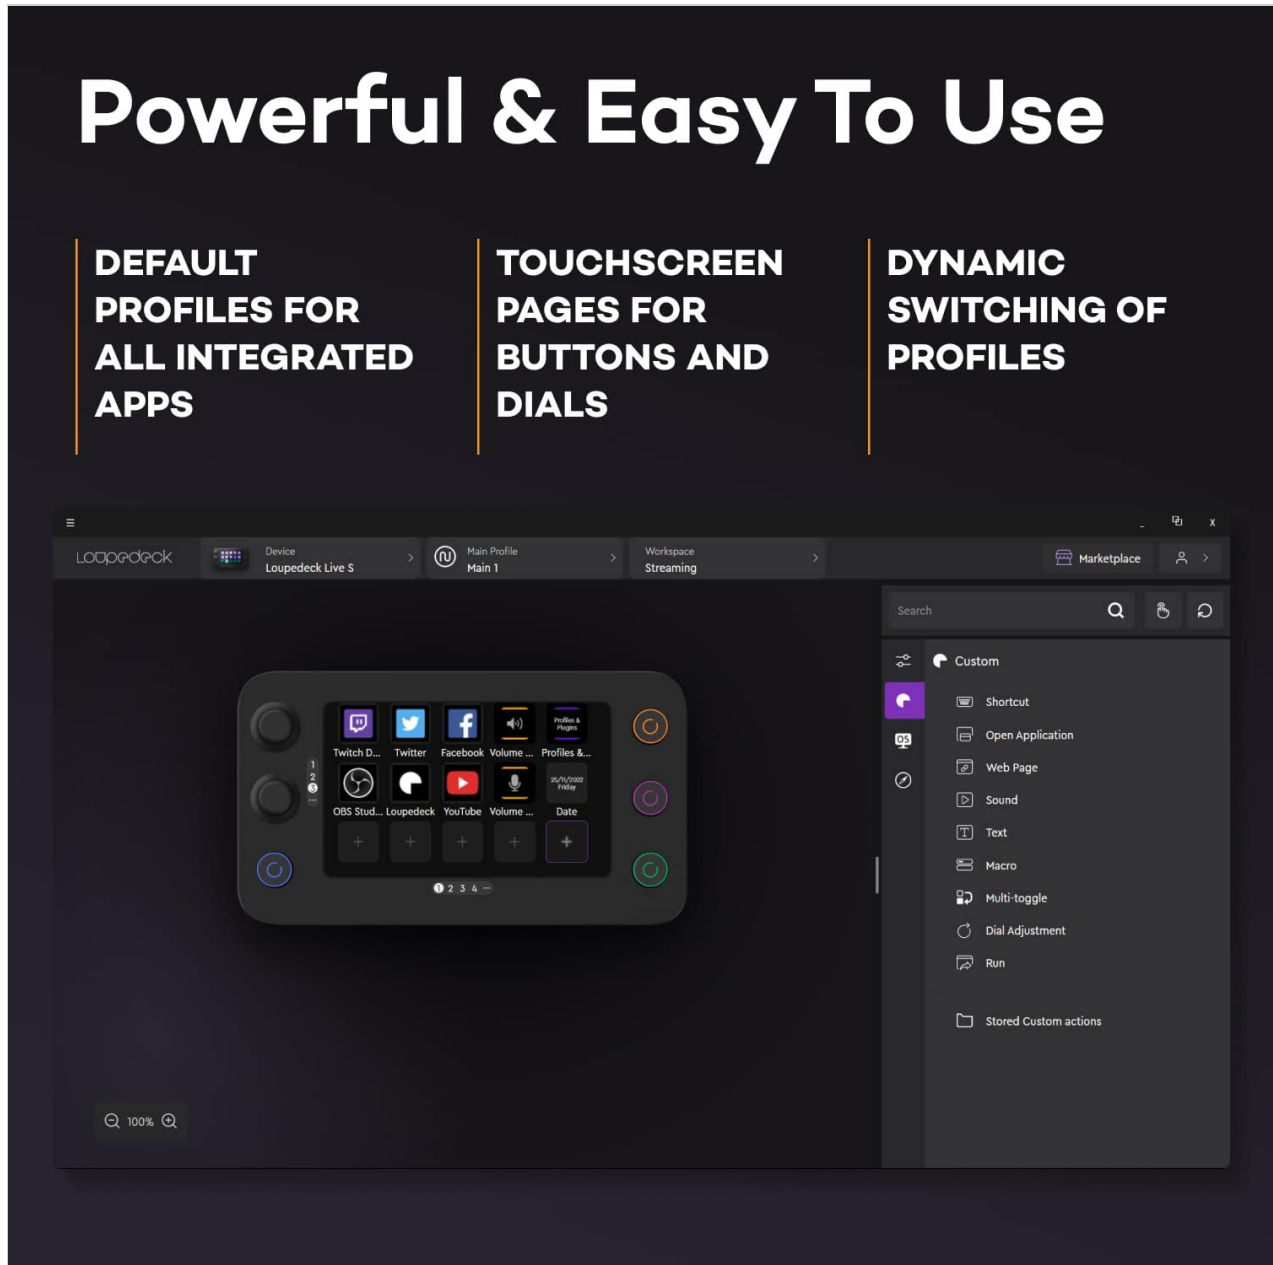

Image: A Loupedeck Live S device connected to a laptop, displaying the Loupedeck software interface. The software shows options for default profiles, touchscreen pages for buttons and dials, and dynamic switching of profiles.

The software allows you to create up to 14 pages of controls for Touch Buttons and Dials. Expand functionality with Custom Actions to create complex macros, multi-toggle actions, and rotary adjustments.

2. OPERATING INSTRUCTIONS

The Loupedeck Live S is designed to enhance desktop productivity, full stream control, and content creation through its customizable interface.

2.1 Studio Control Center

Unlimited Customization

JUST THE WAY YOU WANT IT

Create your own profiles with shortcuts and tools directly in the Loupedeck Software.

Personalize your Loupedeck console to match your setup by adjusting RGB color lights, creating customized static or animated icons, or downloading pre-made icon packs from the Loupedeck Marketplace.

Image: The Loupedeck Live S screen showing a layout of buttons for streaming control, including 'Starting Stream', 'Break', 'Room', 'Chatting', 'Mic/Aux', and 'Desktop Audio'.

- **Stream Control:** Manage your stream, chat, audio, microphone, and lighting.
- **Desktop Control:** Launch media, applications, and websites directly from the console.
- **Editing & Color-Grading:** Speed up your workflow with analog dials for precise adjustments. The dynamic interface automatically switches between apps and profiles.

2.2 Native Plugins & Customization

Loupedeck Marketplace

