Logitech Zone Vibe Wireless Bluetooth Headphones User Manual

Model: 981-001198

INTRODUCTION

The Logitech Zone Vibe Wireless Bluetooth Headphones are designed for modern professionals, offering comfort, style, and high-quality audio for video conferencing and everyday use. Certified for Google Meet, Google Voice, and Zoom, these headphones provide a seamless communication experience with advanced features like a noise-canceling microphone and multipoint Bluetooth connectivity.

Image: Logitech Zone Vibe Wireless Headphones shown with their retail packaging, highlighting the product's design and branding.

Key features include:

- **Business Certification:** Certified for Google Meet, Google Voice, and Zoom, ensuring optimal performance for professional communication platforms.
- **Comfortable Design:** Lightweight and adjustable for all-day wear, featuring a fabric headband and memory foam earcups.
- **Noise-Canceling Microphone:** Utilizes beamforming technology and digital signal processing to reduce background noise, ensuring clear voice transmission.
- **Flip-to-Mute Functionality:** Provides immediate privacy by simply flipping the microphone boom arm up.
- **Immersive Audio:** Equipped with 40 mm speaker drivers for rich bass, crisp highs, and low distortion audio.
- **Reliable Wireless Connectivity:** Offers a stable connection via USB-C receiver and multipoint Bluetooth for seamless switching between devices.
- **Sustainable Design:** Made with 25% certified post-consumer recycled plastic (excluding accessories and packaging), contributing to environmental goals.

WHAT'S IN THE BOX

Upon unboxing your Logitech Zone Vibe Wireless Headphones, you should find the following components:

- Logitech Zone Vibe Wireless Headphones
- USB-C Receiver
- USB-A Adapter (for USB-C receiver)
- USB-C to USB-C Charging Cable
- Protective Travel Case

In the box

SETUP

Charging the Headphones

Before first use, fully charge your headphones. Connect the USB-C charging cable to the USB-C port on the headphones and the other end to a USB power source (e.g., computer USB port, wall adapter). The LED indicator will show charging status.

Connecting via USB Receiver

1. Insert the USB-C receiver into an available USB-C port on your computer. If your computer only has USB-A ports, use the provided USB-A adapter.
2. Power on your Logitech Zone Vibe Wireless Headphones.
3. The headphones will automatically connect to the USB receiver. The LED on the receiver will indicate a successful connection.

Connecting via Bluetooth

1. Ensure your headphones are powered on.
2. Activate Bluetooth pairing mode on your headphones (refer to the operating section for specific button presses).
3. On your device (smartphone, tablet, computer), go to Bluetooth settings and select "Logitech Zone Vibe Wireless" from the list of available devices.
4. Once connected, the headphones will confirm the connection.

Image: A visual representation illustrating the dual connectivity options: Bluetooth for mobile devices and a USB receiver for computers.

Multipoint Bluetooth

The Zone Vibe Wireless supports multipoint Bluetooth, allowing you to connect to two devices simultaneously (e.g., a computer via USB receiver and a smartphone via Bluetooth). This enables seamless switching between audio sources without re-pairing.

OPERATING INSTRUCTIONS

Controls Overview

Image: A detailed diagram highlighting the various components and controls of the Logitech Zone Vibe Wireless Headphones, including the fabric headband, speaker drivers, simple controls, lightweight design, USB-C receiver, and the noise-canceling flip-to-mute mic.

The headphones feature intuitive controls located on the earcups for easy management of calls and media playback.

- **Power Button:** Press and hold to power on/off.
- **Volume Up/Down:** Adjust audio volume.
- **Multi-function Button:**
 - Single press: Play/Pause media, Answer/End call.
 - Double press: Next track.
 - Triple press: Previous track.
- **Microphone Mute:** A dedicated button or the flip-to-mute function.

Microphone Usage (Flip-to-Mute)

The integrated boom microphone features a convenient flip-to-mute function. Simply flip the microphone arm upwards to instantly mute your microphone during calls, ensuring privacy. Flip it back down to unmute.

Clear calls with noise-canceling mic

MAINTENANCE

Cleaning

To maintain the longevity and hygiene of your headphones:

- Wipe the earcups and headband with a soft, damp cloth.
- Avoid using harsh chemicals, solvents, or abrasive materials.
- Ensure no moisture enters the speaker grilles or charging port.

Storage

When not in use, store your headphones in the provided protective travel case to prevent dust accumulation and physical damage. Avoid exposing them to extreme temperatures or direct sunlight for prolonged periods.

TROUBLESHOOTING

No Audio/Poor Audio Quality

- Ensure the headphones are powered on and fully charged.
- Verify that the headphones are correctly connected to your device (via USB receiver or Bluetooth).
- Check the volume levels on both the headphones and your connected device.
- If using the USB receiver, try plugging it into a different USB port.
- If using Bluetooth, try unpairing and re-pairing the headphones with your device.

Microphone Not Working

- Ensure the microphone is not muted (check the flip-to-mute position or mute button).
- Verify that the Logitech Zone Vibe Wireless is selected as the input device in your computer's or application's audio settings (e.g., Zoom, Google Meet settings).
- Check for any physical obstructions on the microphone.

Connection Issues

- Ensure the headphones are within the Bluetooth range (up to 10 meters).
- Minimize interference from other wireless devices.
- Restart both the headphones and the connected device.

Firmware Updates and Device Management

For optimal performance and to resolve potential issues, ensure your headphones' firmware is up to date. Logitech provides the **Logitech Sync** software for simple device management and firmware updates.