The screenshot displays the Loupedeck Marketplace interface. At the top, there is a search bar with the text "Search for profiles, plugins and assets". Below the search bar, there are several category buttons: Profiles (47), Plugins (39), Icon Packs (62), Sound Packs (4), Stream Overlays (38), Emotes and Badges (28), and Presets and Styles (10). The "Plugins" section is highlighted, and the text "Explore powerful Loupedeck plugins that seamlessly connect you to your software." is visible. Below this, there are 15 plugin cards arranged in a 3x5 grid. Each card includes a logo, the plugin name, the developer, a brief description, and an "install" button. The plugins shown are: Razer Key Light Chroma (by Razer Inc.), Speedtest (by XeroDev), Spotify (by Loupedeck), Streamer.bot (by XeroDev), DNLMidi (by Danol), Streamlabs (by Loupedeck), Twitch (by Loupedeck), Twitch Studio (by Twitch), VLC media player (by Ihor Kotvitskiy), LrC Lightroom Classic (by Loupedeck), vMix (by Loupedeck), Voicemeeter (by XeroDev), Voicemod (by Voicemod S.L. (developed by XeroDev)), Volume Control (by Oddbear), and OBS Studio (by Loupedeck).

200+ FREE DOWNLOADABLE PLUGINS, PROFILES, ICON AND SOUND PACKS WITH NEW ITEMS ADDED REGULARLY.

Image: The Loupedeck Live S screen showing a grid of icons for different applications such as Twitch, OBS, Spotify, Premiere Pro, and Photoshop.

The Loupedeck Live S supports native plugins for popular applications including OBS Studio, Streamlabs (Windows), Twitch, Ecamm, vMix, Spotify, Adobe Premiere Pro, Final Cut Pro, and Photoshop. Each plugin comes with ready-made profiles for quick setup.
